Chapter 1. THE PHYSICAL GEOGRAPHY OF SOUTH AMERICA	1
1.1 Introduction	1
1.2 Structure, Geology and Topography	1
1.2.1 Structure and Topography of the Continental Interior	4
1.2.2 Structure and Topography of the Collision Margin	5
1.2.3 Summary of Structure and Topography	9
1.3 Major Climatic Zones	9
1.4 Broad Regional Climates of South America	13
1.4.1 Climate West of the Andes	15
1.4.2 Climate East of the Andes	16
1.4.3 Climates within the Andes	18
1.5 Natural Vegetation Zones of South America	19
1.5.1 East of the Andes	22
1.5.2 West of the Andes	26
1.5.3 Montane Vegetation Types	27
1.5.4 Overview of Vegetation Patterns	28
Chapter 2. QUATERNARY TECTONICS OF SOUTH AMERICA	31
2.1 Introduction	31
2.2 Quaternary Tectonic Features of the Plate Margins	32
2.2.1 The Collision Margin: Quaternary Tectonics of the Andes	32
2.2.2 The Shearing Margins	50
2.2.3 The Passive Margins	52
2.3 Quaternary Tectonic Features of the Continental Interior	54
2.4 Quaternary Tectonics and Drainage Evolution	55
2.4.1 The Andes	56
2.4.2 The Foreland Region	56
2.4.3 The Central Craton	59
2.5 Quaternary Tectonics and Slope Movements	59
2.6 Quaternary Tectonics and Glaciation	63
2.7 Quaternary Tectonics and Raised Marine Shorelines	70
2.7.1 Convergent Margins	71
2.7.2 Passive Margins	71
2.8 Summary	72
Chapter 3. QUATERNARY VOLCANISM IN SOUTH AMERICA	73
3.1 Introduction	73
3.2 Tectonic Setting of Quaternary Volcanism	73
3.3 Distribution and Spatial Arrangement of Quaternary Volcanism	76
3.3.1 Regional Distribution	76
3.3.2 Spatial Arrangement	77
3.4 Petrological Characteristics of Quaternary Volcanic Centres	80

3.5	Geomorphology of the Quaternary Volcanic Regions	83
3.5.1	Tectonic Influences	83
3.5.2	Geochemistry	84
3.5.3	Styles of Andesitic Activity	84
3.5.4	Morphology of Quaternary Andesite Volcanoes	87
3.5.5	Quaternary Stratocones: Limits to Growth	89
3.5.6	Quaternary Stratocones: Rate of Growth	91
3.5.7	Quaternary Stratocones: Denudation and Glaciation	93
3.6	Summary	94
Chapter 4. CHARACTERISTICS OF THE QUATERNARY VOLCANIC ZONES		97
4.1	The Northern Volcanic Zone	97
4.2	The Central Volcanic Zone	113
4.2.1	The Northern Group	115
4.2.2	The Central Group	119
4.2.3	The Southern Group	125
4.3	The Southern Volcanic Zone	130
4.4	The Austral Volcanic Zone	139
4.5	The Extra-Andean Volcanic Zone	141
Chapter 5. QUATERNARY OF THE ALLUVIAL BASINS. PART I: STRUCTURE AND QUATERNARY STRATIGRAPHY		143
5.1	Introduction	143
5.2	The Refuge Theory Problem	146
5.3	Cainozoic Structural Evolution	147
5.4	Quaternary Stratigraphy	151
5.4.1	The Amazon Basin	151
5.4.2	The Paraná Basin	155
Chapter 6. QUATERNARY OF THE ALLUVIAL BASINS. PART II: FLUVIAL LANDFORMS AND SEDIMENTS		163
6.1	Alluvial Fans of the Andean Piedmont	163
6.1.1	The Orinoco Basin	163
6.1.2	The Amazon Basin	166
6.1.3	The Paraná Basin	166
6.2	Alluvial Depocentres of the Andean Piedmont	167
6.2.1	The Beni Basin	167
6.2.2	The Pastaza–Marañon and the Pastaza–Ucayali Basins	170
6.3	Fluvial Terraces in the Middle Amazon Basin	171
6.3.1	Tricart's Study	172
6.3.2	De Meis' Study	172
6.3.3	Ab'Saber's Study	174
6.3.4	Terraces of the Lower Amazon	176
6.4	Geomorphology and Sedimentology of the River Mouths	178
6.4.1	The Amazon Cone	180
6.5	Overview	182
Chapter 7. QUATERNARY OF THE ALLUVIAL BASINS. PART III: AEOLIAN FEATURES: PALAEOCLIMATE		183
7.1	Quaternary Aeolian Features	183
7.1.1	Palaeodunes of the Orinoco Llanos	183

