Contents

Volume Two

Preface	xv
1. An Introduction to the Economics of Productive Factors	1
1. An Approach to the Topic	1
2. How This Volume Differs	2
3. This Volume's Flow—From Which Mountains to What Sea	4
4. The Changing Landscape	5
5. The Argument to Come	7
2. Approaches to Labor Economics	9
1. Introduction	10
1.1. <i>Four Stages in the Development of Labor Economics</i> •	
1.2. <i>The Argument to Come</i>	
2. Protection of the Poor	13
2.1. <i>Defining the Poor</i> • 2.2. <i>Early Legislative Attempts</i> •	
2.3. <i>Conflicting Political Centers</i>	
3. The Promotion of Labor: Attitudes toward the Importance of Work	18
3.1. <i>The Greek Tradition</i> • 3.2. <i>The Judeo-Christian Legacy: Work as a Duty</i> • 3.3. <i>The British (Lockean) Legacy: Work as the Foundation of the Property Right</i>	
4. The Smith-Ricardo-Marx Legacy of a Labor Theory of Value	24
4.1. <i>Smith's Use of Labor-Input as a Theory of Comparative Prices</i> • 4.2. <i>Ricardian Economics: Ricardo and James Mill</i> •	
4.3. <i>The Place of Labor in Marxian Economics</i> •	
4.4. <i>A Recapitulation</i>	
5. The Study of Unionism as an Approach to Labor Economics: The British Model	40
5.1. <i>Background</i> • 5.2. <i>Early Foundations of Trade Unionism</i> •	
5.3. <i>Beatrice and Sidney Webb</i>	
6. The Study of Unionism as an Approach to Labor Economics: The American Model	50

6.1. <i>Background</i> • 6.2. <i>Five Rationales for the Study of Labor</i> • 6.3. <i>The First Rationale: Ely and Christian Socialism</i> • 6.4. <i>The Second Rationale: Scientific Socialism</i> • 6.5. <i>The Third Rationale: The Psychological Paradigm of Veblen and Hoxie</i> • 6.6. <i>The Fourth Rationale: Barnett and Welfare Economics</i> • 6.7. <i>The Fifth Rationale: Adams, Perlman, and the Institutional Dimension</i> • 6.8. <i>The Constitutional Elements of the American Approach to Labor Problems</i> • 6.9. <i>The Emergence of Welfare Capitalism</i>	
7. <i>Measurement and Labor Economics</i>	70
7.1. <i>The Need for Measurement</i> • 7.2. <i>Pareto's Law</i> • 7.3. <i>The System of National Accounts</i>	
8. <i>Abstraction and Positivism: Theories of Wages</i>	76
8.1. <i>The Subsistence Theory and the Wages Fund</i> • 8.2. <i>The Marginal Productivity Theory</i> • 8.3. <i>Bargaining Theories of Wages</i>	
9. <i>Abstraction and Positivism: The Microeconomics of Labor</i>	94
9.1. <i>Introduction</i> • 9.2. <i>Scientific Management and Labor Productivity</i> • 9.3. <i>The Theory of Human Capital</i>	
10. <i>Conclusion</i>	102
3. <i>Approaches to Modern Capital Theory</i>	105
1. <i>Introduction</i>	105
1.1. <i>The Line of Argument</i> • 1.2. <i>The Setting of the Stage</i> • 1.3. <i>Capital Seen as a Property Right</i> • 1.4. <i>Rationales for the Study of Capital</i> • 1.5. <i>Interpretations: The Focus of the Present Effort</i>	
2. <i>The Long Prologue: Foundational Views</i>	110
2.1. <i>Quesnay and the Foundations of the Advance Theory of Capital</i> • 2.2. <i>Turgot and the First Comprehensive Theory of Capital</i> • 2.3. <i>Adam Smith: Capital within an Economic Framework</i> • 2.4. <i>Jeremy Bentham's Supply-and-Demand Concept of Capital</i> • 2.5. <i>Ricardo and the Time Theory of Capital</i> • 2.6. <i>Say and the Refinement of Smithian Theory</i> • 2.7. <i>Senior and the Abstinence Theory of Capital</i> • 2.8. <i>John Stuart Mill</i> • 2.9. <i>Marx and the Exploitation Theory of Capital</i> • 2.10. <i>Wicksell and Capital Theory</i>	
3. <i>Act One: Böhm-Bawerk versus Bates Clark</i>	149
3.1. <i>Böhm-Bawerk: Social versus Private Capital</i> • 3.2. <i>John Bates Clark: The Permanent Capital Fund</i> • 3.3. <i>The Debate</i>	
4. <i>Act Two: The Efforts of Irving Fisher</i>	164
4.1. <i>Introduction</i> • 4.2. <i>Fisher and the Stock-Flow Framework</i> • 4.3. <i>The Fetter-Tuttle Answers</i>	
5. <i>Act Three: Knight, Hayek, and Expectations</i>	176

