

Berthold Cysmann

Constraint-based Coanalysis

Portuguese cliticisation and morphology-syntax interaction in HPSG

Dissertation zur Erlangung des Grades eines
Doktors der Philosophie der Philosophischen
Fakultäten der Universität des Saarlandes

Saarbrücken, im Dezember 2002

Contents

Introduction	1
Overview of the thesis	3
I Cliticisation in European Portuguese: A paradox	7
1 Preliminaries	9
1.1 Clitics and Affixes — Syntax or Morphology?	9
1.2 The Framework: HPSG	14
1.2.1 Basic tenets	14
1.2.2 Typed Feature Structures	15
1.2.3 Tour of the <i>sign</i>	20
1.2.4 Phrase Structure and Subcategorisation	24
1.2.5 Long-Distance Dependencies	31
2 Clitics in EP: Some basic facts	35
2.1 Affixal properties of EP clitics	38
2.1.1 Morphophonological idiosyncrasies (CRITERION C)	38
2.1.1.1 Neutralisation to [l]	38
2.1.1.2 Nasal epenthesis	43
2.1.1.3 Truncation	44
2.1.1.4 Affix fusion	47
2.1.2 Rigid and Idiosyncratic Ordering	49
2.1.3 Arbitrary gaps (CRITERION B)	50
2.1.4 Semantic Idiosyncrasy	56
2.1.5 Integrity (CRITERION F)	58
2.1.6 “Promiscuity” (CRITERION A)	61
2.2 Syntactic transparency	65
2.2.1 Clitic placement	65
2.2.2 Properties of proclisis triggers	71
2.2.2.1 Syntactic approaches	73
2.2.2.2 Syntacto-semantic accounts	75
2.2.2.3 Linear precedence as a descriptive primitive .	85

3 EP clitics: Problems for cliticisation theories	89
3.1 Klavans (1985)	89
3.2 Halpern's bipartite picture	91
3.3 Prosodic Clitics	96
3.4 Lexical clitics: French pronominal affixes in HPSG	103
3.4.1 An extended notion of argument structure	104
3.4.2 Clitic Climbing	107
3.4.3 <i>En</i> -cliticisation	110
3.4.4 Participle Agreement	113
3.5 A purely lexical account of EP clitics?	116
3.5.1 Lexicalising surface order?	116
3.5.2 Percolate morphotactic information?	121
II A monotonic theory of morphosyntactic coanalysis	125
4 Linear Order in HPSG	131
4.1 Constituency and Order Domains	133
4.2 German separable prefix verbs	141
5 The morphosyntax of EP clitics: An analysis	147
5.1 Morphology in HPSG	147
5.2 Morph-based Morphology	160
5.3 Affixal realisation	164
5.4 Morphotactics	172
5.4.1 Cluster Morphology	172
5.4.1.1 Previous approaches	175
5.4.2 Beyond the cluster	182
5.4.2.1 Proclisis/Enclisis alternation	182
5.4.2.2 Mesoclisis	188
5.4.2.3 The syntactic representation of the cluster . .	195
5.5 More on Morph-based Morphology:	
Tense/Agreement inflection	198
5.6 The syntax of clitic placement	210
5.6.1 Proclisis	211
5.6.2 Clitic climbing	223
5.6.2.1 Argument composition vs. domain union . .	223
5.6.2.2 The lexical representation of pronominal arguments	228

5.6.2.3	A brief note on French	241
5.6.3	(Non-)affixal realisation	251
6	Phonological properties and prosodic structure	265
6.1	Phonology in HPSG	265
6.2	Ctic morphophonology	269
6.3	Cticisation and Prosodic Phonology	276
6.3.1	Regular word-level phonology	276
6.3.1.1	Data	276
6.3.1.2	Type-based Prosodic Phonology	278
6.3.1.3	Analysis	284
6.3.2	Citics and external sandhi	289
6.3.2.1	Data	289
6.3.2.2	Analysis	294
6.3.3	The phonology of pronominal and tense affixes	308
6.3.3.1	Data	309
6.3.3.2	Analysis	316
7	Clitics and Coordination	325
7.1	Coordination and syntactic transparency	325
7.1.1	Basic coordination facts	325
7.1.2	Problems for phrasal affixation	329
7.2	Surface-oriented coordination	332
7.2.1	Head-sharing and dependent-sharing	342
8	More Morphology-Syntax Mismatches	353
8.1	Discontinuous morphology in Fox complex predicates	354
8.1.1	The lexical status of preverb-verb complexes	357
8.1.2	The morphological status of Fox inflectional morphology	360
8.1.2.1	Syntactic approaches	360
8.1.2.2	Arguments in favour of syntactically complex morphological objects	361
8.1.3	An analysis	363
8.2	Udi subject agreement	366
8.2.1	Syntactic distribution	367
8.2.2	Morphological properties	369
8.2.3	Endocliticisation?	374
8.2.4	Towards a reanalysis	377

9 The End	379
9.1 Summary	379
9.2 Comparison with other approaches to morphology/syntax interaction	381
9.3 Outlook	384
