CONTENTS

PREFACE	xii
1. INTRODUCTION: WORLDS APART	3
The Third World 5 <i>Terminology: Rich and Poor Countries</i> • <i>Terminology: Growth and Development</i> A Development Continuum 8 Focus of the Book 13 <i>Approaches to Development</i> • <i>Organization</i>	Part 1. THEORY AND PATTERNS
2. STARTING MODERN ECONOMIC GROWTH	16
The Developing Nations: A Glance at History 17 Colonialism and Independence 18 The Developing Nations: A Brief Taxonomy 20 The Concept of Substitutes 20 Political Obstacles to Development 23 <i>Political Stability</i> • <i>Political Independence</i> • <i>Government Support of Development</i> Social Values as Obstacles to Development 26 <i>Entrepreneurship</i> • <i>Motivation for Development</i> International Obstacles to Development 30 <i>Gains from Trade: A Preliminary View</i> • <i>Drawing on Experience</i> • <i>Imperialism</i>	
3. GROWTH AND STRUCTURAL CHANGE	37
Estimating Gross National Product 39 <i>What is Included in GNP?</i> • <i>Exchange-Rate Conversion Problems</i> • <i>Other Index-Number Problems</i> One-Sector Growth Models 44 <i>The Harrod-Domar Model</i> • <i>Production Functions</i> • <i>Sources of Growth</i> The Changing Structure of Output 50 Two-Sector Models 54 <i>The Production Function</i> • <i>The Neoclassical Model</i> Industrial Patterns of Growth 64 <i>Empirical Approaches</i> • <i>Theoretical Approaches</i> • <i>Backward and Forward Linkages</i> Appendix: Deriving the Sources of Growth Equation 68	
4. DEVELOPMENT AND HUMAN WELFARE	71
Concepts and Measures 73 <i>Income Distribution</i> • <i>Inequality Measures</i> • <i>Poverty Measures</i> • <i>Equality and Equity</i> • <i>Basic Human Needs and Social Indicators</i> • <i>Distribution Weights</i> Patterns of Inequality and Poverty 84 <i>Evidence for Kuznets' Inverted U</i> • <i>Exceptional Cases</i> • <i>Other Explanatory Factors</i> • <i>How Growth Reduces Poverty</i> • <i>The Determinants of Income Distribution</i> Theories of Inequality and Poverty 91 <i>Ricardo's Two-Sector Model</i> • <i>Marx's View</i> • <i>The Neoclassical Theory</i> • <i>The Labor-Surplus Model</i> Strategies for Growth with Equity 94 <i>Redistribute First, then Grōw</i> • <i>Redistribution with Growth</i> • <i>Basic Human Needs</i> Key Policy Issues 98	

