

DEVELOPMENT MACROECONOMICS

Pierre-Richard Agénor and Peter J. Montiel

PRINCETON UNIVERSITY PRESS PRINCETON, NEW JERSEY

Contents

List of Figures	xiv
List of Tables	xvii
Foreword	xxi
Introduction and Overview	3
<i>Overview of the Book</i>	4
<i>Some Methodological Issues</i>	8
One	
Scope of Development Macroeconomics	11
1.1 <i>Monetarism, Structuralism, and Developing Nations</i>	13
1.2 <i>Economic Structure and Macroeconomic Analysis</i>	16
1.2.1 <i>Openness to Trade in Commodities and Assets</i>	16
1.2.2 <i>Long-Run Supply Behavior</i>	22
1.2.3 <i>Short-Run Supply Behavior</i>	22
1.2.4 <i>Financial Markets</i>	23
1.2.5 <i>Characteristics of the Government Budget</i>	26
1.2.6 <i>Characteristics of Private Behavior</i>	29
1.2.7 <i>Stability of Policy Regimes</i>	30
1.3 <i>Development Macroeconomics: Special Topics</i>	32
PART I MACROECONOMIC RELATIONSHIPS AND MARKET STRUCTURE	35
Two	
Aggregate Accounts, Production, and Market Structure	37
2.1 <i>A General Accounting Framework</i>	38
2.1.1 <i>The Nonfinancial Private Sector</i>	38
2.1.2 <i>The Public Sector</i>	40
2.1.3 <i>The Commercial Banking System</i>	42
2.1.4 <i>Aggregate Relationships</i>	43
2.2 <i>Production Structure in an Open Economy</i>	44
2.2.1 <i>The Mundell-Fleming Model</i>	44
2.2.2 <i>The “Dependent Economy” Model</i>	48
2.2.3 <i>A Model with Three Goods</i>	52
2.3 <i>The Structure of Labor Markets</i>	55
2.3.1 <i>Functioning of Labor Markets</i>	55
2.3.2 <i>Output and Unemployment</i>	57

2.3.3	<i>Indexation and Wage Rigidity</i>	60
2.3.4	<i>Labor Market Segmentation</i>	62
2.4	<i>Informal Financial Markets</i>	64
2.4.1	<i>Informal Loan Markets</i>	65
2.4.2	<i>Parallel Markets for Foreign Exchange</i>	67
Three		
Behavioral Functions		73
3.1	<i>Consumption and Saving</i>	73
3.1.1	<i>Consumption Smoothing</i>	77
3.1.2	<i>Length of Planning Horizon and Liquidity Constraints</i>	78
3.1.3	<i>Effects of Interest Rate Changes on Savings</i>	79
3.1.4	<i>Public and Private Consumption</i>	80
3.2	<i>Private Investment</i>	81
3.2.1	<i>Specification Issues</i>	81
3.2.2	<i>Determinants of Private Investment: The Evidence</i>	84
3.3	<i>The Demand for Money</i>	86
3.3.1	<i>Conventional Money Demand Models</i>	87
3.3.2	<i>Currency Substitution and the Demand for Money</i>	89
3.4	<i>Aggregate Supply Functions</i>	96
3.4.1	<i>Cross-Regime Tests</i>	97
3.4.2	<i>Within-Regime Tests</i>	98
3.4.3	<i>An Assessment of the Evidence</i>	101
PART II	SHORT-RUN MACROECONOMIC POLICIES	103
Four		
Fiscal Deficits, Public Solvency, and the Macroeconomy		105
4.1	<i>The Government Budget Constraint</i>	106
4.1.1	<i>The Consolidated Budget Deficit</i>	106
4.1.2	<i>The Measurement of Fiscal Deficits</i>	109
4.1.3	<i>Seignorage and Inflationary Finance</i>	111
4.2	<i>Policy Consistency and the Solvency Constraint</i>	121
4.2.1	<i>The Intertemporal Solvency Constraint</i>	122
4.2.2	<i>Financing Constraints and Policy Consistency</i>	125
4.3	<i>Macroeconomic Effects of Fiscal Deficits</i>	126
4.3.1	<i>Ricardian Equivalence</i>	127
4.3.2	<i>Deficits, Inflation, and the "Tight Money" Paradox</i>	128
4.3.3	<i>Deficits, Real Interest Rates, and Crowding Out</i>	137
4.3.4	<i>Deficits, the Current Account, and the Real Exchange Rate</i>	147

