Contents

Preface	xi
Author's Foreword	xiii
Acknowledgements	xvii
Executive Summary	xix
1 Introduction: A Country Worth Knowing Better	1
1.1 Romania for beginners	1
1.2 Romanian history in brief	5
1.3 Energy in Romania: historical background	13
2 Starting to Rebuild	21
2.1 Picking up the pieces	21
2.2 Into transition	26
2.3 Awakening enterprise	32
2.4 Reshaping energy	35
2.4.1 The old regime	35
2.4.2 Getting the picture	37
3 Romania's Energy Framework	47
3.1 Key players	47
3.2 Ministry of Industries	49
3.3 Romanian Energy Conservation Agency (ARCE)	51
3.4 Regia Autonoma de Electricitate (RENEL): electricity authority ..	53
3.5 Regia Autonoma a Lignitului (RAL): lignite authority; Regia Autonoma a Huilei (RAH): hard coal authority	60
3.6 Regia Autonoma a Gazelor Naturale (ROMGAZ RA): natural gas authority	65
3.7 Regia Autonoma a Petrolului: (PETROM RA): petroleum authority	68

3.8 Renewable energy	73
3.9 Energy research institutes	74
3.10 Changing the groundrules	76
4 Financing Transition	85
4.1 Leu trouble	85
4.2 Industrial problems	89
4.3 Finances in transition	90
4.3.1 Emerging from turmoil	90
4.3.2 Financing investments	94
4.3.3 Financing foreign trade	96
4.3.4 Financing research and development	97
4.4 Energy prices	98
5 Promoting Efficiency	101
5.1 'Freezing in the dark'	101
5.2 Impetus and impediments	105
5.3 Changing minds	107
5.4 Energy education	109
5.5 Energy centres	110
5.6 Energy performance standards and labelling	114
5.7 Financing energy efficiency	115
5.8 From central planning to the market	116
5.8.1 Privatizing for efficiency: agriculture	116
5.8.2 Privatizing for efficiency: industry	117
6 Investing for Energy Efficiency	121
6.1 Understanding investment	121
6.2 Improving energy efficiency in buildings	123
6.3 District heating	129
6.4 Lighting	133
6.4.1 Lighting residences	133
6.4.2 Lighting offices, educational establishments and hospitals ..	133
6.4.3 Lighting industrial spaces and roadways	133
6.5 Industrial opportunities	134

6.6 Industry-wide efficiency measures	138
6.6.1 Variable-speed motor drives	139
6.6.2 Regenerative ceramic burner systems for metal heating furnaces	140
6.7 An industrial shopping list	141
6.7.1 Ammonia	142
6.7.2 Electric steel-making	143
6.7.3 Iron and steel castings	145
6.7.4 Aluminium	146
6.7.5 Oil refining and petrochemistry	146
6.7.6 Cement	148
6.7.7 Glass products	150
6.7.8 Earthenware plates	150
6.7.9 Natural cotton fibres	151
6.7.10 Cotton textiles and flax-hemp	152
6.7.11 Leather goods and footwear	152
6.7.12 Sugar from sugar beets	153
6.8 Efficiency activities in progress	153
7 International Cooperation	157
7.1 Rebuilding relations	157x
7.1.1 Initial context	157
7.1.2 The early transition	158
7.2 International relations today	159
7.2.1 Trade relations	159
7.2.2 Technical assistance programmes	160
7.2.3 Technical and scientific cooperation	161
7.3 Expanding the circle	163x
7.3.1 Improving the information base	164
7.3.2 Improving supply links	164
7.4 Regional cooperation	165
8 Energy, Efficiency and Policy	167
8.1 Completing reform	167
8.2 Laws and regulations	168

8.3 Information, education and advice	171
8.4 The view from ARCE	174
8.5 Something for everyone.....	174
Appendix 1 Concise Energy Policy Proposals	179
Appendix 2 Organizations in the Energy Field	187
Appendix 3 Romanian Institutions and Organizations in the Energy Field: Contacts	193

Tables

3.1 Trends in electricity use, 1989-1993	58
3.2 Age structure of RENEL thermal power stations in 1992	58
3.3 Transmission and distribution of electricity in Romania, 1991	60
3.4 Coal and lignite specifications	63
3.5 Coal and lignite production and use, 1990-1992.....	63
3.6 Natural gas balance (minimum scenario)	68
3.7 Romanian refining capacity, end 1992	71
3.8 Refinery throughput and production, 1980-1992	73
5.1 Housing completed, 1989 and 1992	118
5.2 Numbers of enterprises and employees, 1989 and 1992	118
6.1 Household energy savings	124
6.2 Distribution of dwellings by heating system, 1970-1992	124
6.3 Structure of energy supplies to the public by energy carrier, 1990-1992	128
6.4 Average specific energy use for dwellings, 1990-1992	128
6.5 Variable-speed motor drives: potential energy savings in industry	140
6.6 Ammonia plants	144
6.7 Structures of steel output.....	144
6.8 Specific energy use in refineries, 1988	149
6.9 Specific energy use for glass products, 1988	151
6.10 Efficiency projects with ARCE support	155

Figures

1.1	Map of Romania and neighbouring countries	3
2.1	Energy supply and use – shares by fuel, 1991	41

Box

2.1	Energy supply sector studies	43
