<i>David Lim</i>	
3.1 Size and growth of the public sector	34
3.2 Central government expenditure by function	40
3.3 Central government expenditure by economic type	44
3.4 Sources of central government current revenue	47
3.5 Further research	49

**PART II THEORETICAL PERSPECTIVES**

<b>4</b>	<b>The Peacock–Wiseman Hypothesis</b>	
	<i>Magnus Henrekson</i>	
4.1	Introduction	53
4.2	The hypothesis	54
4.3	A review of previous empirical tests	59
4.4	A critical assessment of previous empirical tests	61
4.5	A more adequate test	63
4.6	Conclusions	68
<b>5</b>	<b>Public Expenditure and Political Process</b>	
	<i>Alan Hamlin</i>	
5.1	Introduction	72
5.2	Public expenditure levels	74
5.3	Public expenditure growth	79
5.4	Concluding comments	84
<b>6</b>	<b>The Economics of Bureaucracy</b>	
	<i>John G. Cullis and Philip R. Jones</i>	
6.1	Introduction	86
6.2	The ‘standard’ economic theory of bureaucracy	87
6.3	Relative public sector growth and the economics of bureaucracy	95
6.4	Testing for the impact of bureaucracy	96
6.5	Data and results	98
6.6	Conclusions	101
<b>7</b>	<b>Wagner’s Law and Musgrave’s Hypotheses</b>	
	<i>Norman Gemmell</i>	
7.1	Introduction	103
7.2	An outline of Wagner’s Law and Musgrave’s hypotheses	104
7.3	Problems of interpretation and testing	109
7.4	Results of empirical studies	115
7.5	Conclusions and assessment	118
<b>8</b>	<b>Modelling Public Expenditure Growth: An Integrated Approach</b>	
	<i>Peter M. Jackson</i>	
8.1	Introduction	121
8.2	An integrated public choice approach	122
8.3	Limitations of the analysis	131
8.4	Conclusions	135

<b>9</b>	<b>Government Consumption: Its Effects on Productivity, Growth and Investment</b>	
	<i>Steve Dowrick</i>	
9.1	Introduction	136
9.2	Modelling the impact of government growth	136
9.3	Data and estimation	142
9.4	Conclusions	150
<b>PART III CASE STUDIES IN PUBLIC EXPENDITURE GROWTH</b>		
<b>10</b>	<b>Social Security Expenditure</b>	
	<i>John Creedy</i>	
10.1	Introduction	155
10.2	The special nature of transfer payments	156
10.3	Population ageing and pension finance	161
10.4	Conclusions	168
<b>11</b>	<b>Health Care Expenditure</b>	
	<i>David K. Whynes</i>	
11.1	Introduction	170
11.2	Demand and supply factors	172
11.3	Costs, insurance and health expenditures	173
11.4	Public sector decision making and health expenditures	178
11.5	Concluding remarks	180
<b>12</b>	<b>Higher Education Expenditure</b>	
	<i>Paul Ryan</i>	
12.1	Introduction	184
12.2	Trends in public expenditure on higher education	185
12.3	Fiscal climate	191
12.4	Fiscal priority	193
12.5	Conclusions	198
<b>13</b>	<b>The Political Economy of Public Sector Growth in the United States</b>	
	<i>Terry L. Anderson and Thomas Stratmann</i>	
13.1	Introduction	201
13.2	Measures of public sector growth	201
13.3	Sources of US governmental growth	205
13.4	Conclusions	210

<b>14</b>	<b>The Public Sector in Australia: A Quantitative Analysis</b> <i>Franz Hackl, Friedrich Schneider and Glenn Withers</i>	
14.1	Introduction	212
14.2	Historical evolution of the Australian public sector	213
14.3	Models of government growth	214
14.4	Econometric findings	221
14.5	Conclusions	230
	<i>Bibliography</i>	232
	<i>Index</i>	253
