1 Introduction	1
1.1 Background	1
1.2 Agricultural cooperatives in sub-Saharan Africa	4
1.3 Conceptual framework	8
1.4 Data and field work	18
1.5 Organization of the study	22
2 Spread	26
2.1 Submission, separation and integration (1896–1945)	26
2.2 Introduction of agricultural service cooperatives in African areas	35
2.3 Euphoria and consolidation policies (1963–72)	47
2.4 Supply side strategies and penetration of marginal areas (1973–83)	63
3 Survival	98
3.1 Introduction	98
3.2 A conceptual note	100
3.3 Survival 1946–62	107
3.4 Survival 1963–70	112
3.5 Survival 1971–83	129
4 Performance	149
4.1 Introduction	149
4.2 Some basic features	158
4.3 Coffee	161
4.4 Cotton	185

Contents

4.5 Pyrethrum	200
4.6 Dairy	213
4.7 Other marketing activities	226
4.8 Unions	233
5 Impact	243
5.1 Scope of participation	244
5.2 Source of participation	261
6 Summary and conclusions	267
6.1 Summary	267
6.2 Conclusions	277
Appendix 1	284
Appendix 2	286
Appendix 3	288
Appendix 4	290
Appendix 5	292
Notes and references	294
Bibliography	308

List of tables

1.1	Estimated membership of agricultural cooperatives sub-Saharan Africa, by region, 1979-84	8
2.1	Registrations by district, 1946-53	38
2.2	Registrations by main activity, 1946-53	39
2.3	Registrations by district and main activity, 1946-53	39
2.4	Registrations by district, 1954-62	43
2.5	Registrations by activity, 1954-62	44
2.6	Registrations by district and main activity, 1954-62	45
2.7	Registrations by district and main activity, 1963-66	51
2.8	Registered land in major smallholder areas, incl. settlement schemes in the former White Highlands ('000 ha)	53
2.9	Staff establishment in the DOCD and national cooperative institutions, 1963 and 1973	61
2.10	Registrations by district and main activity, 1967-72	62
2.11	Availability of high-potential land by province, 1979	66
2.12	Availability of high-potential land in selected, densely populated districts, 1979	67
2.13	Distribution of households below 2,200 K.Sh. total consumption by agro-ecological zone, 1974	70
2.14	Distribution of holdings by size, 1976/77	71
2.15	Registrations by district and main activity, 1973-77	83
2.16	Registrations by district and main activity, 1978-83	84
2.17	Courses and students at the Cooperative College, 1967-70 and 1980-82	90
2.18	Growth indicators, savings and credit societies	92
2.19	Total no. of staff in MOCD, Cooperative College, CBK, KNFC and CIS, 1973-83	92
3.1	Societies in register and mortality frequency for the periods 1946-62, 1963-70 and 1971-83 (by province)	99
3.2	Societies in register and mortality frequency 1946-62 in relation to agro-ecological conditions	110

List of tables

3.3	Societies in register and frequencies of liquidations/dormancies by district, 1946-62	111
3.4	Societies in register and frequencies of liquidations/dormancies by activity, 1946-62	112
3.5	Mortality frequency by district and main activity, 1946-62	113
3.6	Correlation matrix, 1963-70	115
3.7	Principal component analysis, reference period 1963-70	116
3.8	Factor pattern matrix, reference period 1963-70	116
3.9	Communality, reference period 1963-70	117
3.10	Rotated factor matrix (varimax) and factor transformation matrix, ref. period 1963-70	117
3.11	Factor score coefficient matrix, ref. period 1963-70	117
3.12	Factor scores by district, ref. period 1963-70	118
3.13	Multiple regression; relationship between environmental characteristics at district level (F1 and F2) and survival rates of agricultural societies	121
3.14	Casewise plot of standardized residual, ref. period 1963-70	124
3.15	Societies in register and liquidations/dormancies by activity in Kiambu and Nyeri districts, 1963-70	125
3.16	Liquidations/dormancies by activity in Baringo and Kilifi districts, reference period 1963-70	125
3.17	Mortality frequency by activity in C1-C4 districts, reference period 1963-70	127
3.18	Survival rates by categories of activity and local environment, reference period 1963-70 (excluding unions)	128
3.19	Correlation matrix, 1971-83	131
3.20	Principal component analysis; initial statistics, reference period 1971-83	132
3.21	Factor pattern matrix, reference period 1971-83	132
3.22	Communality, reference period 1971-83	132
3.23	Rotated factor matrix (varimax) and factor transformation matrix, reference period 1971-83	132
3.24	Factor score coefficient matrix, period 1971-83	133
3.25	Factor scores by district	133
3.26	Changes in environmental indicators between 1969-71 and 1979-83 (1969-71=100)	137
3.27	Environment profiles, 1963-70 and 1971-83 (Index (A) 63-70=100 (B) 71-83=100)	137
3.28	Multiple regression; relationship between environmental characteristics at district level (F1 and	

