<i>Introduction</i>	xvii
 PART I GROWTH AND RE-INDUSTRIALISATION: CHINA'S PRICE REFORM VERSUS THE BIG BANG	 1
Introduction: The Inconsistencies of the Big Bang: Is it a Comprehensive Package?	3
 1 Why did China Avoid the Big Bang?	 9
A return to the original price relativities: is there equilibrium?	9
Triangular debt: is it a macroeconomic matter?	19
The two gaps versus re-industrialisation: how big is the big bang?	24
 2 'Groping for Stones to Cross the River': Price Reform in China	 33
'Golden-period-of-reform' versus buyer's market price reform	33
Dual-track economy: division and unification	39
Economic growth: a vehicle for reform and re-industrialisation	48
The backbone of growth: the 'plan-track' and the state sector	54
 Conclusion to Part I: The Reversible Big Bang	 60

PART II TRANSCENDING THE LOGIC OF PRIVATE OWNERSHIP: CHINA'S ENTERPRISE REFORM VERSUS PRIVATISATION	63
Introduction: The Self-Contradictory Privatisation	65
3 Transcending Private Ownership	75
Personalisation or impersonalisation?	76
What the Japanese firm tells us: less ownership control, better competitiveness?	84
The goal of enterprise reform: privatisation or managerial autonomy?	103
4 'Groping for Stones to Cross the River': Enterprise Reform in China	109
Resetting the boundary between the state and non-state sectors	109
'Managerial autonomy' is the core	118
'Ownership maze' versus 'state corporatism'	128
Conclusion to Part II: Government Reform is Another Core	139
Conclusion: Development Orientation versus Transitional Innovation	142