5.1. <i>Knight: Capital in Value Terms</i> • 5.2. <i>Hayek and the Austrian Theory of Capital</i> • 5.3. <i>The Debate</i>	
6. Act Four: The Two Cambridges Debate	186
6.1. <i>Introduction</i> • 6.2. <i>Cambridge, Massachusetts: The Production Function Approach</i> • 6.3. <i>Cambridge, United Kingdom: The Heterogeneity of Capital</i> • 6.4. <i>The Debate Concludes</i>	
7. Epilogue: Sraffa and the Reemergence of Marxian Capital Theory	196
8. Encore: The Measurement of Capital	198
9. Conclusion	199
Appendix A: Fisher's Interest Rate Determination	202
Appendix B: Sraffa's Derivations	204
4. The Economic Place of Land and Resources	207
1. Introduction	207
1.1 <i>The Setting</i> • 1.2. <i>The Special Character of Land</i>	
2. Petty and the Problem of the Par	210
3. Cantillon and the Foundation of a Land Theory of Value	212
4. The Extension of the Land Theory: The Physiocrats, Smith, and Malthus	216
4.1. <i>The Physiocratic Extension</i> • 4.2. <i>Smith</i> • 4.3. <i>Malthus</i>	
5. The Restatement of the Theory of Rent: Ricardo	227
6. Other Contributors: Ogilvie, Müller, Say, and John Stuart Mill	230
6.1. <i>The Setting</i> • 6.2. <i>Ogilvie</i> • 6.3. <i>Müller</i> • 6.4. <i>Say</i> • 6.5. <i>John Stuart Mill</i>	
7. The American Scene: Jeffersonian Agrarianism as the American Model	237
8. Spatial Economics	237
8.1. <i>Spatial Economics Defined: The Importance of Cantillon</i> • 8.2. <i>Spatial Economics Refined: Thünen</i> • 8.3. <i>Spatial Economics Perfected: Lösch</i> • 8.4. <i>Other Contributors: Hotelling and Hoover</i>	
9. Conclusion	249
5. Entrepreneurship	253
1. Introduction	253
1.1. <i>The Topic</i> • 1.2. <i>The Historical Setting</i>	
2. Implicit Theories of the Entrepreneur	257

2.1. <i>The Entrepreneur in Greek Thought</i> • 2.2. <i>Preclassical Notions of the Entrepreneur</i> • 2.3. <i>The Physiocrats and Smith</i> • 2.4. <i>Bentham</i> • 2.5. <i>The Argument to Come</i>	
3. The Entrepreneur as a Handler of Risk	265
3.1. <i>Risk and Uncertainty Defined</i> • 3.2. <i>Cantillon's Early Perception of Uncertainty and the Role of the Entrepreneur</i> • 3.3. <i>Thünen's Theory of the Entrepreneur: Differentiation of Risk and Uncertainty</i> • 3.4. <i>Knight as Thünen Redux</i>	
4. The Entrepreneur as Expediter	271
4.1. <i>The Setting</i> • 4.2. <i>Say</i> • 4.3. <i>Clark, Davenport, and Robertson</i> • 4.4. <i>Schumpeter and "Creative Destruction"</i> • 4.5. <i>Coase and the Nature of the Firm</i>	
5. The Austrian Theory of the Entrepreneur	283
5.1. <i>Menger</i> • 5.2. <i>Mises</i> • 5.3. <i>Kirzner</i> • 5.4. <i>Summary</i>	
6. Recent Interpretations: Penrose, Leibenstein, and Casson	289
6.1. <i>Penrose and the Growth of the Firm</i> • 6.2. <i>Leibenstein and X-Efficiency</i> • 6.3. <i>Casson and "Entrepreneurial Judgment"</i>	
7. Concluding Thoughts	293
8. The Argument to Come	295
6. Economic Markets and Their Purposes	297
1. A General Orientation	297
2. The Topic of the Market	298
3. Social Order, Economic Equity, and the Market	301
3.1. <i>The Just Price</i> • 3.2. <i>Market Price and Natural Price</i>	
4. Considerations of Time in the Formation of Prices	304
4.1. <i>The Pricing Process in Static Terms</i> • 4.2. <i>Price as a Result of Dynamic Change</i>	
5. Two Dissimilar but Convergent Interpretations of the Meaning of the Market Process	309
5.1. <i>Hayek and the Purpose of the Market</i> • 5.2. <i>The Institutionalists' Contributions to the Debate</i>	
6. Conclusion	316
6.1. <i>The Complexities of Understanding Factor Market Relationships</i> • 6.2. <i>Integrating the Literature on Product and Service Markets with the Literature on the Factors of Production</i>	
7. What Does It All Mean?	323
<i>Appreciating Our Intellectual Baggage</i>	
1. Introduction to the Conclusion	323
2. Methodology	325

3. The Mechanisms of Professionalization (Orthodoxies, Teaching, Research, Journals)	326
4. Why Study the History of a Science?	329
5. Modern Scientism	331
6. The Current Frontier	332
7. Apologia	333