7.1.2	Palaeodunes and Deflation Hollows of the Pantanal and Beni Basins	190
7.1.3	The Beni Basin	196
7.1.4	The Chaco–Pampas Plains	198
7.1.5	The Patagonian Plains	201
7.1.6	The Cangagua Formation of Ecuador	204
7.1.7	Conclusion	209
7.2	Quaternary Palaeoecology of the Alluvial Basins	209
7.3	Quaternary Palaeoclimate of the Alluvial Basins: an Overview	213
7.3.1	Climate Dynamics	213
Chapter 8.	QUATERNARY OF THE SOUTH AMERICAN HIGHLANDS. PART I: HIGHLANDS OF THE BRAZILIAN SHIELD	217
8.1	Introduction	217
8.2	Tertiary–Quaternary Planation Surfaces	217
8.3	Climate, Vegetation Cover and Soils	220
8.4	Quaternary Geomorphology and Climatic Changes	221
8.4.1	The ‘Cobertura Detritica’ (Colluvium)	222
8.4.2	The Stone Lines	225
8.4.3	The ‘Rampa de Coluvio’	225
8.4.3	Sediment-dammed Lakes	228
8.4.4	Hypothesis of Preglacial Aridity and Glacial Humidity	232
8.4.5	Radiocarbon Dating Quaternary Colluvium and Alluvium	233
8.4.6	Palaeoclimatic Significance of Radiocarbon-dated Deposits	242
Chapter 9.	QUATERNARY OF THE SOUTH AMERICAN HIGHLANDS. PART II: CASE STUDIES IN SOUTHEAST BRAZIL: CAMPOS DO JORDÃO AND SERRA DA ITATIAIA	243
9.1	Introduction	243
9.2	The Quaternary of Campos do Jordão	245
9.3	The Quaternary of Serra da Itatiaia	248
9.3.1	Superficial Sediments	252
9.3.2	Erosional Features	256
9.3.3	Climatic Considerations	257
9.3.4	Geocryogenic Features	257
Chapter 10.	QUATERNARY OF THE SOUTH AMERICAN HIGHLANDS. PART III: THE NORTHERN AND SOUTHERN HIGHLANDS	259
10.1	Highlands of the Guyana Shield	259
10.1.1	Structure and Topography	259
10.1.2	Climate and Vegetation	261
10.1.3	Quaternary Landforms and Deposits	264
10.2	The Southern Highlands	269
10.2.1	Structure and Topography	269
10.2.2	Climate and Vegetation	271
10.2.3	Quaternary Geology and Geomorphology	272
Chapter 11.	THE GLACIERS AND GLACIAL LANDFORMS OF SOUTH AMERICA	275
11.1	Introduction	275
11.1.1	Glacier Equilibrium Line Altitudes	275
11.1.2	Glacier Regimes in the Andes	275
11.2	Distribution of Modern Glaciers	277

11.3 The Landforms of Quaternary Glaciers	291
11.3.1 Landforms of Glacial Erosion	293
11.3.2 Landforms of Glacial Deposition	311
11.3.3 Glacio-fluvial Landforms	323
11.3.4 Glacio-lacustrine Features	331
 Chapter 12. LATE CENOZOIC GLACIAL HISTORY OF THE ANDES. PART I: LATE MIocene–MIDDLE PLEISTOCENE	335
12.1 Introduction	335
12.2 Miocene–Pliocene Glaciation	335
12.2.1 The Patagonian Sequence	336
12.3 Pliocene Glaciation	338
12.3.1 Patagonia	338
12.3.2 Bolivia: First Pliocene Glaciation	340
12.3.3 Bolivia: Second Pliocene Glaciation	343
12.4 Pliocene–Pleistocene Glaciation	346
12.4.1 The Greatest Patagonian Glaciation	346
12.5 Early–Middle Pleistocene Glaciation	348
12.5.1 The Chilean Lakes Region	348
12.5.2 Magellan Strait and Fuego–Patagonia	354
 Chapter 13. LATE CENOZOIC GLACIAL HISTORY OF THE ANDES. PART II: THE LATE QUATERNARY (ISOTOPE STAGES 7–3)	365
13.1 Introduction	365
13.2 The Penultimate Interglaciation (Isotope Stage 7)	365
13.3 The Penultimate Glaciation (Isotope Stage 6)	366
13.3.1 The Northern Andes	366
13.3.2 The Central Andes (latitude 15°S–35°S)	367
13.3.3 The Southern Andes (latitude 35°S–56°S)	370
13.4 The Last Interglaciation (Isotope Stage 5e)	374
13.5 The Last Glaciation (110,000–14,000 years BP)	375
13.5.1 Early Last Glaciation (Isotope Stage 4)	375
13.5.2 Middle Last Glaciation (Isotope Stage 3)	386
 Chapter 14. LATE CENOZOIC GLACIAL HISTORY OF THE ANDES. PART III: THE LAST GLACIATION MAXIMUM (ISOTOPE STAGE 2)	395
14.1 Introduction	395
14.2 The Northern Andes	395
14.2.1 Venezuela	397
14.2.2 Colombia	398
14.2.3 Ecuador	408
14.2.4 Overview of the Northern Andes	410
14.3 The Central Andes	410
14.3.1 The Junin Plain	411
14.3.2 Cordillera Vilcanota	411
14.3.3 Cordillera Apolobamba-Real	413
14.3.4 The Aconcagua Range	415
14.4 The Southern Andes	415
14.5 Overview of the Late Last Glaciation	421

