

# BANKING AND THE PROMOTION OF TECHNOLOGICAL DEVELOPMENT

Nicolas Jéquier

*Professor of International Administration and Public Management  
Université de Lausanne, Switzerland*

and

Yao-Su Hu

*Reader in Management Studies and Deputy Head, Department of  
Management Studies  
University of Hong Kong*

A study prepared for the International Labour Office within the  
framework of the World Employment Programme

St. Martin's Press      New York

# Table of Contents

<b>Preface</b>	ix
<b>Chapter 1: The Main Argument</b>	1
Banks, Technology and the Development Process	3
The Different Types of Technological Institutions	6
Banks as Sponsors of Research	8
Technology and the Project Cycle	9
Commercial Banks and Technological Innovation	11
The Institutional Constraints of Banks	12
The Outline of our Investigation	14
Summary of Chapter 1 (Box)	18
<b>Chapter 2: The Lessons from History and from Contemporary Experiences</b>	23
Industrial Banking and Traditional Banking	24
The Commitment to Industrial Development	28
The Technological Environment of Industrial Banking	31
The Creation of Technical Departments	33
The Relevance of Industrial Banking Today	35
The Special Credit Institutions	37
Assessment of Performance and Instruments of Action	40
The Development Banking System and its Effectiveness	43
Summary and Conclusions of Chapter 2 (Box)	48
<b>Chapter 3: Technology and the Project Cycle</b>	53
The Different Stages in the Project Cycle	54
Technological Decisions at the Identification Stage	57
Technological Interactions at the Preparation Stage	62
Appraisal, Negotiation and Decision	70
The Technological Dimensions of Project Implementation	74
Project Implementation and the Limitations of Project Culture	77
Summary and Conclusions of Chapter 3 (Box)	81

<b>Chapter 4: The Ability and Willingness of Banks to Promote Technological Development</b>	86
Industrial and Technological Expertise	87
Equity Participation	91
The Diversification into Universal Banking	95
Institutional Culture	96
The Competition between Lending Institutions	97
Government Policies and the External Environment	99
Summary and Conclusions of Chapter 4 (Box)	101
<b>Chapter 5: Instruments and Procedures for Promoting Technological Development</b>	104
The Interfaces with the Technological System	104
Misconceptions about Project Appraisal	106
Misconceptions about Security	109
Technological Development and the Changing Role of Banks	111
Technical Advice and Support	115
The Supply of Commercial and Technological Intelligence	118
New Industries and the Development of Local Suppliers	121
Research and Development and the Role of Venture Capital	123
Assistance to the Government and the Contribution to Public Welfare	125
Summary and Conclusions of Chapter 5 (Box)	128
<b>Chapter 6: The Linkage with National Science and Technology Policies</b>	133
Science Policy and its Perception of Financial Institutions	133
Financial Institutions as Followers of Government Policy	136
The Disappearance of a Bank's Technological Role	139
The Linkages in Integrationist Economic Systems	140
The Indian and Brazilian Experiences	144
Summary and Conclusions of Chapter 6 (Box)	148
<b>Chapter 7: The Linkage with Employment</b>	152
Assessing the Employment Performance	153
The Employment Effects of Technological Decisions	155
The Indirect Employment Effects	160
Technological Sequences and Project Culture	165
Summary and Conclusions of Chapter 7 (Box)	169

<b>Chapter 8: General Conclusions</b>	172
The Importance of Technology to Banks	172
The Decline of Project Culture	175
Project Genesis and the Intelligence Function	180
The Post-Project Phase and the Diversification Dilemma	184
The Relationship with Government Policies	188
A Few Speculative Issues	191
Summary of Chapter 8 (Box)	195
<b>Select Bibliography</b>	199
<b>The Authors</b>	205
<b>Index</b>	207
