Contents

List of Contributors	ix
About the Editors	xi
Foreword	xiii
Preface	xvii
Acknowledgements	xix
Notation	xx
1 Perspectives on River Channel Restoration <i>A. Brookes and F.D. Shields Jr</i>	1
SECTION 1 GUIDING PRINCIPLES AND METHODS FOR RESTORATION	21
2 Hydraulic and Hydrologic Stability <i>F.D. Shields Jr</i>	23
3 Geomorphological Principles for Restoring Channels <i>A. Brookes and D.A. Sear</i>	75
4 Habitat Enhancement <i>A. Brookes, S.S. Knight and F.D. Shields Jr</i>	103
SECTION 2 CATCHMENT AND FLOODPLAIN CONTEXTS	127
5 Catchment Approach to Planning Channel Restoration <i>G. M. Kondolf and P.W. Downs</i>	129
6 The Sediment System and Channel Stability <i>D.A. Sear</i>	149
7 Water Quality Issues in River Channel Restoration <i>E.E. Herricks</i>	179
8 Floodplain Restoration and Riparian Zone Management <i>A. Brookes, J. Baker and C. Redmond</i>	201
SECTION 3 CASE STUDIES	231
9 River Restoration Experience in Northern Europe <i>A. Brookes</i>	233

10	Lowland Stream Restoration in Denmark <i>M.B. Nielsen</i>	269
11	Restoration Approaches in California <i>J.P. Haltiner, G.M. Kondolf and P.B. Williams</i>	291
12	Naturalization of Headwater Streams in Illinois: Challenges and Possibilities <i>B.L. Rhoads and E.E. Herricks</i>	331
13	Restoring the Hydrogeomorphology of the Channelized Kissimmee River <i>L.A. Toth</i>	369
14	Towards an Approach to Sustainable River Restoration <i>A. Brookes and F.D. Shields Jr</i>	385