Chapter 15. LATE CENOZOIC GLACIAL HISTORY OF THE ANDES. PART IV: THE LATE-GLACIAL AND HOLOCENE	425
15.1 Introduction	425
15.2 A Stadial at ca. 15,000–14,000 Years BP?	425
15.2.1 The Northern Andes	426
15.2.2 The Central Andes	431
15.2.3 The Southern Andes	433
15.2.4 Overview of Glacier Fluctuations ca. 16,000–12,000 years BP	436
15.3 A Late-Glacial Stadial ca. 12,000–10,000 Years BP?	437
15.3.1 The Northern Andes	438
15.3.2 The Central Andes	443
15.3.3 The Southern Andes	450
15.3.4 Overview of the Interval 12,500–10,000 Years BP. Did Andean Glaciers Readvance during the Late-Glacial?	454
15.4 Glacier Fluctuations of the Holocene	457
15.4.1 The Northern Andes	459
15.4.2 The Central Andes	464
15.4.3 The Southern Andes	466
Chapter 16. QUATERNARY GRAVEL FORMATIONS OF SOUTHERN SOUTH AMERICA	473
16.1 Introduction	473
16.2 The Patagonian Gravel Formation	473
16.2.1 Early Interpretations	475
16.2.2 Modern Interpretations	477
16.2.3 Overview of the Patagonian Gravel Formation	480
16.3 The Rodados Multicolores of Southern Chile	485
16.3.1 Overview of the Rodados Multicolores	487
Chapter 17. QUATERNARY PALAEOLAKES OF THE ARID REGIONS OF SOUTH AMERICA	489
17.1 Introduction	489
17.2 Palaeolakes of the Altiplano	489
17.2.1 Early Observations of the Palaeolakes	490
17.2.2 Modern Observations on the Palaeolakes	492
17.3 The Palaeolakes of Patagonia	506
17.3.1 Laguna Cari Laufquen	506
17.3.2 Lago Cardiel	507
17.3.3 Palaeoclimatic Implications of the Patagonian Palaeolakes	511
17.4 The Palaeolakes of Northern Chile	511
17.4.1 The Andean Sub-Region	515
17.4.2 The Atacama Basin	515
17.4.3 Central Valley of Northern Chile	516
17.4.4 Palaeoclimatic Implications	517
17.5 Overview of the Quaternary Palaeolakes	517
Chapter 18. QUATERNARY GEOCRYOGENIC FEATURES OF SOUTH AMERICA AND THE FALKLAND ISLANDS (ISLAS MALVINAS)	521
18.1 Introduction	521
18.2 Modern Geocryogenic Activity	521
18.2.1 Contemporary Geocryogenic Features outside the Andes	522