F2) and survival rates of agricultural societies (reference period 1971–83)	138
3.29 Casewise plot of standardized residual, reference period 1971–83	138
3.30 Survival rates by category of activity and local environment, 1971–83, excluding secondary societies (unions)	142
3.31 MOCD-staff and MOCD-staff ratios by type of local environment, 1973 and 1983	144
3.32 Number of loan disbursements channelled through Cooperative Bank, 1977–83 and estimated number of primary societies reached 1971–83	145
3.33 Loan disbursements from Cooperative Bank by 'activity/produce' profile and category of local environment (K.Sh. '000)	146
3.34 Average size of loan disbursements per member by type of local environment and produce profile (K.Sh.)	146
4.1 Standard forms required for the administration of a primary society (in this example a dairy society)	152
4.2 Share of gross marketed production of smallholders and agricultural service societies, (selected years)	159
4.3 Turnover of agricultural marketing societies, 1976–83 (million K.Sh. at constant 1976 prices)	159
4.4 Value of marketed produce by type of environment, 1982–83, (K.Sh. '000)	159
4.5 Value of marketed produce 1982–83, by activity orientation (primary societies), (K.Sh. '000)	160
4.6 Value of marketed produce by type of environment, excl. coffee societies, 1982–83 (K.Sh. '000)	160
4.7 Selected performance features of unions, by type of local environment, 1982–83 (K.Sh. millions)	160
4.8 Major smallholder coffee areas classified according to ecological characteristics	161
4.9 Basic features of primary coffee societies, 1983	163
4.10 Estimated handling, processing and marketing costs for coffee produced by smallholders, 1982–83 crop season	165
4.11 Smallholder production of coffee 1955–84	166
4.12 Yields of clean coffee/ha by district, 1982–83	171
4.13 Basic performance characteristics of primary coffee societies by type of environment and size category (coffee sales), 1982–83	172
4.14 Basic performance characteristics of primary coffee societies by type of environment and district, 1982–83	173

List of tables

4.15	Estimated sales of inputs to coffee smallholders by cooperatives, 1982–83 season	180
4.16	Profiles of environments of primary coffee societies in Kisii district and Central province	182
4.17	Performance profiles of primary coffee societies in Kisii district and Central province	184
4.18	Primary cotton societies, estimated membership and production of seed cotton by district, 1982–83	186
4.19	Production of lint (number of bales), ginning capacity and utilization, 1982–83 season	192
4.20	Selected performance indicators for Machakos DCU and cotton unions in West Rift (K.Sh.)	199
4.21	Value of pyrethrum sales (at board prices) by district and category of primary society, 1982–83	204
4.22	Value of pyrethrum sales (at board prices) and payment rates by category of environment, 1982–83	209
4.23	Basic performance characteristics of primary dairy societies by category of environment, 1982–83	216
4.24	Basic performance characteristics of primary dairy societies by size category (membership), 1982–83	217
4.25	Basic performance characteristics of dairy societies by district, taxonomized according to access to KCC-processing plants, 1982–83	223
4.26	Basic performance characteristics of dairy societies, taxonomized according to access to KCC-processing plants, to category of environment and size of membership, 1982–83	224
4.27	Basic performance characteristics of primary societies by type of produce marketed, 1983	227
4.28	Basic features and performance characteristics of unions 1982–83, by result	239
4.29	Basic features and performance characteristics of unions 1982–83, by type of environment and main marketing activity	240
4.30	Financial performance indicators, unions 1982–83, by activity orientation and category of environment	241
5.1	Membership of agricultural service societies 1960, 1970 and 1983	248
5.2	Changes in relative distribution of membership and population between 1970 and 1983, by category of environment	249
5.3	Membership of agricultural service societies as a percentage of estimated number of rural households in 1983	250

5.4	Changes in relative distribution of turnover and population between 1970 and 1983 by category of environment	250
5.5	Basic features of primary societies in western and central Kenya classified according to value of produce sales, 1982-83	250
5.6	Membership and produce sales; 'core' and 'periphery', 1982-83	251
5.7	Produce sales and member payments by category of environment, 1982-83	252
5.8	Coverage of CPCS and special credit programmes, 1982-83	254
5.9	Basic geographical characteristics of CPCS, 1983	255
5.10	Staff changes in government and central cooperative bodies, 1963-73	261

List of figures

1.1	Alienated land and major smallholder areas in the early 1960s	22
1.2	Administrative districts, 1983	23
1.3	Urban centres	24
1.4	Agricultural potential	25
2.1	Registrations of agricultural service societies, 1946–53	40
2.2	Registrations of agricultural service societies, 1954–62	46
2.3	Registrations of agricultural service societies, 1963–66	52
2.4	Registrations of agricultural service societies, 1967–72	63
2.5	Change in relative distribution of GDP 1967–76, by province, 1971 prices	69
2.6	Change in relative distribution of agricultural GDP, 1967–76 by province, 1971 prices	69
2.7	Integrated agricultural development project I	76
2.8	Integrated agricultural development project II	77
2.9	Smallholder production services and credit programme	78
2.10	Farm input supply scheme	79
2.11	Smallholder coffee improvement project	80
2.12	Machakos integrated development programme	81
2.13	Kitui arid and semi-arid lands project	82
2.14	Registrations of agricultural service societies, 1973–77	85
2.15	Registrations of agricultural service societies, 1978–83	86
2.16	Employment: MOCD and total for the public sector, 1963–83 (Sem. Log. scale)	93
2.17	Registrations of agricultural service societies, 1946–83	95