5. PLANNING, MARKETS, AND POLITICS	99
Plans and Markets 99 <i>Mixed Economies • Socialist Economies National Planning</i> The Planning Process 106 <i>The Politics of Planning • Planning as Process • Decentralization and Participation • Development Plans</i> Implementation 114 <i>Economic Forecasting • Administrative Capacity • Bureaucratic Politics—Once More</i> The Resurgence of the Market 118	
6. PLANNING MODELS	121
Consistency and Optimality 122 <i>Keynesian Growth Models</i> 124 <i>Interindustry Models</i> 127 <i>Input-Output Analysis • Social Accounting Matrix • Linear Programming • Computable General Equilibrium Models</i> Project Appraisal 135 <i>Present Value • Opportunity Costs • Shadow Prices • Project Appraisal and National Goals • Transforming Market Prices into Shadow Prices</i>	
7. POPULATION	147
Demographic Measures 148 <i>A Brief History of Human Population</i> 149 <i>The Present Demographic Situation</i> 152 <i>The Demographic Future</i> 156 <i>The Causes of Population Growth</i> 157 <i>Malthus and His World • Mechanisms for Reducing Birth Rates • Modern Theories of Fertility</i> Analyzing the Effects of Rapid Population Growth 162 <i>Optimum Population • Dynamic Effects of Population Growth</i> Population Policy 166 <i>Policy Alternatives • The “Developmentalist” Approach • Selective Interventions</i>	
8. LABOR’S ROLE	175
Analyzing Employment Issues 176 <i>Growth of Labor Supply • Patterns of Employment • The Structure of Labor Markets • Measuring Labor Supply and Utilization • Other Ways to Measure Labor Underutilization</i> Labor Reallocation 186 <i>Costs and Benefits of Reallocating Labor • Internal Migration • International Migration</i> Employment Policy 192 <i>Labor Absorption through Industrialization • Elements of a Solution • Factor Pricing Distortions • Correcting Factor Price Distortion • The Role of Technology • Technology Policies • Other Employment Policies</i> Government Strategies 205	
9. EDUCATION	206
Importance of Education 207 <i>Trends and Patterns</i> 211 <i>Types of Learning • Characteristics of LDC Education</i> Education’s Role in Development 215 <i>Manpower Planning • Cost-Benefit Analysis • Using the Analysis in Education Planning • Alternative Viewpoints • Formal Modeling</i>	
10. HEALTH AND NUTRITION	227
Health in the Third World 228 <i>Patterns and Trends • Causes of Sickness and Death</i> Effects of Health on Development 234 <i>Environmental Health</i> 236 <i>Malnutrition</i> 238 <i>Food Consumption • Nutritional Interventions</i> Medical Services 246	

Part 2.
HUMAN
RESOURCES

11. CAPITAL AND SAVING

Investment Requirements for Growth 254 *Effective Use of Capital • Capital-Intensive or Labor-Intensive Investment: A Hypothetical Case • Investment Ratios in LDCs* Sources of Savings 259 *Taxonomy of Savings • Domestic Savings • Government Savings • Private Domestic Savings* Determinants of Private Savings 267 *Household Savings Behavior • Corporate Savings Behavior* International Mobility of Capital and Domestic Savings Mobilization 274 *Short- and Long-run Mobility • Evidence of International Capital Mobility*

12. FISCAL POLICY

278

Taxation and Public Savings 280 *Constraints on Taxation • Tax Measures for Expanding Public Savings • Taxes on Natural Resources • Taxes on International Trade: Import Taxes • Taxes on International Trade: Export Taxes • Personal and Corporate Income Taxes • Sales and Excise Taxes • New Sources of Tax Revenues • Changes in Tax Administration • Fundamental Tax Reform* Government Expenditures 295 *Expenditure Policies • Nondurable Goods and Services • Subsidies • Interest Payments • Intergovernmental Transfers* Taxes and Private Investment 301 *Taxes and Private Savings • Taxes and Capital Mobility* Income Distribution 305 *Taxation and Equity • Personal Income Taxes • Taxes on Luxury Consumption • Corporate Income and Property Taxes: The Incidence Problem • Limited Effects of Redistribution Policy • Expenditures and Equity* Economic Stability 314 *Economic Efficiency 318 Sources of Inefficiency • Neutrality and Efficiency: Lessons from Experience*

13. FINANCIAL POLICY

323

Views on the Role of Finance in Development The Functions of a Financial System 325 *Money and the Money Supply • Financial Intermediation • Transformation and Distribution of Risk • Stabilization* Inflation and Savings Mobilization 329 *Inflation in the LDCs: The Recent Record • Forced Mobilization of Savings • Inflation as a Stimulus to Investment • Inflation and Interest Rates* Interest Rates and Saving Decisions 340 *Theories of Saving • Interest Rates and Liquid Assets* Financial Development 345 *Shallow Finance and Deep Finance • Shallow Financial Strategy • Deep Financial Strategies • Informal Credit Markets* Monetary Policy and Price Stability 353 *Monetary Policy and Exchange Rate Regimes • Sources of Inflation • Controlling Inflation through Monetary Policy • Reserve Requirements • Credit Ceilings • Interest Rate Regulation and Moral Suasion*

