## CONTENTS

---

<i>Preface</i>	xi
<b>1 Management problems and applied ecology in Ngorongoro Conservation Area</b>	<b>1</b>
<b>2 Ngorongoro Conservation Area</b>	<b>8</b>
Natural resources	8
<i>a. NCA land units</i>	
<i>b. Climate</i>	
<i>c. Soils</i>	
<i>d. Water</i>	
<i>e. Vegetation and habitat types</i>	
<i>f. Wildlife resources</i>	
Archaeological and palaeontological resources	31
Conclusion	34
<b>3 Maasai of Ngorongoro</b>	<b>35</b>
Maasai life in Ngorongoro	35
<i>a. The Maasai homestead</i>	
<i>b. The Maasai day</i>	
<i>c. The seasonal cycle</i>	
Maasai social organisation: implications for human and livestock ecology	43
<i>a. Section</i>	
<i>b. Clan</i>	
<i>c. Age-set</i>	

<i>d. Implications of social structure for human and livestock ecology in NCA</i>	
<i>e. New social structures: Maasai villages in NCA</i>	
Maasai origins and the prehistory of pastoralism in NCA	56
<i>a. Archaeological and linguistic evidence for the origins of pastoralism in East Africa</i>	
<i>b. The prehistory of pastoralism in East Africa</i>	
<i>c. Pastoralists in Ngorongoro 1500–1850 AD</i>	
<i>d. Interrelations of the Maasai and other East African peoples</i>	
<i>e. The Maasai in Ngorongoro 1850–1910</i>	
The Maasai, the NCAA and the nation	66
Summary and conclusion	67
<b>4 History, politics and perceptions in Ngorongoro</b>	<b>69</b>
History of conservation management in Ngorongoro	69
<i>a. The emergence of conservation in Ngorongoro/Serengeti (1910–1959)</i>	
<i>b. Ngorongoro Conservation Area: 1960–1989</i>	
NCA: Legal and administrative structures	74
Perceptions	76
<i>a. Conservation values to the international community</i>	
<i>b. Value to the nation</i>	
<i>c. Values to the local community</i>	
<i>d. Perceptions of conservation and subsistence problems</i>	
Background to research	83
<b>5 Management-oriented research in NCA</b>	<b>84</b>
Management and research	84
<i>a. Central issues in NCA</i>	
<i>b. Past studies</i>	
Study design	86
<i>a. Study focus</i>	
<i>b. Study sites and schedule</i>	
Study methods	90
<i>a. Range</i>	
<i>b. Livestock</i>	
<i>c. Human subsistence</i>	
Summary and conclusion	95

<i>Contents</i>	vii
<b>6 Range resources</b>	<b>96</b>
Grassland production	97
<i>a. General principles</i>	
<i>b. Primary production of study sites</i>	
Rangeland dynamics	103
<i>a. Fire and herbivore impacts: general principles</i>	
<i>b. NCA lowland plains: grazing pressure and trampling effects</i>	
<i>c. Intermediate altitude grasslands</i>	
<i>d. Highland grasslands: the Eleusine debate</i>	
<i>e. Nutrient recycling</i>	
<i>f. Stability and resilience in rangeland dynamics</i>	
Forest and woodland	112
<i>a. Woodland utilization and dynamics</i>	
<i>b. Forest utilization and dynamics</i>	
Summary and conclusion	117
<b>7 Wildlife</b>	<b>119</b>
Grassland herbivore community	122
<i>a. Community structure</i>	
<i>b. Migratory herds</i>	
<i>c. Interspecific competition, facilitation and predation</i>	
<i>d. Plant-herbivore dynamics: changes in woody vegetation</i>	
Forest wildlife populations	127
Management policies and problems	128
<i>a. Wildlife administration</i>	
<i>b. Naturalness and change</i>	
<i>c. Managing the craters</i>	
<i>d. Subsistence hunting</i>	
<i>e. Commercial poaching: rhino and elephant</i>	
Summary and conclusion	139
<b>8 Livestock ecology</b>	<b>141</b>
Pastoralist livestock production in sub-Saharan Africa	141
<i>a. Importance of pastoralist livestock production</i>	
<i>b. Pastoralist livestock ecology</i>	
NCA livestock ecology	145
<i>a. NCA livestock population numbers</i>	