Five

Financial Markets, Capital Mobility, and Monetary Policy	151
5.1 <i>Financial Repression: Macroeconomic Effects</i>	152
5.2 <i>Financial Repression, the Inflation Tax, and Capital Controls</i>	153
5.2.1 <i>Financial Repression and Inflationary Finance</i>	154
5.2.2 <i>A General Public-Finance Approach</i>	157
5.3 <i>Capital Mobility: Empirical Evidence</i>	159
5.3.1 <i>The Magnitude of Gross Flows</i>	160
5.3.2 <i>Tests of Interest Parity Conditions</i>	161
5.3.3 <i>Tests of Monetary Autonomy</i>	165
5.3.4 <i>Saving-Investment Correlations</i>	166
5.3.5 <i>Summary</i>	167
5.4 <i>Models of Informal Credit and Foreign Exchange Markets</i>	167
5.4.1 <i>Models of Informal Credit Markets</i>	168
5.4.2 <i>Models of Informal Currency Markets</i>	174
5.5 <i>Monetary Policy with Informal Financial Markets</i>	180
5.5.1 <i>The Analytical Framework</i>	181
5.5.2 <i>Changes in Monetary Policy Instruments</i>	185

Six

Exchange-Rate Management I: Credibility and Crises	190
6.1 <i>Evidence on Exchange-Rate Regimes</i>	190
6.2 <i>Credibility and Exchange-Rate Management</i>	195
6.2.1 <i>Time Inconsistency and Exchange-Rate Policy</i>	196
6.2.2 <i>Credibility of a Fixed Exchange Rate</i>	200
6.2.3 <i>Reputation, Signaling, and Exchange-Rate Commitment</i>	201
6.2.4 <i>Credibility Effects of Monetary Unions</i>	203
6.3 <i>Speculative Attacks and Balance-of-Payments Crises</i>	207
6.3.1 <i>A Model of Exchange Regime Collapse</i>	208
6.3.2 <i>Extensions to the Basic Framework</i>	213
6.3.3 <i>Evidence on Balance-of-Payments Crises</i>	218

Seven

Exchange-Rate Management II: Contractionary Devaluation and Real-Exchange-Rate Rules	223
7.1 <i>Contractionary Devaluation</i>	224
7.1.1 <i>Effects on Aggregate Demand</i>	224
7.1.2 <i>Effects on Aggregate Supply</i>	240
7.1.3 <i>Empirical Evidence</i>	248

7.2	<i>Real-Exchange-Rate Targeting</i>	255
7.2.1	<i>The Analytical Framework</i>	256
7.2.2	<i>Targeting the Real Exchange Rate</i>	258
7.2.3	<i>Effects of Macroeconomic Shocks</i>	260
PART III ANALYSIS OF STABILIZATION PROGRAMS		263
Eight		
An Overview of Stabilization Programs		265
8.1	<i>Populism</i>	267
8.1.1	<i>Chile under Allende (1970–73)</i>	267
8.1.2	<i>Peru under García (1986–90)</i>	269
8.2	<i>Orthodox Money-Based Stabilization</i>	270
8.2.1	<i>Chile (September 1973)</i>	271
8.2.2	<i>Bolivia (August 29, 1985)</i>	272
8.3	<i>Exchange-Rate-Based (Southern Cone) Stabilization Programs</i>	275
8.3.1	<i>Chile (February 1978)</i>	275
8.3.2	<i>Uruguay (October 1978)</i>	276
8.3.3	<i>Argentina (December 1978)</i>	280
8.4	<i>Heterodox Programs</i>	282
8.4.1	<i>Argentina (June 14, 1985)</i>	282
8.4.2	<i>Israel (July 1, 1985)</i>	286
8.4.3	<i>Brazil (February 28, 1986)</i>	290
8.4.4	<i>Mexico (December 1987)</i>	293
Nine		
Inflation and Short-Run Dynamics		298
9.1	<i>Models of the Inflationary Process</i>	298
9.1.1	<i>Inflation, Money, and Fiscal Deficits</i>	299
9.1.2	<i>Food Supply, Distribution, and the Wage-Price Cycle</i>	306
9.1.3	<i>A Structuralist-Monetarist Model</i>	311
9.2	<i>Dynamics of Monetary and Exchange-Rate Rules</i>	314
9.2.1	<i>A One-Good Framework</i>	314
9.2.2	<i>A Three-Good Model with Sticky Wages</i>	327
Ten		
Analytical Issues in Disinflation Programs		338
10.1	<i>Two Puzzles in Exchange-Rate-Based Programs</i>	338
10.1.1	<i>The Boom-Recession Cycle</i>	339
10.1.2	<i>The Behavior of Real Interest Rates</i>	356

