<i>List of Figures</i>	xii
<i>List of Abbreviations</i>	xiii
<i>Notes on Contributors</i>	xvi
PART I INTRODUCTION	1
1 The Power Generation Sector in Africa: An Overview	3
<i>V. Ranganathan</i>	
Electricity – market good vs social good	3
The power sector, political stability, and law and order	4
The power sector vs the economy	5
The regional approach to electricity investments	6
The role of 'aid' in power sector development	7
Supply and demand	9
The performance of the electric utilities	10
Operational management in the utilities	12
Privatization	13
Conclusion	13
PART 2 ZAMBIA	15
2 The Power Sector in Zambia: A Background	17
<i>A. Mbewe</i>	
The economy	17
The energy background	20
A history of power sector development	29
Zambia's electricity supply	31
3 The Zambia Electricity Supply Corporation Ltd (ZESCO)	33
<i>A. Mbewe</i>	
Organizational structure	33
Operational structure	35
Performance evaluation	36
Tariffs	42
Power shortages	56
Growth and consumption of electricity	57

4	Planning in the Zambian Power Sector	60
	<i>A. Mbewe</i>	
	Forecasting power demand	60
	Strategic planning	63
	Strategies to meet demand	67
	Power sector financing	70
	Environmental considerations	72
	Options for improvement	73
	Privatization	74
	Regional cooperation	75
	Sectoral demand and the future of the power sector	78
	Energy efficiency of the industrial sector	82
5	Conclusions and Recommendations	94
	<i>A. Mbewe</i>	
	Short-term measures	94
	Medium-term measures	95
	Long-term measures	96
PART 3 LESOTHO		99
6	A Background to the Electric Power Sector in Lesotho	101
	<i>L. Khalema-Redeby</i>	
	The power sector in Lesotho	102
	Problem setting	104
7	Energy Planning for Lesotho: A Survey of the Literature and a Conceptual Model	105
	<i>L. Khalema-Redeby</i>	
	The concept of planning and management of the power sector	105
	Features of the electricity sector in different countries	107
	Features of the electricity sector in Lesotho	110
	Conceptual model	111
	Environmental issues	116
8	Power Sector Performance: Findings and Analysis	121
	<i>L. Khalema-Redeby</i>	
	Power sector objectives	121
	Government policies and regulations	121
	LECs structure and policies	122
	External factors	124
	Demand analysis	125
	Supply analysis	133
9	Conclusion and Recommendations	137
	<i>L. Khalema-Redeby</i>	
	Conclusion	137
	Recommendations	137

PART 4 ETHIOPIA	141
10 The Status and Performance of the Power Sector in Ethiopia	143
<i>H. G. Mariam, assisted by W. Bogale</i>	
Introduction	143
Background	144
The problem	144
Research tasks and methodology	145
Literature survey	146
Previous studies of the power sector	150
History of power sector development	156
The organization of the power sector	158
Growth and consumption of electricity	159
Composition of electricity demand and structural change over time	159
Present generation and transmission of power	161
Power sector equipment	165
Power shortage	166
Power demand forecasting in the EELPA system	169
Power planning and management in Ethiopia	171
Source mix and substitution possibilities	172
Power sector financing	174
Tariffs and internal revenue generation	176
The tariff structure in 1994	179
Human resources in the power sector	184
Performance indicators	186
11 Electric Energy Consumption in the Industrial Sector	188
<i>H. G. Mariam, assisted by W. Bogale</i>	
A background to the industrial sector	188
Ethiopian industry in the 1990s	190
The industrial survey: scope and basic assumptions	191
Energy institutes – energy efficiency and energy cost	195
Electricity and other forms of fuel	198
Other fuels	198
Electricity vs fuel-oil prices	200
Energy efficiency	200
The role of electricity in industry	201
Inter-fuel substitution	202
12 Future Plans and Prospects of the Power Sector	204
<i>H. G. Mariam, assisted by W. Bogale</i>	
Electricity demand in the short and medium terms	204
Supply and demand	204
Transmission lines	207
Power export arrangements: prospects, status and problems	207

	Ethiopia–Sudan interconnection	212
	Demand management during the power-crunch period	215
	Demand side management (DSM) for the power sector	218
	The environment and the power sector's future	231
	The role of institutions	232
13	Conclusions and Recommendations	234
	<i>H. G. Mariam, assisted by W. Bogale</i>	
	The industrial sector	234
	The power sector	235
	Policy recommendations	236
	PART 5 BOTSWANA	239
14	The Power Sector in Botswana: Background and Literature	241
	<i>B. R. Ramasedi</i>	
	Literature survey	241
15	The History and Present Organization of the Power Sector in Botswana	246
	<i>B. R. Ramasedi</i>	
	Power development	246
	Organization of the power sector	248
	Implications of power shortages for industrial, domestic and other consumers	253
16	Present into Future: Analysing the Power Sector	255
	<i>B. R. Ramasedi</i>	
	Source mix of electricity generation	255
	Export arrangements	256
	Load forecasting	256
	Tariffs and internal revenue generation	257
	A technical performance appraisal of the power sector	262
	Financial performance appraisal	270
17	POSTSCRIPT	275
	<i>Stephen Karekezi, Lugard Majoro and John Kimani</i>	
	Current status of the power sector and planned investments	276
	Current performance of the power sector	277
	Regulatory and structural changes	283
	Ownership (privatization) changes	284
	<i>References</i>	287
	<i>Appendix 1</i>	293
	<i>Appendix 2</i>	294
	<i>Index</i>	296
