Contents

	List of figures	*page* ix
	List of tables	x
	List of abbreviations	xi
	Preface	xv
1	**Social and linguistic setting of alliterative verse in Anglo-Saxon and Medieval England**	**1**
1.1	The Anglo-Saxon poetic scene	1
1.2	The post-Conquest poetic scene	9
2	**Linguistic structures in English alliterative verse**	**22**
2.1	The prosody–meter interface	22
2.2	Old English stress	24
2.3	Old English versification	34
2.4	Middle English stress and its attestation in verse	42
2.5	Middle English alliterative versification	61
2.6	Some methodological remarks	68
3	**Segmental histories: velar palatalization**	**71**
3.1	The Old English consonant system	71
3.2	The alliterative conundrum	72
3.3	Sound over letter	78
3.4	Alliteration and editorial practice	87
3.5	The morphophonemic nature of voiceless velar alliteration	90
3.6	Alliterating voiced velars in early Old English	113
3.7	The violability of place for the OE velars	120
3.8	Alliteration as phonetic gradience in OT	121
3.9	Was there a /ʃ/ in Old English?	130
3.10	The Old English consonant system revised	133
4	**Syllable structure**	**135**
4.1	The vowel alliteration riddle	135

4.2	Non-alliterative evidence for the glottal stop in Old English	144
4.3	The upset of ONSET	165
4.4	ONSET in Modern English	174
4.5	*Es ist Gesetz*: summary and conclusions	188
5	**ONSET and cluster alliteration in Old English: the case of *sp-, st-, sk-***	**192**
5.1	Introducing cluster alliteration: *sp-, st-, sk-*	192
5.2	The biphonemic treatment of <sc-> in alliteration	193
5.3	The special status of *sp-, st-, sk-* in Old English	202
5.4	Cluster constraints and the cohesiveness of *sp-, st-, sk-*	215
5.5	Three-consonantal clusters: the [sl-] <–> [skl-] change	230
5.6	/sp-, st-, sk-/ and the French vocabulary	233
5.7	Summary and conclusions	235
6	**ONSET and cluster alliteration in Middle English**	**238**
6.1	New patterns of alliteration in Middle English	239
6.2	Cluster alliteration in Old and Middle English: a comparison	240
6.3	Cluster alliteration in early Middle English: *Lagamon's Brut*	245
6.4	Cluster alliteration in the fourteenth century	261
6.5	Why is fourteenth-century verse good evidence for cluster cohesion?	292
6.6	Non-verse evidence for cluster cohesion	294
6.7	Alliterative patterns in verse and the lexicon	296
6.8	The linguistic foundation of cluster alliteration	299
6.9	Cluster alliteration after Middle English	307
6.10	Concluding remarks	308
7	**Verse evidence for cluster simplification in Middle English**	**311**
7.1	Historically unstable clusters in *Lagamon's Brut*	312
7.2	*Wynnere and Wastoure*	318
7.3	*The Wars of Alexander*	320
7.4	*Piers Plowman*	324
7.5	Notes on the history of velar cluster reduction	330
7.6	Notes on the history of /h-/ clusters	339
7.7	The history of /w-/ clusters	365
7.8	Summary and conclusions	369
	References	371
	Index of names	389
	Subject index	393
