6 Democracy and Human Rights after the Cold War <i>John Agnew</i>	82
7 The Renaissance of Nationalism <i>Nuala C. Johnson</i>	97
8 Global Regulation and Trans-state Organization <i>Susan M. Roberts</i>	111
9 The Regulatory State: the Corporate Welfare State and Beyond <i>Joe Painter</i>	127
Part III Geosocial Change	145
Introduction to Part III: People in Turmoil	147
10 Population Crises: the Malthusian Specter? <i>Allan Findlay</i>	152
11 Global Migration and Ethnicity: Contemporary Case-Studies <i>Nurit Kliot</i>	175
12 Changing Women's Status in a Global Economy <i>Susan Christopherson</i>	191
13 Disease Implications of Global Change <i>Andrew Cliff and Peter Haggett</i>	206
Part IV Geocultural Change	225
Introduction to Part IV: Modernity, Identity, and Machineries of Meaning	227
14 World Cities and the Organization of Global Space <i>Paul L. Knox</i>	232

15	The New Spaces of Global Media <i>Kevin Robins</i>	248
16	Resisting and Reshaping the Modern: Social Movements and the Development Process <i>Paul Routledge</i>	263
17	Understanding Diversity: the Problem of/for "Theory" <i>Linda McDowell</i>	280
	Part V Geoenvironmental Change	295
	Introduction to Part V: A Burden Too Far?	297
18	The Earth Transformed: Trends, Trajectories, and Patterns <i>William B. Meyer and B. L. Turner II</i>	302
19	The Earth as Input: Resources <i>Jody Emel and Gavin Bridge</i>	318
20	The Earth as Output: Pollution <i>Malcolm Newson</i>	333
21	Sustainable Development? <i>W. M. Adams</i>	354
	Part VI Conclusion	375
22	Remapping the World: What Sort of Map? What Sort of World? <i>Peter J. Taylor, Michael J. Watts, and R. J. Johnston</i>	377
	<i>Bibliography</i>	386
	<i>List of Contributors</i>	420
	<i>Further Reading</i>	426
	<i>Index</i>	433

List of Plates

Frontispiece

South African elections, Cape Town: 6 May 1994: South African President F. W. de Klerke listens to President Elect Nelson Mandela after a three-hour meeting at Cape Town Parliament. ©Popperfoto/Reuter pw: Philippe Wojazer.

Chapter 1 – Geoeconomic

Sugar Cane Factory, Mexico. ©The Environmental Picture Library.

Chapter 2 – Geopolitical

Swastika carved in to the snow along the Oder River which divides Germany and Poland. ©Impact Visuals, New York; photographer: Clark Jones.

Chapter 3 – Geosocial

Rwandan refugees fill a broad roadway in the Benaco Camp in the remote Ngara district, where some 300,000 refugees gathered, Tanzania, April 1994. ©UNICEF/94-0069/Howard Davies.

Chapter 4 – Geocultural

Opening of McDonald's in Moscow, 31 January 1990. ©Popperfoto/Reuters.

Chapter 5 – Geoenvironmental

Damaged trees, Karkonosze National Park, Poland. ©WWF; photographer: André Maslennikov/IBL.

Conclusion

Container/Dock Scene, Jeddah, Saudi Arabia. ©Life File; photographer: D. Bellamy.

List of Figures

2.1	Foreign exchange trading.	26
2.2	Paris to Detroit and back.	28
2.3	South Central Los Angeles.	30
3.1	An outline of the contemporary agri-food system.	40
3.2	Industrialization of the potato commodity chain.	43
6.1	Elections in Latin America.	87
12.1	Adjusting the Human Development Indices (HDI) for male–female disparities, 1990.	194
13.1	Increasing travel over four male generations of the same family.	208
13.2	Trends in the growth of population and one indicator of its spatial flux.	209
13.3	Schematic diagram of typical overseas journeys.	210
13.4	History of the 1967 Marburg fever outbreak in Europe.	216
13.5	Documented sources of HIV-1 transmission from tropical African countries to the Soviet Union.	220
13.6	Documented sources of HIV-2 transmission from tropical West African countries to Western Europe.	221
15.1	Development of a new media market.	254
16.1	Location of some contemporary non-violent social movements.	270
18.1	Trends in selected forms of human-induced transformation of environmental components.	307

x List of Figures

18.2	Recency and rate of change in human-induced transformation of environmental components.	310
18.3	Risk and blame.	313
19.1	Annual worldwide production of selected metals from 1700 to 1983.	319
19.2	Annual worldwide production of selected commodities: recent trends.	320
20.1	Historical and expected fossil-fuel use.	334
20.2	Wilderness areas as defined by the Sierra Club in 1988.	336
20.3	Global patterns in pH (acidity) of precipitation.	338
20.4	Oil contamination of the oceans.	340
20.5	Major oil spill incidents.	342
20.6	The spread of the Chernobyl-derived radiation cloud across western Europe, 1986.	343
20.7	Location map of the Union Carbide plant and the pollution plume, Bhopal, India, 1984.	344

List of Tables

4.1	The balance of inward to outward direct investment: 1975 and 1983.	56
8.1	Trans-state organizations.	114–15
9.1	Central government expenditure per capita on health and education, ca. 1990.	130
9.2	Active members of medical benefits insurance schemes as a percentage of the labor force, selected European countries.	133
9.3	Unemployment insurance: members as a percentage of the labor force, selected European countries.	133
9.4	Infant mortality (deaths under one year of age per 1,000 live births), selected countries.	134
9.5	General government expenditure as a percentage of GDP, selected European countries.	134
9.6	The social distribution of expenditure on public services in the UK.	135
9.7	Government consumption and total expenditure, selected industrialized capitalist countries.	137
10.1	Global demographic indicators, 1994.	156
10.2	Regional shares in world population, 1990 and 2100 (United Nations estimates and medium variant projections).	159
12.1	Gender-sensitive Human Development Indices (HDI).	193
12.2	Female–male gaps.	202

xii .List of Tables

13.1	Direct (non-stop) passenger flows on scheduled aircraft into London (Heathrow + Gatwick) from the 25 largest world cities.	212
13.2	Indicators of international exposure of resident populations.	213
13.3	Possible health effects potentially attributable to global warming.	214
14.1	Some world city functions.	238
14.2	A hierarchy of world cities.	240
15.1	The world's top 20 audio-visual companies by turnover.	252
18.1	The great transformation: selected forms of human-induced transformation of environmental components.	308
20.1	Wilderness distribution by continent.	335
20.2	Emissions of carbon dioxide to the atmosphere from human activities.	339
21.1	The 27 Principles of the Rio Declaration on Environment and Development.	363-5
