<i>Preface</i>	xi
<b>1 Introduction</b>	<b>1</b>
1.1 The backdrop	1
1.1.1 Some stylized facts	3
1.1.2 Key research questions	5
1.2 Major objectives	8
1.3 Methodology and database	9
1.4 Organisation of the book	10
<b>2 Macroeconomic Adjustment in India:</b>	
<b>Nature of the Policy Setting</b>	<b>12</b>
2.1 Introduction	12
2.2 India's emerging macroeconomic environment - 1950-1990	13
2.2.1 The antecedents of the Indian macroeconomic crisis	13
2.2.2 The 1991 policy response	21
2.3 An analysis of performance of recent macroeconomic policies since 1980	23
2.3.1 Effect of liberalisation on growth	23
2.3.2 Effect of policies on controlling inflation	25
2.3.3 The nexus between fiscal deficit, BOP, and money supply	28
2.4 Conclusion	32
<b>3 Annals of Indian Macroeconomic Modelling Efforts</b>	<b>44</b>
3.1 Introduction	44
3.2 Macroeconomic models of the Indian economy	46
3.2.1 Plan models and computable general equilibrium models for India	47
3.2.2 Macroeconometric models	51
3.2.2.1 Theoretical difficulties in building macroeconometric models for India	51

3.2.2.2	Specific components of macroeconometric models	55
3.2.3	Control-theoretic models	63
3.3	A critical appraisal	66
3.4	Conclusion	69
<b>4</b>	<b>Policy Models for Growth-oriented Macroeconomic Adjustment: An Analytical Critique</b>	<b>71</b>
4.1	Introduction	71
4.2	The model	72
4.2.1	Assumptions of the model	73
4.2.2	The macroeconomic framework	73
4.2.3	The monetary component	74
4.2.4	The growth component	75
4.2.5	The merged model	76
4.3	A critical look at the model	79
4.4	Conclusion	85
<b>5</b>	<b>Dynamics of Macroeconomic Adjustment with Growth: Some Simulation Results</b>	<b>86</b>
5.1	Introduction	86
5.2	The analytical model	88
5.2.1	Structure of the model	89
5.3	Econometric evidence for the investment model	94
5.4	Dynamic responses to policy shocks	97
5.4.1	The basic model	97
5.4.2	The extended model	99
5.4.3	Modelling expectations	101
5.5	Conclusion	102
<b>6</b>	<b>A Dynamic Macroeconometric Model for Short-run Stabilisation</b>	<b>110</b>
6.1	Introduction	111
6.2	Analytics of the stabilisation model	112
6.2.1	The VS model	113
6.2.2	Critiques of the VS model	114
6.2.2.1	Monetary disequilibrium	116
6.2.2.2	Export function	117
6.2.2.3	Import function	117
6.3	Dynamics of Indian inflation	119

6.4 Model estimation	122
6.4.1 Pre-tests for integration and cointegration	123
6.4.2 Empirical results	124
6.5 Model simulation	128
6.6 Conclusion	131
<b>7 Determinants of Long-term Growth: A Keynesian Approach</b>	<b>141</b>
7.1 Introduction	141
7.2 Analytics of economic growth	143
7.2.1 Neoclassical model with endogenous growth	144
7.2.2 Export-led model of growth	146
7.3 Empirical analysis	150
7.3.1 Testing for stationarity	150
7.3.2 Cointegration and short-run dynamics	151
7.4 Conclusion	156
<b>8 Designing Adjustment Policies with Growth in the Optimal Control Framework</b>	<b>162</b>
8.1 Introduction	162
8.2 The model	163
8.2.1 Definition of variables used in the model	164
8.2.2 Structure of the model	165
8.2.3 Dynamic properties of the model	166
8.3 The design of optimal control exercise	168
8.3.1 A digest on optimal control applications	169
8.3.2 Policy experiments using optimal control	170
8.3.2.1 Experiment 1	172
8.3.2.2 Experiment 2	175
8.4 Conclusion	179
<b>9 Conclusion</b>	<b>181</b>
9.1 Theoretical overview	181
9.2 Empirical findings	183
9.3 Policy implications	186
9.4 Concluding remarks towards a research strategy	188
<b><i>Bibliography</i></b>	<b>189</b>