18.2.2 Contemporary Geocryogenic Features in the Andes	522
18.3 Quaternary Geocryogenic Features	530
18.3.1 The Brazilian Highlands	530
18.3.2 Central Andes of Argentina	534
18.3.3 Patagonia	537
18.4 Quaternary Geocryogenic Features of the Falkland Islands (Islas Malvinas)	543
18.4.1 Structure and Topography of the Falkland Islands	543
18.4.2 Climate of the Falkland Islands	545
18.4.3 Relict Geocryogenic Features of the Falkland Islands	546
18.5 Overview of Quaternary Geocryogenic Activity	561
 Chapter 19. QUATERNARY OF THE SOUTH AMERICAN COASTS	563
19.1 Introduction	563
19.2 The Caribbean Coast of South America	565
19.2.1 The Coast of Venezuela	565
19.2.2 Caribbean Islands Adjacent to Venezuela	567
19.3 The Atlantic Coast of South America	569
19.3.1 The Coastline of Guyana, Surinam and French Guiana	569
19.3.2 Amazon Estuary to the Plate Estuary	572
19.3.3 The Plate Estuary	579
19.3.4 The Plate Estuary to Northern Patagonia	581
19.3.5 Southern Patagonia	581
19.4 The Falkland Islands (Islas Malvinas)	587
19.5 Magellan Strait and Tierra del Fuego	591
19.6 The Pacific Coast South of 42°S	595
19.7 The Pacific Coast North of 42°S	596
19.7.1 The Older Studies	599
19.7.2 New Chronologies and Interpretations	607
19.7.3 Conclusions from Chile and Peru	611
19.8 The Pacific Coast: Ecuador and Colombia	612
19.9 Submerged Quaternary Shorelines	613
19.9.1 The Argentine Shelf	614
19.9.2 The Brazilian Shelf	616
19.10 Conclusions and Implications	617
19.10.1 Interglacial Sea Level	617
19.10.2 Influence of Tectonics	618
 Chapter 20. QUATERNARY PALYNOLOGICAL STUDIES IN SOUTH AMERICA.	
PART I: PRE-QUATERNARY–LATE QUATERNARY	621
20.1 Introduction	621
20.2 Palaeoecology and Palaeoclimate: the Principle	621
20.2.1 The Northern Andes	622
20.2.2 The Southern Andes	624
20.3 Pollen Record and Palaeoclimate before the Late Quaternary	627
20.3.1 The Sabana de Bogota: The First Record	627
20.3.2 Sabana de Bogota: The Funza Record	629
20.4 Middle–Late Quaternary Pollen Record	634
20.5 Pollen Record of the Last Interglaciation	637
20.5.1 The Northern Andes: Colombia	637
20.5.2 The Southern Andes: Chile	639
20.6 Conclusion	642

Chapter 21. QUATERNARY PALYNOLOGICAL STUDIES IN SOUTH AMERICA.	
PART II: THE LAST GLACIATION	643
21.1 Introduction	643
21.2 The Northern Andes	643
21.2.1 The Fuquene Site	646
21.2.2 The El Abra Site	648
21.2.3 Páramo de Agua Blanca Site	651
21.2.4 The Pitalito Site	653
21.3 The Central Andes	655
21.4 The Southern Andes	656
21.4.1 Chilean Lakes Region	656
21.4.2 Central Valley of Chile	664
21.4.3 Southern Argentina	666
21.5 Conclusions	670
Chapter 22. PALAEOECOLOGY OF THE LATE-GLACIAL AND HOLOCENE INTERVALS	671
22.1 Introduction	671
22.2 The Late-Glacial Controversy	671
22.3 Late-Glacial Environments in the Andes	673
22.3.1 The Northern Andes	673
22.3.2 The Southern Andes	677
22.4 Perspective on the Late-Glacial Problem	682
22.5 Palaeoecology of the Holocene	683
22.5.1 The Northern Andes	684
22.5.2 The Central Andes	687
22.5.3 The Southern Andes (East)	689
22.5.4 The Temperate Andes	693
22.5.5 The South-Central Andes (East)	696
22.5.6 The South-Central Andes (West)	697
22.6 Quaternary Palaeoecology of South America: Overview	701
22.6.1 Pre-Quaternary-Late Quaternary Records	701
22.6.2 The Late-glacial Record	702
22.6.3 The Holocene Interval	703
22.6.4 Dynamics of Late-glacial-Holocene Climatic Changes	703
Chapter 23. THE QUATERNARY OF SOUTH AMERICA: OVERVIEW AND IMPLICATIONS	707
23.1 Introduction	707
23.2 Landscape Changes induced by Quaternary Tectonics and Volcanism	707
23.3 Landscape Changes induced by Quaternary Climates	709
23.3.1 The Alluvial Basins	709
23.3.2 The Uplands/HIGHLANDS	712
23.3.3 The Andean Cordillera	713
23.4 Wider Implications of Andean Glaciation	716
23.4.1 The Isotope Stage 4 Problem	716
23.4.2 Isotope Stages 3 and 2	719
23.4.3 The Early Late-glacial Interval (ca. 14,000 years BP)	720
23.4.4 Termination 1 (ca. 13,000 years BP)	724
23.4.5 The Late Late-glacial Interval (ca. 12,500–10,000 years BP)	726
23.4.6 The Holocene	729

23.5 The Final Synthesis	729
23.6 Synchrony between Quaternary Environmental Changes in South America and Global Changes	734
23.6.1 Pre-Last Glaciation	734
23.6.2 The Last Glacial–Interglacial Cycle	734
23.7 Epilogue	736
References	737
Subject Index	769
