1 The hidden Hungarian miracle	1
<i>László Halpern and Charles Wyplosz</i>	
1 Introduction	1
2 Overview of the years 1989–97	2
3 Early microeconomic adjustment	7
4 Macroeconomics	12
5 Conclusion: revisionism and optimism	18
PART ONE: MACROECONOMIC POLICY	
2 Fiscal difficulties in the transition: the case of Hungary between 1990 and 1995	23
<i>Pál Gáspár</i>	
1 Introduction	23
2 Fiscal trends in Hungary between 1990 and 1995	24
3 Factors affecting fiscal developments	27
4 The growth of public debt	31
5 Macroeconomic impact of the growing fiscal deficit	36
6 The reduction of the fiscal deficit and stabilisation of public debt	41
7 Conclusions	44

Appendix 2.1: structural financial data, 1990–5	47
Discussion	51
<i>David Begg</i>	
3 The interest rate transmission mechanism in Hungary, 1991–1995	54
<i>Balázs Világi and János Vincze</i>	
1 Introduction: Hungarian monetary policy, 1991–5	54
2 Characterising monetary policy	58
3 Theoretical background	61
4 Econometric analysis	70
5 Summary	80
Discussion	84
<i>Giancarlo Perasso</i>	
4 The nature of Hungarian inflation	87
<i>István Hamecz, János Vincze and István Zsoldos</i>	
1 Introduction	87
2 Money and prices	89
3 Data analysis of disaggregated consumer prices	93
4 Exchange rates and prices	105
5 Summary and conclusions	113
Appendix 4.1: ‘most increasing’ and ‘least increasing’ prices, 1991:1–1996:2	114
Appendix 4.2: estimation and prediction in the random coefficients model	115
Appendix 4.3: results of panel data estimation	116
Discussion	123
<i>Ratna Sahay</i>	
5 The hidden economies of Visegrád countries in international comparison: a household electricity approach	128
<i>Mária Lackó</i>	
1 Introduction	128
2 Alternative definitions of the hidden economy	129
3 The causes of the hidden economy in market economies and in socialist/post-socialist economies	130

4	New estimation method for the size of the hidden economy: the household electricity approach	132
5	Calculating the share of the hidden economy in GDP	139
6	Indices of the hidden economy and the currency ratios	140
7	The position of Hungary, the Czech republic, Slovakia and Poland as determined by the model	143
8	Unemployment, self-employment and the hidden economy in post-socialist countries	146
9	Summary and conclusions	148
	Discussion	153
	<i>Michael A. Landesmann</i>	

PART TWO: INDUSTRIAL STRUCTURE

6	Corporate governance in the transition – the case of Hungary: do new structures help create efficient ownership control?	159
	<i>Ádám Török</i>	
1	Introduction	159
2	Models of CG	159
3	CG and economic transition	166
4	Evolution or bifurcation?	174
5	Conclusions for legislation and policy	182
	Appendix 6.1: the enterprise sample	184
	Appendix 6.2: list of major laws related to CG and privatisation	185
7	Corporate performance in the transition: econometric analysis of Hungarian exporting firms, 1985–1994	192
	<i>László Halpern and Gábor Körösi</i>	
1	General performance	192
2	Empirical model of profit	195
3	Cobb–Douglas production functions	205
4	Conclusions	209
	Discussion	212
	<i>Jan Svejnar</i>	

8 Hungary's Ponzi game	216
<i>László Szakadát</i>	
1 Reforming the Hungarian banking sector, 1987–91	217
2 Credit conciliation	234
3 Bank conciliation	239
4 Debtor conciliation	243
5 Privatisation of state banks	246
6 Assessment and policy recommendations	249
Discussion	255
<i>Jérôme Sgard</i>	
1 The causes of the banking crisis	256
2 What went wrong during the restructuring process?	260
3 What might the future consequences of the banking crisis be?	262

PART THREE: LABOUR MARKETS

9 The minimum wage in Hungary: subsistence minimum and/or bargaining tool?	267
<i>Jenő Koltay</i>	
1 Minimum wages in market economies	267
2 Economic effects of minimum wages	268
3 Wage control and minimum wage in Hungary before 1989	269
4 Wage guidelines and minimum wage fixing after 1989	269
5 Subsistence minimum and minimum wage	272
6 Wage bargaining and/or minimum wage bargaining	277
7 Protection of the low-paid and the minimum wage	282
8 Enforcement and fragmentation of the minimum wage	283
9 Minimum wage prospects and possible changes	287
10 Concluding remarks	288
Discussion	290
<i>George Kopits</i>	
10 Welfare institutions and the transition: in search of efficiency and equity	294
<i>Iván Csaba and András Semjén</i>	
1 Introduction	294

2	Some general trends	295
3	Public pensions	305
4	Health care	321
5	Conclusions	335
	Discussion	344
	<i>Christine H. Allison</i>	
1	Rethinking the role of the state – the world over	344
2	Refocusing on the effectiveness of welfare programmes and social spending	344
3	How well has Hungary done in recasting the role of the state?	345
11	Regional unemployment rate differentials in Hungary, 1990–1995: the changing role of race and human capital	351
	<i>Árpád Ábrahám and Gábor Kertesi</i>	
1	The time pattern of regional unemployment rate differentials	352
2	An intertemporal statistical model	360
3	On the employment discrimination against the Gypsy minority	368
4	Conclusion	372
	Appendix 11.1: the determinants of individual chances of unemployment (logit estimation)	374
	Appendix 11.2: relationship between the Gypsy ratio and the migration balance	375
	Discussion	377
	<i>Michael Burda</i>	
	<i>Index</i>	381
