Tropical Forest Census Plots:

Methods and Results from Barro
Colorado Island, Panama and a
Comparison with Other Plots

Springer

CONTENTS

Part 1: A Network of Large Forest Plots in the Tropics	1
1.1. The CTFS and the Standardization of Methodology	3
Purpose of this Book	4
Layout of the Book	5
1.2. Design and Purpose of the Large Plot Network	9
The Purpose of a Large Forest Plot	9
The CTFS Network of Plots	10
Selecting a Site	10
Personnel	12
Part 2: Field Methods for a Large Forest Plot	15
Introduction and Overview	17
2.1. Topography and the Mapping Grid	19
Equipment and Supplies	19
Phase 1—The Survey	20
Phase 2—Placing the 5-m Grid	24
Phase 3—Calculating the Topography and Its Accuracy	26
Rationale for the Methods and Alternative Approaches	29
Time and Labor for Placing the Grid	34
2.2. Censusing Trees	37
Personnel	37
Equipment and Supplies	38
Plants to Include	38
Work Sequence	39
Phase 1—Demarcating Subquadrats	39
Phase 2—Data Collection	39
Phase 3—Checking the Work	55
Rationale for the Methods and Alternative Approaches	56
Time, Labor, and Costs	62
2.3. Taxonomy	65
Personnel	65
Phase 1—Review What Is Known	66
Phase 2—The First Two Hectares	66
Phase 3—Completing 50 Ha	68
Well-Known Flora	70
Rationale for the Methods and Alternative Approaches	70
Time and Labor	71
2.4. Checking the Field Work	73
Phase 1—Dbh Checks	73
Phase 2—Taxonomy Checks	75
Alternative Approaches to Checking	75
Time and Labor	76

2.5. Recensus	77
Census Interval	77
Before the Recensus	77
Personnel and Work Teams	78
Equipment	78
Plants to Include	78
Data Collection	78
Taxonomy and Checking	85
A Third Census and Beyond	86
Rationale for the Methods and Alternative Approaches	87
Time and Labor	89
2.6. Affiliated Censuses at BCI	91
Seeds and Fruits	91
Canopy Height	92
Lianas	93
2.7. Summary and Overview	95
Similarities and Differences	95
Labor Needs	97
Equipment Needs	97
Time	97
Total Cost for a Large Plot	97
Part 3: Database Methods for a Large Forest Plot	101
Introduction and Overview	103
3.1. Data Entry	105
Initial Data Entry	105
Checking the Data	111
Merging the Databases	112
Equipment, Time, and Labor	114
Programs and Boxes	117
3.2. Constructing a Database for the First Census	135
Data Fields in the Final Database	135
Data Fields Removed from the Final Database	138
Splitting the Database in Two	138
Database Correction	140
Backing Up!	141
Field Sheets for the Next Census	141
Equipment, Time, and Labor	141
Programs and Boxes	143

3.3. Constructing a Database After the Second Census	161
Recruits	161
Original Trees	161
The Final Database	164
Third and Later Censuses	166
Final Database Structure	166
Database Correction	167
Field Sheets for the Next Census	167
Appendix 3.3. POM Problems at BCI	171
3.4. Data Availability	173
BCI Data	173
The Other Large Plots	174
Part 4: Species Distribution Maps from the 50 ha Plot	
at Barro Colorado Island	177
Introduction	179
Habitat Map	179
Species Maps	181
References	203
Index	207
