Marsupial Genetics and Genomics

Contents

Part I Marsupial Breeding
Janine E. Deakin

1 Breeding and Genetic Management of Captive Marsupial Populations **5**
Emily J. Miller and Catherine A. Herbert

Part II Marsupial Chromosomes and Gene Maps
Janine E. Deakin

2 The Conserved Marsupial Karyotype: Chromosome Painting and Evolution **37**
Willem Rens and Malcolm Ferguson-Smith

3 Marsupial Centomeres and Telomeres: Dynamic Chromosome Domains **55**
Dawn M. Carone and Rachel J. O'Neill

4 Marsupial Linkage Maps **75**
Paul B. Samollow

5 Physical and Comparative Gene Maps in Marsupials **101**
Janine E. Deakin

Part III Marsupial Genome Sequencing
Jennifer A. Marshall Graves

6 Marsupial Sequencing Projects and Bioinformatics Challenges . . . **121**
Anthony T. Papenfuss, Arthur Hsu, and Matthew Wakefield

7 Insight into Evolution of Gene Regulation Networks from the Opossum Genome **133**
Matthew J. Wakefield and Anthony T. Papenfuss

Part IV	Marsupial Sex Chromosomes	
	Paul D. Waters	
8	Organization and Evolution of the Marsupial X Chromosome	151
	Hardip R. Patel, Margaret L. Delbridge, and Jennifer A.M. Graves	
9	Gene Content of the Mammalian X Chromosome	173
	Margaret L. Delbridge	
10	Marsupial Sex Chromosome Behaviour During Male Meiosis . . .	187
	Raúl Fernández-Donoso, Soledad Berríos, Julio S. Rufas, and Jesús Page	
11	Compact but Complex – The Marsupial Y Chromosome	207
	Veronica J. Murtagh, Paul D. Waters, and Jennifer A. Marshall Graves	
Part V	Marsupial Epigenetics	
	Paul D. Waters	
12	The Evolution of Genomic Imprinting – A Marsupial Perspective .	233
	Timothy A. Hore, Marilyn B. Renfree, Andrew J. Pask, and Jennifer A. Marshall Graves	
13	Marsupial Genetics Reveals Insights into Evolution of Mammalian X Chromosome Inactivation	259
	Shafagh Al Nadaf, Paul D. Waters, Janine E. Deakin, and Jennifer A. Marshall Graves	
Part VI	Marsupial Reproductive and Developmental Genetics	
	Jennifer A. Marshall Graves	
14	Molecular Regulation of Marsupial Reproduction and Development	285
	Andrew J. Pask and Marilyn B. Renfree	
15	Marsupial Milk – Identifying Signals for Regulating Mammary Function and Development of the Young	317
	Julie A. Sharp, Christophe Lefevre, Joly Kwek, Denijal Topcic, Laurine Buscara, Cate Pooley, Robb de Iongh, Mary Familiar, and Kevin R. Nicholas	
Part VII	Marsupial Immune Genes	
	Janine E. Deakin	
16	The Marsupial Major Histocompatibility Complex	339
	Yuanyuan Cheng, Hannah V. Siddle, and Katherine Belov	
17	Marsupial Immunoglobulin and T Cell Receptor Genomics	357
	Michelle L. Baker, Xinxin Wang, and Robert D. Miller	

18	Use of Genomic Information to Gain Insights into Immune Function in Marsupials: A Review of Divergent Immune Genes . . .	381
	Katrina Morris, Emily S.W. Wong, and Katherine Belov	
Part VIII	Marsupial Genes and Gene Evolution	
	Paul D. Waters and Janine E. Deakin	
19	Visual Pigments and Colour Vision in Marsupials and Monotremes	403
	Samir S. Deeb	
20	The Evolutionary History of Globin Genes: Insights from Marsupials and Monotremes	415
	Vidushi S. Patel and Janine E. Deakin	
21	The Olfactory Receptor Gene Family of Marsupials	435
	Margaret L. Delbridge, Amir Mohammadi, and Jennifer A. Marshall Graves	
Part IX	Marsupial Conservation Genetics	
	Jennifer A. Marshall Graves	
22	Marsupial Population and Conservation Genetics	461
	Mark D.B. Eldridge	
23	Devil Facial Tumour Disease (DFTD): Using Genetics and Genomics to Investigate Infectious Disease in an Endangered Marsupial	499
	Hannah S. Bender
