Arthropods of Mediterranean-Type Ecosystems

With 72 Figures and 16 Tables

Contents

| 1 | Introduction | 1 |
|---------|---|----|
| 1.1 | The Mediterranean Climate | 1 |
| 1.2 | Mediterranean-Type Ecosystems | 2 |
| 1.2.1 | The Physical Environment | 2 |
| 1.2.2 | Vegetation | 6 |
| 1.2.3 | Geographical Distribution | 7 |
| 1.2.3.1 | Maquis Formations | 7 |
| 1.2.3.2 | Phrygnic Formations | 9 |
| 1.2.4 | The Resilience of Mediterranean-Type Ecosystems . | 10 |
| 1.2.4.1 | Attributes of Resilience | 13 |
| 1.2.5 | Litter Production and Decomposition | 15 |
| 2 | Water Balance in Mediterranean Arthropods | 17 |
| 2.1 | Water Relations | 17 |
| 2.2 | Components of Water Balance | 18 |
| 2.3 | The Dynamics of Water Relations | 19 |
| 2.4 | Adaptation to Moisture Variations | 22 |
| 2.5 | Responses of Arthropods | |
| | to Environmental Extremes | 24 |
| 2.5.1 | Behavioural Responses | 24 |
| 2.5.2 | Cryptobiosis | 25 |
| 2.5.2.1 | Anhydrobiosis | 25 |
| 2.5.2.2 | Ecomorphosis | 27 |
| 3 | Respiratory Metabolism | 29 |
| 3.1 | Respiration and Weight | 30 |
| 3.2 | Respiratory Response to Varying Temperature | 32 |
| 3.3 | Acclimation to Constant Temperature | 3 |

X Contents

| 4 | Activity Patterns | 41 |
|----------|--|----|
| 4.1 | Daily Patterns | 41 |
| 4.2 | Seasonal Patterns | 42 |
| 4.3 | Feeding Activity | 44 |
| 4.4 | Oviposition Patterns | 46 |
| 4.5 | The Joint Effect of Temperature and Humidity | |
| | on Feeding Activity and Demography | 49 |
| 4.5.1 | Short-Term Effect of Varying Temperature | |
| | and Humidity | 49 |
| 4.5.2 | Energetics | 51 |
| 4.5.3 | Long-Term Effect of Temperature | 53 |
| 4.5.4 | The Effect of Thermal Past | |
| -1-1- | on Demographic Parameters | 55 |
| 5 | Life Cycle Tactics and Development | 59 |
| 5.1 | Life History Characteristics | 59 |
| 5.1.1 | Life Span | 61 |
| 5.1.2 | Age of Maturity | 62 |
| 5.1.3 | Reproductive Strategies | 62 |
| 5.1.3.1 | Thelytoky and Sexual Reproduction | 63 |
| 5.1.3.2 | Semelparity and Iteroparity | 65 |
| 5.1.3.3 | Parental Care | 67 |
| 5.1.3.4 | Reproductive Effort | 68 |
| 5.1.3.5 | The Effect of Temperature and Humidity | 00 |
| J.1.J.J | on Egg-Laying Patterns | 68 |
| 5.2 | Synchronisation Tactics | 69 |
| 5.3 | Life Cycle Development | 71 |
| 5.3.1 | Life Cycle Development | /1 |
| 3.3.1 | of Short-Lived Arthropods | 71 |
| - | | 71 |
| 5.3.2 | Life Cycle Development | 72 |
| | of Long-Lived Arthropods | 73 |
| 6 | Phenological Patterns | 77 |
| 6.1 | Modelling Phenological Patterns | 77 |
| 6.2 | Numerical Responses of Microarthropods | 79 |
| 6.3 | Numerical Responses of Macroarthropods | 84 |
| 6.4 | Numerical Responses to Environmental Disasters | 86 |
| 6.4.1 | Population Dynamics | 86 |
| 6.4.2 | Modelling Population Dynamics | 87 |
| J. 412 | | ٠, |
