Contents

List of tables and figures	viii
Preface	xi
1. Introduction	1
A definition of security	2
Oil prices	3
The apparent equilibrium of 1984	3
The events of 1986	6
The collapse of the oil price	7
The future of oil prices	11
The Middle East	11
Sources of instability	12
The Western response to Middle East problems	15
Chernobyl - The response of the OECD nations	16
OECD options	19
Demand	20
Supply	21
Conclusion	28
2. Japan's Energy Security to 2000 - The Dawn of an Age of Multiple Energies	33
I. Why energy security in the 1990s now?	35
1. The uncertain future	35
2. Japan's special circumstances	41
II. Effects of low oil prices	43
1. Factors leading to the sharp drop in prices	43
2. Price scenario to the year 2000	45

3.	Structural changes in the market and industry	49
4.	The influence on Japanese demand	52
5.	Conclusion	56
III.	Increased dependence on Middle East oil	58
1.	Political instability in the Gulf	58
2.	OPEC strategies	64
3.	Japan's ability to cope	69
4.	Conclusion - International linkage of energy security	73
IV.	The direction of policy responses	74
1.	Promoting control over dependence on the Middle East	74
2.	Japan's approach to the Middle East - Towards reinforcing multiple interdependence	79
3.	Research and development in nuclear energy	98
4.	Research and development in alternative sources of energy and energy conservation	103
5.	Energy in the developing countries	114
V.	Conclusions - Direction of OECD policy responses	120
1.	A lesson of the times	120
2.	Implications of Japan's shift in energy policy	120
3.	Direction of OECD policy	121
	Supplement - on minimum import price	126
3.	Western Europe's Energy Security to 2000	181
	The European Community	184
	The IEA	188
	Energy security in the future	189
	Oil	190
	European relations with the Gulf	198
	Natural Gas	202
	Gas security	206
	Electricity generation	211
	Conclusion	223
	Appendix A. Summary of UK and Norwegian oil fiscal systems	225
	Appendix B. European Community, Venice Declaration	229

4. US Energy Security to 2000	259
Natural gas	269
Electric power	273
Energy efficiency and renewables	280
US energy security at the crossroads	281
The collapse in world oil prices	286
The Middle East: The need for policy reassessment	288
Conclusion	291
