List of Figures	ix
List of Tables	xi
Acknowledgments	xv

## **CHAPTER 1**

<i>An Overview of the Research, the Theories Underlying the Interpretation of the Results, and the Conclusions</i>	3
1.1. The Neoclassical Model and the Analysis of Socialist Economies	5
1.2. Some Limitations of the Competitive Model Pertinent to the Study of Socialist Economies	10
1.3. Alternative Views	13
1.4. An Overview of the Book and a Foretaste of the Results	17
1.5. A Note for Skeptics	23

## **CHAPTER 2**

<i>The Variables Used in the Analysis: Their Properties and Sources of Data</i>	25
2.1. The Trade Data: An Overview	26
2.2. The Properties of Revealed Comparative Advantages	32
2.3. The Measurement of Factor Endowments	37
2.4. The Country Groupings Used in the Presentation of the Results	39
2.5. Further Details on the Trade Data	41
2.6. Details on the Data Used for the Measures of Factor Endowments	42

## **CHAPTER 3**

<i>International Trade Theory and the Centrally Planned Economies</i>	44
3.1. The Heckscher-Ohlin Model	45
3.2. Models of Product Differentiation and Economies of Scale	47
3.3. Further Elements of Trade Theory	50
3.4. Thinking about the Trade of CPEs: An Introduction	53
3.5. A Brief Overview of the Institutions of CPEs	56
3.6. The Decision-Making Environment for Producers	60

3.7. The Nature of Production Technology	65
3.8. The Stock of Endowments	71
3.9. Preferences	75
3.10. The Relative Applicability of Neoclassical Trade Models in CPEs and MEs	78

## CHAPTER 4

Qualitative Information on Nonstandard Trade Determinants: Summary Statistics from Trade Data	82
4.1. Measures of Economic Performance Based on Trade Statistics Alone	83
4.2. The Groupings of Goods Used in the Analysis of RCAs	92
4.3. A Ladder of Trade: The Position of the Centrally Planned Economies	99
4.4. The Interaction of Production Characteristics and Economic System	106
4.5. The Character of Markets and the Behavior of Economic Systems	116
4.6. The Economic System and the Characteristics of Goods	131
4.7. Summarizing the Summary Statistics	138

## CHAPTER 5

The Econometrics of Estimating Endowments Implicit in Trade Decisions and Measuring Country Conformity to Trade Models	141
5.1. A Brief Overview of the Statistical Methods	142
5.2. The Underlying Model	144
5.3. The Derivation of Estimators of Factor Endowments Implicit in Trade	146
5.4. Measuring the Ability of the Models to Estimate Factor Endowments	148
5.5. Goodness-of-Fit Measures for Individual Countries	149
5.6. Estimating Factor Endowments Implicit in a Time Series of Trade Data	152
5.7. Construction of Trade Aggregates for Use in the Econometric Analysis	153
5.8. Computational Procedures	154

## CHAPTER 6

The Levels of Resource Endowments Implicit in Eastern European Trade Patterns: Estimates for Eleven Endowments	156
6.1. Models for Estimating Endowment Levels Implicit in Trade Decisions	158
6.2. Choosing Which Model to Use in Estimating the Endowments Implicit in the Trade Patterns of CPEs	163
6.3. Estimates of Resource Endowments Implicit in 1975 Trade Patterns	166
6.4. Time Series of Endowment Levels Implicit in Trade Patterns: 1966–1983	176

---

6.5. On Possible Criticisms of This Book's Interpretations of the Results	181
6.6. Summarizing the Results	192
 <b>CHAPTER 7</b>	
Measuring How Closely the Trade Patterns of Socialist and Capitalist Economies Fit Standard Trade Models	194
7.1. Possible Interpretations of Measures of How Closely Trade Patterns Fit Standard Trade Models	195
7.2. A Diagrammatic Exposition of the Calculation of the Measures	197
7.3. How the Measures Were Obtained, and the Basic Results	203
7.4. The Coherency Interpretation of the Measures	209
7.5. The Static Efficiency Interpretation of the Measures	210
7.6. Examining the Robustness of the Results	217
7.7. Conclusions	220
 <b>EPILOGUE</b>	
The Results and Some Questions They Raise	222
 <b>APPENDIX A</b>	
Do RCAs Reveal Comparative Advantage?	229
 <b>APPENDIX B</b>	
Derivation of Equations Representing Trade Models	237
 <b>APPENDIX C</b>	
Interpreting the Values of RCAs in the Presence of Intraindustry Trade	243
 <b>APPENDIX D</b>	
Interpreting the Estimates in the Presence of Missing Data	249
