	<i>List of figures</i>	<i>page</i> xi
	<i>List of tables</i>	xiii
	<i>Preface</i>	xv
	<i>List of conference participants</i>	xvii
<b>1</b>	<b>Primary commodity prices: an introduction to the major policy and modelling challenges</b>	<b>1</b>
	<i>L. Alan Winters and David Sapsford</i>	
	1 The policy challenge	2
	2 The modelling challenge	4
	3 Econometric analyses	7
	4 Sectoral studies: food, materials and energy	9
	5 Commodity stabilization schemes	12
	6 Conclusions	15
<b>I</b>	<b>ECONOMETRIC ANALYSES</b>	
<b>2</b>	<b>Estimation of dynamic disequilibrium models with rational expectations: the case of commodity markets</b>	<b>21</b>
	<i>G. S. Maddala</i>	
	1 Sources of disequilibrium	21
	2 Rational expectations in limited dependent variables models	22
	3 An extension to dynamic models	26
	4 Policy implications	27
	5 Buffer-stock models	29
	6 The usefulness of rational expectations in commodity models	31
		vii

viii Contents

7	The usefulness of futures prices in commodity models	32
8	The inter-relatedness of commodity prices	34
9	Conclusions	34
	<b>Discussion</b>	
	<i>M. Hashem Pesaran</i>	38
	<b>Summary of general discussion</b>	42
<b>3</b>	<b>Modelling expectations formation in primary commodity markets</b>	<b>44</b>
	<i>Christopher L. Gilbert and Theodosios B. Palaskas</i>	
1	Introduction	44
2	The Muth equilibrium model	46
3	Exchange rates and inflation	49
4	Results	53
5	Conclusions	61
	<b>Appendix: The Muth model</b>	<b>62</b>
	<b>Discussion</b>	
	<i>Montague J. Lord</i>	67
	<i>Kenneth S. Wallis</i>	69
	<b>Summary of general discussion</b>	71
<b>4</b>	<b>The prices of perennial crops: the role of rational expectations and commodity stocks</b>	<b>72</b>
	<i>Pravin K. Trivedi</i>	
1	Introduction	72
2	Some issues of specification	74
3	Empirical evidence	82
4	Implications for global econometric commodity models	93
	<b>Discussion</b>	
	<i>David M. Newbery</i>	98
	<i>Michael R. Wickens</i>	99
	<b>Summary of general discussion</b>	101
<b>II</b>	<b>SECTORAL STUDIES: FOODS, MATERIALS AND ENERGY</b>	
<b>5</b>	<b>Modelling the interactive effects of alternative sets of policies on agricultural prices</b>	<b>105</b>
	<i>Richard E. Just</i>	
1	Introduction	105
2	Domestic agricultural policy instability	105
3	Domestic macroeconomic policy	111

4	Foreign agricultural policy	116
5	Foreign macroeconomic policy	117
6	Overshooting in flexible markets	118
7	Volatility, the increasing endogeneity of exogenous variables and the expanding scope of commodity price models	121
8	The scope of economic analysis of agricultural prices	123
9	Conclusions	126
	<b>Discussion</b>	
	<i>David Harvey</i>	129
	<i>David Vines</i>	131
	<b>Summary of general discussion</b>	132
<b>6</b>	<b>Price determination in the market for aluminium</b>	<b>134</b>
	<i>Anthony Bird</i>	
	1 Introduction	134
	2 General features of the aluminium industry	135
	3 Prior information	135
	4 A demand function	142
	5 The determination of price	143
	6 The discrepancy between costs and prices	146
	7 Concluding remarks	151
	<b>Discussion</b>	
	<i>David Humphreys</i>	152
	<b>Summary of general discussion</b>	155
<b>7</b>	<b>Long-run factors in oil price formation</b>	<b>157</b>
	<i>Marian Radetzki</i>	
	1 The historical evidence of prices: oil and other primary commodities	157
	2 The role of exhaustability for petroleum prices	161
	3 Monopolistic elements in the petroleum market	165
	4 Interfuel substitution and petroleum prices	170
	5 Technological shocks and the price of oil	174
	6 A summary of conclusions	176
	<b>Summary of general discussion</b>	179
<b>III</b>	<b>STABILIZATION SCHEMES</b>	
<b>8</b>	<b>The role of futures markets as stabilizers of commodity earnings</b>	<b>183</b>
	<i>Andrew J. Hughes Hallett and Prathap Ramanujam</i>	
	1 Introduction	183
	2 Stabilization strategies	185

3	Operating on the futures markets: optimal hedging strategies	189
4	Market intervention strategies	192
5	Some empirical examples	198
6	Policy conclusions	205
	Appendix: Optimal hedging as a special case of risk-sensitive decision making: a multi-target dynamic extension of the optimal hedging rule	207
	Summary of general discussion	212
<b>9</b>	<b>Primary commodity prices and exchange-rate volatility</b>	<b>213</b>
	<i>Paul Kofman, Jean-Marie Viaene and Casper G. de Vries</i>	
1	Introduction	213
2	Partial solutions (the optimizing approach)	215
3	Solving for prices in a general equilibrium framework	219
4	Volatility and shock effects	227
5	Conclusions	231
	<b>Discussion</b>	
	<i>Alasdair I. MacBean</i>	233
	<i>David Sapsford</i>	235
	Summary of general discussion	238
<b>10</b>	<b>Commodity policy: price stabilization versus financing</b>	<b>240</b>
	<i>Roland Herrmann, Kees Burger and Hidde P. Smit</i>	
1	Introduction	240
2	Economic evaluation of existing compensatory financing schemes	241
3	Economic evaluation of existing international commodity agreements	260
4	Summary and policy conclusions	283
	<b>Discussion</b>	
	<i>Philip Daniel</i>	290
	<i>John Spraos</i>	294
	Summary of general discussion	302
	<i>Index</i>	305
