# Contents

	<i>Page</i>
<i>Preface</i>	<i>(vii)</i>
<i>Acknowledgements</i>	<i>(ix)</i>
<b>Chapter 1</b>	<b>Introduction</b> 1
1.1.	Situation 1
1.2.	Distribution of Area 2
1.2.1.	Physical Characteristics 3
1.3.	Population 4
1.3.1.	Density of Population 5
1.3.2.	Sex Ratio 6
1.4.	Administrative Division 7
1.5	Forests 7
1.5.1.	Forest Area 7
1.5.2.	Vegetation 8
<b>Chapter 2</b>	<b>Climatic Considerations</b> 9
2.1.	Temperature 9
2.1.1.	Effect of High Temperature 10
2.1.2.	Effect of Low Temperature 10
2.2	Frost 11
2.2.1.	Damages due to Frost 11
2.2.2.	Protection Measures 11
2.3.	Snow 12
2.3.1.	Cold Desert - A House of Snow 12
2.3.2.	Effect of Snow on Vegetation 12
2.3.3.	Control Measures 14
2.4.	Rainfall/Precipitation 15
2.4.1.	Damages caused by High Rainfall 16
2.4.2.	Damages caused by Low Rainfall 17

<b>Chapter 3</b>	<b>Soil and Landuse</b>	<b>19</b>
3.1.	Formation of Soil	19
3.1.1.	Parent Material	20
3.1.2.	Climate	20
3.1.3.	Living Organisms	20
3.1.4.	Topography	20
3.1.5.	Time	20
3.2.	Physiographic Units	20
3.2.1.	Agencies of Weathering	21
3.3.	Soil Texture	21
3.4.	Chemical Constituents	22
3.4.1.	Soil Classification	23
3.5.	Land Capability Classification	23
3.6.	Soil and Water Conservation	26
3.6.1.	Management Strategies	26
3.6.2.	Conservation Measures	27
3.6.3.	Research Programmes	28
3.7.	Constraint Analysis	29
3.7.1.	High Wind Velocity	29
3.7.2.	Loosening of Soil	29
3.7.3.	Poor Physical Conditions	29
3.7.4.	Irrigation Facilities	29
3.7.5.	Miscellaneous	29
<b>Chapter 4</b>	<b>Agriculture</b>	<b>31</b>
4.1.	Land Holdings	31
4.2.	Irrigation Facilities	32
4.2.1	Irrigated Area by Sources	32
4.2.2	Other Sources	33
4.3.	Cropping Pattern	33
4.3.1.	Agricultural Crops	33
4.3.2.	Horticultural Crops	34
4.3.3.	Vegetables	34
4.4.	Growing Season	35
4.4.1.	Cropping System	35
4.4.2.	Cropping Intensity	36
4.4.3.	Faulty Adjustment in Cropping Pattern	36

4.5.	Environmental Implications	37
4.6.	Farming Constraints	38
4.6.1.	Limited Growing Season	38
4.6.2.	Monoculture System	39
4.6.3.	Diseases and Pests	39
4.6.4.	Traditional Methods	39
4.6.5.	Inadequate Use of Fertilizers	39
4.6.6.	Cost Heariness	40
4.6.7.	No Facility of Forecasting	40
4.6.8.	Slow Pace of Technology	40
4.7.	Further Course of Action	40
4.7.1.	Integrated Approach	40
4.7.2.	Improve the Existing Cropping System	41
4.7.3.	Adopt Silviculture	41
4.7.4.	Renovation of Lands	41
4.7.5.	Ley Farming	41
4.7.6.	Researches	41
<b>Chapter 5</b>	<b>Animal Husbandry</b>	<b>43</b>
5.1.	Advantages	43
5.2.	Cattle Population	44
5.3.	Production of Kids and Wool	45
5.4.	Endangered Species	46
5.5.	Problems of Fodder Production	47
5.5.1.	Climatic Diversities	47
5.5.2.	Mono-cropping	47
5.5.3.	Degraded Alpine Pastures	48
5.5.4.	Seed Production	48
5.5.5.	Weed Nuisance	48
5.5.6.	Inadequate Breeding and Fertilization	48
5.6.	Impact of Animal Husbandry on Ecology	49
5.6.1.	Feeding Habit	49
5.6.2.	Damages	49
<b>Chapter 6</b>	<b>Forest and Forestry</b>	<b>51</b>
6.1.	The Forests	51
6.1.1.	Benefits of Forests	51

