

# Practical Spoken Dialog Systems

Edited by

Deborah Dahl

*Conversational Technologies, Plymouth Meeting, U.S.A.*

**KLUWER ACADEMIC PUBLISHERS**

**DORDRECHT / BOSTON / LONDON**

# TABLE OF CONTENTS

PREFACE .....	xi
CONTRIBUTORS .....	xiii
INTRODUCTION.....	1

## PART 1: INITIAL STAGES

SUZANNE LIEBOWITZ TAYLOR / Beyond Technology .....	7
1. Introduction.....	7
2. Speech Engagements.....	9
3. Discovery .....	13
4. Summary .....	22

## PART 2: DESIGN

CLIFFORD NASS AND LI GONG / Ten Principles for Designing Human-Computer Dialog Systems .....	25
1. Introduction.....	25
2. Processing Speech.....	27
3. Producing Speech.....	33
4. Spoken Dialog Interaction.....	36
5. Final Thoughts .....	38

JAMES A. LARSON / Voice User Interface Design for Novice and Experienced Users.....	41
1. Introduction.....	41
2. Developing Voice User Interfaces .....	47
3. Guidelines For Voice User Interfaces for Novice Users.....	47
4. Guidelines for Voice User Interfaces for Average Users.....	52
5. Guidelines for User Interfaces for Experienced Users.....	54
6. Advanced Techniques .....	60
7. Iterative Testing .....	62
8. Summary .....	63

<b>MORENA DANIELI / Designing Error Recovery Dialogs</b> .....	65
1. Introduction.....	65
2. Human-machine Miscommunication.....	67
3. Kinds of Miscommunication.....	70
4. The Design of Error Recovery Subdialogs.....	74
5. How Users Signal Misunderstanding.....	81
6. Conclusions.....	81
<b>DEBORAH A. DAHL / Visualization Tools for Designing</b>	
Spoken Dialogs.....	85
1. Problem.....	85
2. Visualizing Dialogs.....	86
3. The Role of Tools in Development.....	87
4. Example Dialog.....	88
5. General Issues and Selection criteria.....	102
6. Conclusion.....	103
7. Acknowledgements.....	104
<b>KURT GODDEN / How to Wreck a Nice Speech Grammar</b> .....	105
1. Introduction.....	105
2. Limitations of Speech Grammars.....	106
3. Who is the User?.....	108
4. Grammar Design.....	114
5. Error Prompts.....	116
6. Complexity.....	117
7. Ambiguity.....	118
8. Miscellaneous.....	120
9. Conclusions.....	121
<b>JUDITH A. MARKOWITZ / Designing for Speaker</b>	
Authentication.....	123
1. Introduction.....	123
2. Speaker Authentication Dialogs.....	126
3. Advanced Techniques.....	135
4. Handling Errors and Problems.....	137
5. Final Words.....	139

**PART 3: DEPLOYMENT**

ROBERT KEILLER / Using VoiceXML 2.0 in the VxOne Unified Messaging Application.....	143
1. Introduction.....	144
2. Overview of VxOne.....	144
3. Generation of Dynamic VoiceXML pages.....	148
4. Speed and Latency.....	157
5. Prompt Generation.....	159
6. Conclusions.....	161

**PART 4: NEW IDEAS**

SAMUEL BAYER / Building a Standards and Research Community with the Galaxy Communicator Software Infrastructure.....	167
1. Introduction.....	167
2. Enabling an Engineering Community.....	168
3. The GALAXY Communicator software infrastructure.....	172
4. Design.....	176
5. Implementation and Logistics.....	189
6. Standards, Commercialization and the GCSI.....	191
7. Conclusion.....	194
CANDACE L. SIDNER / Building Spoken-Language Collaborative Agents.....	197
1. Introduction.....	197
2. Collaborative Interface Agents.....	199
3. Four Spoken Language Collaborative Agents.....	205
4. Design Issues for Collaborative Agents.....	219
5. Related Work.....	224
6. A Recap of Lessons Learned.....	224
INDEX.....	227