10.2 <i>The Role of Credibility in Disinflation Programs</i>	359
10.2.1 <i>Sources of Credibility Problems</i>	360
10.2.2 <i>Enhancing the Credibility of Disinflation Programs</i>	365
10.2.3 <i>Policy Lessons</i>	378
10.3 <i>Disinflation and Nominal Anchors</i>	381
<i>Appendix: Output Effects of Price Controls</i>	385
Eleven	
Stabilization Policies with Informal Financial Markets	389
11.1 <i>An Integrated Analytical Framework</i>	389
11.1.1 <i>Structure of the Model</i>	390
11.1.2 <i>Effects of Interest Rate Liberalization</i>	399
11.2 <i>A General Equilibrium Simulation Model</i>	403
11.2.1 <i>Structure of the Model</i>	404
11.2.2 <i>Effects of Stabilization Policies</i>	409
<i>Appendix: Equations of the Simulation Model</i>	416
PART IV GROWTH, DEBT, AND STRUCTURAL REFORMS	419
Twelve	
Models of Stabilization and Growth	421
12.1 <i>Bank-Fund Models</i>	423
12.1.1 <i>The IMF Financial Programming Model</i>	423
12.1.2 <i>The World Bank RMSM Model</i>	425
12.1.3 <i>A Simple Bank-Fund Model of Stabilization and Growth</i>	426
12.2 <i>“Three-Gap” Models</i>	427
12.3 <i>Macroeconometric Models</i>	431
12.3.1 <i>Structure of Production</i>	432
12.3.2 <i>Aggregate Supply</i>	433
12.3.3 <i>Aggregate Demand</i>	434
12.4 <i>Computable General Equilibrium Models</i>	436
<i>Appendix: The Khan-Knight Monetary Disequilibrium Model</i>	439
Thirteen	
The Debt Overhang, Investment, and Growth	442
13.1 <i>Origins of the Debt Crisis</i>	444
13.1.1 <i>Public Sector Solvency</i>	444
13.1.2 <i>Application to the Debt Crisis</i>	446
13.2 <i>Policy Response and Macroeconomic Implications</i>	450
13.3 <i>Resolution of the Crisis: The Brady Plan</i>	454
13.3.1 <i>Outline of the Plan</i>	454
13.3.2 <i>Macroeconomic Effects: Conceptual Issues</i>	456

13.3.3 <i>An Overview of Some Early Brady Plan Deals</i>	463
<i>Appendix: Incentive Effects of a Debt Overhang</i>	468
Fourteen	
Trade, Financial, and Exchange-Rate Reforms	472
14.1 <i>Monetary and Financial Liberalization</i>	472
14.1.1 <i>Monetary Reform</i>	473
14.1.2 <i>Financial Liberalization</i>	477
14.2 <i>Unification of Foreign Exchange Markets</i>	479
14.2.1 <i>Short-Run Dynamics of Unification</i>	479
14.2.2 <i>Longer-Run Effects of Unification</i>	487
14.2.3 <i>Evidence on Unification Attempts</i>	489
14.3 <i>Macroeconomic Effects of Trade Reforms</i>	491
14.3.1 <i>Trade Reforms: Some Recent Evidence</i>	492
14.3.2 <i>Trade Liberalization, Wage Rigidity, and Employment</i>	494
14.4 <i>Sequencing and Speed of Reforms</i>	499
14.4.1 <i>Sequencing of Reforms</i>	500
14.4.2 <i>Adjustment Costs, Credibility, and the Speed of Reform</i>	505
PART V ENDOGENOUS GROWTH, POLITICAL ECONOMY, AND LABOR MARKETS	509
Fifteen	
Human Capital, Financial Intermediation, and Growth	511
15.1 <i>The Neoclassical Growth Model</i>	513
15.2 <i>Endogenous Growth Theories: A Brief Overview</i>	518
15.2.1 <i>Externalities and Increasing Returns</i>	519
15.2.2 <i>Human Capital and Knowledge</i>	520
15.2.3 <i>Effects of Financial Intermediation</i>	522
15.3 <i>Empirical Evidence and Assessment</i>	527
Sixteen	
The Political Economy of Stabilization and Adjustment	533
16.1 <i>Politics, Economic Policy, and Adjustment</i>	533
16.1.1 <i>The Political Economy of Structural Adjustment</i>	534
16.1.2 <i>Political Instability, Inflation, and Fiscal Deficits</i>	536
16.2 <i>Political Stabilization Cycles</i>	536
16.2.1 <i>"Opportunistic" Models</i>	537
16.2.2 <i>Models with Informational Asymmetries</i>	543
16.3 <i>Elections-Induced Economic Cycles: The Evidence</i>	545
16.3.1 <i>Informal Evidence</i>	546
16.3.2 <i>Econometric Evidence</i>	547

Seventeen

Macroeconomic Adjustment with Segmented Labor Markets	556
<i>17.1 A Partial-Equilibrium Framework</i>	556
<i>17.2 A Macroeconomic Model with Segmented Labor Markets</i>	559
<i>17.2.1 Output and the Labor Market</i>	559
<i>17.2.2 Consumption and the Market for Nontraded Goods</i>	562
<i>17.2.3 The Government</i>	563
<i>17.2.4 Labor Market Adjustment</i>	563
<i>17.3 Government Spending, Real Wages, and Employment</i>	564
<i>17.4 Labor Heterogeneity, Minimum Wages, and Unemployment</i>	567
<i>Epilogue</i>	571
<i>Notes</i>	575
<i>References</i>	625
<i>Index of Names</i>	661
<i>Index of Subjects</i>	671