6.1.2.	Extent of Forests	52
6.2.	Forestry	55
6.2.1.	Traditional Practices	55
6.2.2.	Scope of Forestry	56
6.2.3.	People's Participation	58
<b>Chapter 7</b>	<b>Environmental Pollution</b>	<b>61</b>
7.1.	Definitions	61
7.1.1.	Environment	61
7.1.2.	Pollution	62
7.2.	Types of Pollution	62
7.2.1.	Water Pollution	62
7.2.2.	Visual Pollution	62
7.3.	Factors Affecting Pollution	63
7.3.1.	Population Explosion	63
7.3.2.	Reckless Felling	63
7.3.3.	Tourism	63
7.3.4.	Cattle Grazing	64
7.4.	Environmental Problems	64
7.4.1	Soil Erosion Problem	64
7.4.2.	Wildlife Conservation	65
7.4.3.	Impact of Tourism	65
7.4.4.	Saving Water Resources	66
7.4.5.	Fire Hazards	66
7.5.	Pollution Control	66
7.5.1.	Control Measures	67
<b>Chapter 8</b>	<b>Wildlife</b>	<b>69</b>
8.1.	Salient Features	70
8.2.	Major Species	70
8.2.1.	Bos grunniens	70
8.2.2.	Carpra falconeri	70
8.2.3.	Equushominus Kiang	70
8.2.4.	Felix Uncia	71
8.2.5.	Gazella picticaudatae	71
8.2.6.	Ovis nathura	71
8.2.7.	Ovis vignei	71

8.3.	Quality of Life	71
8.3.1.	Resources	72
8.3.2.	Knowledge	72
8.3.3.	Attitude	72
8.3.4.	Conservation	72
8.3.5.	Population	72
8.4.	Wildlife Values	73
8.4.1.	Kinds of Values	73
8.5.	Wildlife Conservation	75
8.5.1.	Education	75
8.5.2.	Problems	75
8.6.	Existing Sources of Wildlife	75
8.6.1.	National Parks	75
8.6.2.	Reserves	76
8.7.	Management	78
8.7.1.	Future Planning	79
<b>Chapter 9</b>	<b>Medicinal and Aromatic Plants</b>	<b>81</b>
9.1.	Extent of Essential Oil Plants	81
9.1.1	Changthang	81
9.1.2	Drass-Suru	81
9.1.3	Leh-Khalsi	82
9.1.4	Nobra	82
9.1.5	Wakha-Mulbik	82
9.1.6	Zanskar	82
9.2.	How to Explore	82
9.2.1.	Research Needs	82
9.2.2.	Quantity and Quality of Plants	83
9.2.3.	Demand of Market	83
9.2.4.	Availability of Labour	83
9.2.5.	Transport Communication Facilities	83
9.2.6.	Management Practices	83
9.3.	Forestry Extension	84
9.3.1.	Aims of Forestry Extension	84
9.3.2.	The Approaches	85

<b>Chapter 10</b>	<b>Combating Desertification</b>	<b>91</b>
10.1.	What is Desertification	91
10.2.	Basic Principles	92
10.3.	Fight against Desertification	92
10.3.1.	Technical Measures	92
10.3.2.	Integrated Approach	97
10.3.3.	Administrative Measures	98
<b>Chapter 11</b>	<b>Afforestation Challenges</b>	<b>101</b>
11.1.	Afforestation Activities	101
11.1.1.	General Activities	101
11.1.2.	Activities of FRL of Defence Ministry	103
11.2.	Changing into People's Movement	104
11.2.1.	Planting along Boundary	104
11.2.2.	Planting Rooted Plants	104
11.2.3.	Fodder Trees	105
11.2.4.	Kisan Nurseries	105
11.2.5.	Forest Forum' Club	105
11.3.	Effecting Economy in Afforestation Work	105
11.3.1.	Elimination of Fencing	105
11.3.2.	Raising Trees with Cooperation	106
11.4.	Tackling Wastelands	106
11.5.	Raising Local Species	106
11.6.	Constraints	107
11.6.1.	Social and Economic	107
11.6.2.	Institution	108
11.6.3.	Technical	108
11.6.4.	Labour/Financial	109
11.6.5.	Improving Natural Habitat	109
<b>Chapter 12</b>	<b>Agroforestry : New Approach</b>	<b>111</b>
12.1.	Creation of Concept	112
12.2.	Principles of Self-Maintenance	112
12.2.1.	Primary Needs	112
12.2.2.	Secondary Needs	113
12.3.	Evolving Appropriate Technology	114
12.3.1.	Non-Agroforestry Interventions	114

12.3.2.	Agroforestry Intervention	114
12.4.	Perspectives of Agroforestry	116
12.4.1.	Evolving System	116
12.4.2.	Rearing Wildlife	116
12.4.3.	Promoting Forestry Extension	116
12.4.4.	Exploration of MFP	117
12.4.5.	Establishing Research Institute	117
12.4.6.	Other suggestions	117
12.5.	Constraints of Agroforestry	117
12.5.1.	Biological	118
12.5.2.	Socio-economic	118
12.5.3.	Agro-eco-climatological	119
12.5.4.	Management/Institutions	119
	<i>Bibliography</i>	121
	<i>Index</i>	129
