Exhibits	vii
Tables	ix
Preface	xi
Acknowledgments	xv
Assessment Team and Review Panel	xvii
Abbreviations	xix
<b>PART ONE: INTRODUCTION</b>	<b>3</b>
I. Assessment Overview	5
A. Background	5
B. Assessment Purpose	6
C. Six Alternative Sets of Assumptions	7
D. Conclusions	8
E. Methodology	16
F. Book Organization	17
<b>PART TWO: ANALYSES</b>	<b>19</b>
II. Six Potential Futures	21
III. Potentials for Regret: Policy/Future Mismatches	53
IV. Principles for Electric Power Policy	80

<b>PART THREE: BACKGROUND</b>	<b>119</b>
V. Finance	121
VI. Health and the Environment	147
VII. Power Systems Reliability	166
VIII. Demography	193
IX. Research, Development, and Demonstration Policy	209
X. Historical Perspective on Electrification	230
<b>PART FOUR: PANELISTS' VIEWS</b>	<b>249</b>
Expert Panelists' Individual Comments: Disagreements and Elaborations	251
Appendix A. Research Design and Methodology	263
Appendix B. Expert Opinion Survey—Final Results	287
Appendix C. Example Statistical Descriptions of Six Potential Futures	427
Appendix D. Data Sheets for Exhibits in Chapter V	435
Index	443