List of figures

2.18	Registrations of agricultural service societies by main marketing activity, 1946–83	96
2.19	Registrations of agricultural service societies, by agro-ecological potential, 1946–83	97
3.1	Agricultural service societies registered 1946–83, located in areas with high agro-ecological potential	102
3.2	Agricultural service societies registered 1946–83, located in areas with medium or low agro-ecological potential	103
3.3	Agricultural service societies liquidated/dormant during 1946–62	108
3.4	Active agricultural service societies, 1962	109
3.5	Categories of environments, 1963–70	119
3.6	Agricultural service societies liquidated/dormant, 1963–70	122
3.7	Active agricultural service societies, 1970	123
3.8	Categories of environments, 1971–83	136
3.9	Agricultural service societies liquidated/dormant, 1971–83	140
3.10	Active agricultural service societies, 1983, excluding societies registered 1981–83	141
4.1	Active coffee societies, 1983	164
4.2	Production (clean coffee) and planted (mature) area of coffee, 1965–84	166
4.3	Fluctuations in coffee yields/ha and parchment price/kg, 1965–84. Normalized scale. Current prices	167
4.4	Tea production (made tea equiv.) and planted (mature) area of tea, 1965–84	169
4.5	Fluctuations in coffee yields/ha and price ratio coffee/tea (Board prices), 1965–84. Normalized scale	169
4.6	Coffee yields/ha in C1–C3 environments, 1976–84 (tonnes)	174
4.7	Coffee yields/ha in Central province and Kisii district, 1976–84 (tonnes)	174
4.8	Coffee. Performance levels of farmers and societies in C2-environments in relations to C1, 1982–83. (Index C1 = 100)	175
4.9	Coffee. Frequency distribution of coffee societies in C1/C2-environments by marketing cost (% of parchment price)	176
4.10	Marketing costs in relation to parchment sales of coffee societies, 1982–83	177
4.11	Coffee factories. Processing costs (K£ per tonne) vs. intake of cherry (cwt)	178

4.12	Coffee societies with parchment sales \geq K.Sh. 10 million	178
4.13	Coffee societies with parchment sales $<$ K.Sh. 10 million	179
4.14	Plot of cooperative marketing cost/kg clean coffee with yields in all major coffee districts, 1982–83	180
4.15	Value of cooperative input sales/ha in relation to yields/ha, by district	181
4.16	Production of seed cotton, 1964–84 (tonnes)	187
4.17	Variations of production of seed cotton and average current producer prices, 1964–84. Normalized scale	187
4.18	Changes in seed cotton production and average producer prices (at 1976 prices) 1976–83, normalized scale	188
4.19	Active cotton societies, 1983	188
4.20	Pyrethrum societies registered before independence	202
4.21	Pyrethrum societies registered after independence	203
4.22	Production of pyrethrum, 1968–84 (tonnes and K.Sh./tonne)	205
4.23	Variations in production of pyrethrum and current producer prices, 1968–84. (Normalized scale)	206
4.24	Variations in production of pyrethrum and price ratio pyrethrum/tea, 1968–84. (Normalized scale)	206
4.25	Societies marketing pyrethrum only, 1983	207
4.26	All societies marketing pyrethrum, 1983	207
4.27	Officially recorded volume of marketed milk (million litres) 1970–84	214
4.28	Variations in marketed milk production and real producer price 1970–84	215
4.29	Societies marketing dairy, 1983	217
4.30	Dairy societies $<$ 500 members, 1983	218
4.31	Dairy societies \geq 1,000 members, 1983	219
4.32	Societies with average dairy deliveries/member $<$ K.Sh. 1,000, 1983	220
4.33	Societies with average dairy deliveries/member in the range K.Sh. 1,000–4,000, 1983	221
4.34	Societies with average dairy deliveries \geq K.Sh. 4,000, 1983	222
4.35	Societies with cereals as main marketing activity, 1983	228
4.36	Societies with animals as main marketing activity, 1983	228
4.37	Societies with vegetables as main marketing activity, 1983	229

List of figures

4.38	Multiproduce societies, 1983	229
4.39	Societies with sugar cane as main marketing activity, 1983	230
4.40	Societies with cashew nuts as main marketing activity, 1983	230
4.41	Estimated production of sugar cane by category of producer, 1975–84	231
4.42	Active cooperative unions, 1982–83	238
4.43	Cooperative unions operating at a loss, 1982–83	238
