
MATERNAL
EFFECTS AS
ADAPTATIONS

Edited by Timothy A. Mousseau & Charles W. Fox

New York Oxford

Oxford University Press

1998

Contents

Part I Conceptual Issues 3

- 1 The Evolutionary Genetics of Maternal Effects 5
Michael J. Wade
- 2 The Influence of Direct and Indirect Genetic Effects on the Evolution of Behavior: Social and Sexual Selection Meet Maternal Effects 22
Allen J. Moore, Jason B. Wolf, and Edmund D. Brodie III
- 3 Inertial Growth: Population Dynamics Based on Maternal Effects 42
Lev R. Ginzburg
- 4 What Is an Adaptive Environmentally Induced Parental Effect? 54
Elizabeth P. Lacey
- 5 Oviposition Decisions as Maternal Effects: Conundrums and Opportunities for Conservation Biologists 67
Bernard D. Roitberg

Part II Assessment and Measurement 81

- 6 The Detection and Measurement of Maternal Effects 83
Derek A. Roff
- 7 Genetics of Maternal and Paternal Effects 97
Ruth G. Shaw & Diane L. Byers

- 8 The Role of Environmental Variation in Parental Effects Expression 112
MaryCarol Rossiter

Part III Reviews of Maternal Effects Expression 135

- 9 Maternal Environmental Effects in Plants: Adaptive Plasticity? 137
Kathleen Donohue & Johanna Schmitt
- 10 Maternal Effects as Adaptations for Transgenerational Phenotypic Plasticity in Insects 159
Charles W. Fox & Timothy A. Mousseau
- 11 Are Maternal Effects in Fish Adaptive or Merely Physiological Side Effects? 178
Daniel D. Heath & D. Max Blouw
- 12 Maternal and Paternal Effects in Birds: Effects on Offspring Fitness 202
Trevor Price
- 13 Maternal Influences on Larval Competition in Insects 227
Frank J. Messina
- 14 Maternal Effects, Developmental Plasticity, and Life History Evolution: An Amphibian Model 244
Robert H. Kaplan
- 15 Perinatal Influences on the Reproductive Behavior of Adult Rodents 261
Mertice M. Clark & Bennett G. Galef, Jr.

Part IV Case Studies of Maternal Effects 273

- 16 Maternal Control of Fly Diapause 275
David L. Denlinger
- 17 Adaptation of Maternal Effects in the Wild: Path Analysis of Natural Variation and Experimental Tests of Causation 288
Barry Sinervo
- 18 Maternal Effects and the Maintenance of Environmental Sex Determination 307
Willem M. Roosenburg & Peter Niewiarowski

19 Density-Mediated Maternal Effects on Seed Size in Wild Radish:
Genetic Variation and Its Evolutionary Implications 323
Susan J. Mazer & Lorne M. Wolfe

Concluding Remarks: Generalizations, Implications, and Future Directions 345