14. FOREIGN SAVINGS: AID AND INVESTMENT

363

Concepts and Magnitudes 363 *Definitions • Recent Trends* Foreign Aid 366 *Historical Role • Aid Institutions and Instruments • Impacts on Development* Foreign Investment and the Multinationals 375 *Multinationals' Investment Patterns • Characteristics of Multinationals • The Multinational Investment "Package" • LDC*

Policies toward Foreign Investment • Objectives of Multinational Firms • Conflict and Conflict Resolution Commercial Borrowing 394 The LDC Debt Crisis 396 Causes of the Crisis • Avoiding Future Crises

Part 4.
TRADE AND DEVELOPMENT

15. PRIMARY-EXPORT-LED GROWTH 405

The Structure of Foreign Payments 405 Comparative Advantage 408 Export Characteristics of Developing Countries 411 Primary Exports as an Engine of Growth 414 Improved Factor Utilization • Expanded Factor Endowments • Linkage Effects Barriers to Primary-Export-Led Growth 418 Sluggish Demand Growth • Declining Terms of Trade • Fluctuating Export Earnings • Commodity Agreements to Raise Prices • Commodity Agreements to Stabilize Prices • Ineffective Linkages

16. IMPORT SUBSTITUTION 432

The Strategy of Protection 432 Infant Industries • Protective Tariffs • Import Quotas • Overvalued Exchange Rates Outcomes and Problems 444 Import Substitution in General Equilibrium • Import Levels and Structure • Dynamic Consequences

17. OUTWARD-LOOKING DEVELOPMENT 454

The Strategy of Export Substitution 454 The Exchange Rate and Related Policy Instruments • Effective Exchange Rates • Factor Prices and Government Support • Stabilization and Structural Adjustment Outcomes and Limitations 460 Export Achievers • The Political Costs of Transition Protection in the North 464 The "New" Protectionism • The Costs of Protection • Trade Reform Integration in the South 469 Static Gains • Dynamic Gains and Risks Trade Strategies: A Synthesis 473

Part 5
SECTORS

18. AGRICULTURE 479

Agriculture's Role in Economic Development 480 Self-Sufficiency and Dwindling World Food Supplies Land Tenure and Reform 484 Patterns of Land Tenure • Tenure and Incentive • Land Reform • The Politics of Land Reform • Land Reform and Productivity • Land Reform and Income Distribution Technology of Agricultural Production 491 Traditional Agriculture • Slash-and-Burn Cultivation • The Shortening of Fallow • Farming within a Fixed Technology • Modernizing Agricultural Technology • The Mechanical Package • The Biological Package and the Green Revolution Mobilization of Agricultural Inputs 500 Rural Public Works Projects • Rural Banks and Credit Cooperatives • Extension Services • The Development of Rural Markets Agricultural Price Policy 506 The Multiple Role of Prices • The Impact of Subsidies • Overvalued Exchange Rates

19. NATURAL RESOURCES	513
Ownership of Natural Resources 514 <i>Mineral Resources and Growth • Minerals: Endowments and Utilization • Energy Reserves • Energy Production and Consumption • Nonfuel Minerals</i> Tropical Timber Resources 522 <i>The Economic Value of Tropical Forests • Dimensions of the Problem • Causes of Deforestation • Remedies</i> Rents and Returns in Natural-Resource Projects 527 <i>Resource Rents • Public Policy and Rent Capture • Exporting Taxes on Resource Exports</i> Dutch Disease 535	
20. INDUSTRY	544
Industry as a Leading Sector 544 <i>Employment Growth • Industrial Structure • Linkages • Urbanization</i> Investment Choices in Industry 554 <i>Choice of Technique • Economies of Scale • Small-Scale Industry</i> Industry and Development Goals 565	
21. PUBLIC ENTERPRISES	568
The Growth of State Enterprises 569 <i>Rationales for Establishing SOEs 571 Economic Reasons • Sociopolitical Reasons • Mixed Reasons</i> Impact on Development 574 <i>Savings Mobilization • Efficiency • Employment • Social Responsibilities • SOEs and Multinational Investments</i>	
Bibliography and Additional Readings 587	
Index 611
