<i>List of tables</i>	xi
<i>Notes on terminology, conventions and units of measurement</i>	xiii
<i>Introduction</i>	1
1 <i>Food crises and technology transfer: Sierra Leone 1919–1949</i>	4
The rice crisis of 1918–19	5
The Asian option	6
Strengthening the research base	9
The indigenous alternative	10
The return of technology transfer: the polder irrigation scheme	12
2 <i>Bringing the Green Revolution to Sierra Leone</i>	15
The Green Revolution	16
Green Revolution in Sierra Leone	18
Limitations to the Green Revolution swamp package	22
An alternative to technology transfer	25
Conclusion	27
3 <i>Mogbuama: landscape and society</i>	28
A general introduction to the case study	28
The landscape	29
Administration and politics	45
Settlement pattern and population characteristics	49
Social organisation	52
Summary	57
4 <i>Land and labour</i>	58
Types of farm	58
Who can farm?	60
Land types and land tenure	60
Land availability and fallow periods	63
The farm household	65
Household work – the roles of men, women and children	68
Non-household labour	69
Summary	74
5 <i>The farming year</i>	76
Choosing and brushing a farm site	76
The burn	79
Clearing	85
Rice planting	86

Weeding, pest control and bird scaring	92
Harvesting	97
Conclusion	98
6 <i>The harvest</i>	102
Data sources	102
Mogbuama agricultural output	104
Agricultural savings in Mogbuama	107
Rice farm yields	108
Failure and success	111
Conclusion	114
7 <i>The hungry season</i>	115
The anatomy of pre-harvest hunger in Mogbuama	116
Coping with hunger in Mogbuama	118
Patronage and entitlement	128
Conclusion	129
8 <i>Rice varieties and farmer experiments</i>	131
Rice classification in Mogbuama	134
Development of indigenous rice varieties: selection and experiment	138
Adoption and abandonment of rice varieties	143
Conclusion	144
9 <i>Rice R&D in Sierra Leone: a farmer-first-and-last scenario</i>	147
Lessons of the case study	147
Early rice	148
Upland farms	152
Swamp rice	153
Conclusion	155
<i>Conclusion</i>	156
Postscript	157