<i>b. Livestock biomass densities and distribution</i>	
<i>c. Utilisation patterns</i>	
<i>d. Food selection</i>	
<i>e. Activity, ranging and energetics</i>	
<i>f. Herd size and composition</i>	
<i>g. Performance of cattle herds: condition, fertility and mortality</i>	
<i>h. Performance of cattle herds: milk production</i>	
Summary and conclusion	178
<b>9 Livestock and wildlife</b>	<b>179</b>
Comparison with wildlife	179
<i>a. Feeding</i>	
<i>b. Ranging</i>	
<i>c. Impact of range restrictions on livestock</i>	
<i>d. Disease interactions</i>	
<i>e. Environmental impacts</i>	
<i>f. Population interactions: effect of cattle on wildebeest</i>	
<i>g. Population interactions: effect of wildebeest on cattle</i>	
<i>h. Ungulate eruption and decline: the roles of grazing, disease and Maasai stock</i>	
Joint wildlife/pastoralist land use areas	192
<i>a. Amboseli</i>	
<i>b. Tanzania Maasailand: Simanjiro/Tarangire and Loliondo/Serengeti</i>	
<i>c. Kenya rangelands</i>	
<i>d. Marsabit/Kulal in North Kenya (IPAL area)</i>	
<i>e. Jōnglei-Canal Impact Area, Sudan</i>	
<i>f. NCA in perspective: joint wildlife/pastoralist livestock grazing systems</i>	
Pastoralist cattle production in a joint land use system	200
Summary and conclusion	203
<b>10 Maasai ecology: development, demography and subsistence</b>	<b>205</b>
Past interventions in Maasailand	205
<i>a. 1890–1960</i>	
<i>b. 1960–1980</i>	
<i>c. NCA</i>	

<i>d. Lessons for development</i>	
Demography of NCA Maasai	210
<i>a. Population fluctuations</i>	
<i>b. Population growth</i>	
<i>c. Distribution of Maasai within NCA</i>	
<i>d. Boma size, composition and stock holdings</i>	
<i>e. Discussion: trends in NCA demography and living standards</i>	
Food survey	219
<i>a. Diet items and food sharing</i>	
<i>b. Quantified intakes</i>	
<i>c. Relating intake to requirement</i>	
<i>d. Dietary composition and adequacy: August 1981</i>	
<i>e. Dietary composition and adequacy: 1981–1983</i>	
<i>f. Nutritional status: July 1989</i>	
<i>g. NCA Maasai diet compared to Maasai elsewhere</i>	
<i>h. Pastoralist diets and grain dependence</i>	
Conclusion	229
<b>11 Wildlife conservation and pastoralist development</b>	<b>231</b>
Pastoralist development and wildlife conservation	231
<i>a. Conflict and complementarity</i>	
<i>b. Development for commercial offtake or for secure subsistence?</i>	
<i>c. The future of Maasai development in NCA</i>	
Tourism and conservation	235
<i>a. Foreign tourism</i>	
<i>b. Revenue from foreign tourism and conservation costs</i>	
<i>c. Local tourism</i>	
Wildlife exploitation	243
<i>a. Commercial harvesting</i>	
<i>b. Subsistence hunting</i>	
<i>c. Trophy hunting</i>	
Integrating land use in NCA	246
Conclusion	247
<b>12 Development interventions</b>	<b>249</b>
Water development	249

Range and grazing management	253
Livestock development	255
<i>a. Breeds and breeding management</i>	
<i>b. Livestock disease</i>	
<i>c. Ranches and dairy farms</i>	
Marketing of livestock and livestock products	258
Limiting immigration into NCA	260
Summary and conclusion	263
<b>13 Viewpoint</b>	<b>265</b>
References	267
Author index	286
Subject index	290
