CONTENTS

Contributors ix

Preface xiii

Prokaryotic Development: Strategies To Enhance Survival / 1

Lawrence J. Shimkets and Yves V. Brun

ACTINOMYCETES / 9

1. Actinomycete Development, Antibiotic Production, and Phylogeny: Questions and Challenges / 11

Wendy Champness

2. Developmental Decisions during Sporulation in the Aerial Mycelium in *Streptomyces* / 33

Keith F. Chater

CYANOBACTERIA / 49

3. Cyanobacterial Phylogeny and Development: Questions and Challenges / 51

David G. Adams

4. Heterocyst Formation in *Anabaena* / 83

C. Peter Wolk

5. The Paleobiologic Record of Cyanobacterial Evolution / 105

J. William Schopf

ENDOSPORE-FORMING BACTERIA / 131

6. Endospore-Forming Bacteria: an Overview / 133

Abraham L. Sonenshein

7. **Regulation of the Initiation of Endospore Formation in *Bacillus subtilis*** / 151
William F. Burkholder and Alan D. Grossman
8. **Asymmetric Division and Cell Fate during Sporulation in *Bacillus subtilis*** / 167
Petra Anne Levin and Richard Losick
9. **Morphogenesis and Properties of the Bacterial Spore** / 191
Adam Driks and Peter Setlow

MYXOBACTERIA / 219

10. **Introduction to the Myxobacteria** / 221
Martin Dworkin
11. **Developmental Aggregation and Fruiting Body Formation in the Gliding Bacterium *Myxococcus xanthus*** / 243
Mandy J. Ward and David R. Zusman
12. **Cell-Interactive Sensing of the Environment** / 263
Dale Kaiser
13. **Growth, Sporulation, and Other Tough Decisions** / 277
Lawrence J. Shimkets
14. **Development of *Stigmatella*** / 285
David White and Hans Ulrich Schairer

STALKED BACTERIA / 295

15. **The Dimorphic Life Cycle of *Caulobacter* and Stalked Bacteria** / 297
Yves V. Brun and Raji Janakiraman
16. **Regulation of Flagellum Biosynthesis and Motility in *Caulobacter*** / 319
James W. Gober and Jennifer C. England
17. **Signal Transduction and Cell Cycle Checkpoints in Developmental Regulation of *Caulobacter*** / 341
Noriko Ohta, Thorsten W. Grebe, and Austin Newton
18. **Regulation of the *Caulobacter* Cell Cycle** / 361
Dean Hung, Harley McAdams, and Lucy Shapiro

PATHOGENESIS AND SYMBIOSIS / 379

19. **Swarming Migration by *Proteus* and Related Bacteria** / 381
Gillian M. Fraser, Richard B. Furness, and Colin Hughes
20. **The Chlamydial Developmental Cycle** / 403
Daniel D. Rockey and Akira Matsumoto

21. Developmental Cycle of *Coxiella burnetii* / 427
James E. Samuel

**22. Differentiation of Free-Living Rhizobia into
Endosymbiotic Bacteroids / 441**
William Margolin
