Feeding
Form, Function, and Evolution in Tetrapod Vertebrates

Edited by
Kurt Schwenk
Department of Ecology and Evolutionary Biology
University of Connecticut
Storrs, Connecticut

## Section I

### INTRODUCTION

#### CHAPTER 1

**Tetrapod Feeding in the Context of Vertebrate Morphology**

KURT SCHWENK

I. Introduction 3
II. Approaches to the Study of Tetrapod Feeding 5
III. Concluding Comments 16

References 16

#### CHAPTER 2

**An Introduction to Tetrapod Feeding**

KURT SCHWENK

I. Introduction 21
II. Morphology of the Feeding Apparatus 26
III. Kinematics of Feeding: The Gape Cycle 47

References 47

## Section II

### AMPHIBIA

#### CHAPTER 3

**Aquatic Feeding in Salamanders**

STEVEN M. DEBAN AND DAVID B. WAKE

I. Introduction 65
II. Morphology 68
III. Function 82
IV. Diversity and Evolution 88
V. Opportunities for Future Research 92

References 92

#### CHAPTER 4

**Terrestrial Feeding in Salamanders**

DAVID B. WAKE AND STEPHEN M. DEBAN

I. Introduction 95
II. Morphology 97
III. Function 101

References 101
## Contents

IV. Diversity and Evolution 111  
V. Opportunities for Further Research 114  
References 114

### CHAPTER 5

Feeding in Frogs  
KIISA C. NISHIKAWA

I. Introduction 117  
II. Morphology of the Feeding Apparatus 119  
III. Function of the Feeding Apparatus 124  
IV. Neural Control of Prey Capture 135  
V. Evolution of the Feeding Apparatus 139  
VI. Conclusions 143  
VII. Current and Future Directions 144  
References 144

### CHAPTER 6

Feeding in Caecilians  
JAMES C. O'REILLY

I. Introduction 149  
II. Morphology 150  
III. Function 155  
IV. Evolution 161  
V. The Future 163  
References 164

### SECTION III

REPTILIA: TESTUDINES

### CHAPTER 7

A Bibliography of Turtle Feeding  
KURT SCHWENK

I. Introduction 169  
II. Bibliography 169

### SECTION IV

REPTILIA: LEPIDOSAURIA

### CHAPTER 8

Feeding in Lepidosaurs  
KURT SCHWENK

I. Introduction 175  
II. Lepidosaurian Phylogeny and Classification 176  
III. Natural History 178  
IV. Morphology of the Feeding Apparatus 189  
V. Feeding Function 220  
VI. Specialized Feeding Systems 257  
VII. Evolution of Feeding in Lepidosaurs 264  
VIII. Future Directions 277  
References 278

### CHAPTER 9

Feeding in Snakes  
DAVID CUNDALL AND HARRY W. GREENE

I. Introduction 293  
II. Form and Function 301  
III. Performance and Size 322  
IV. Evolution 322  
V. Concluding Remarks 326  
References 327

### SECTION V

REPTILIA: ARCHOSAURIA

### CHAPTER 10

Feeding in Crocodilians  
JOHAN CLEUREN AND FRITS DE VREE

I. Introduction 337  
II. Morphology 340
CHAPTER

11
Feeding in Paleognathous Birds
CAROLE A. BONGA TOMLINSON

I. Introduction 359
II. Materials and Methods 360
III. Morphology of the Hyolingual Apparatus 361
IV. Function of the Hyolingual Apparatus 373
V. Evolution of the Feeding System 384
References 390

CHAPTER

12
Feeding in Birds: Approaches and Opportunities
MARGARET RUBEGA

I. Introduction 395
II. Patterns of Analysis 396
III. Conclusion 406
References 406

SECTION

VI
MAMMALIA

CHAPTER

13
Feeding in Mammals
KAREN M. HIITEMAE

I. Introduction 411
II. Mammalian Feeding System 414
III. The "Process Model" for Mammalian Feeding 416
IV. Mechanical Properties and Textures of Foods 419

CHAPTER

14
The Ontogeny of Feeding in Mammals
R. Z. GERMAN AND A. W. CROMPTON

I. Introduction 449
II. Morphology 449
III. Function and Mechanics of Suckling 450
IV. Rhythmicity and Control of Suckling 453
V. Coordination of Swallowing and Respiration 455
VI. Transition from Suckling to Drinking at Weaning 455
VII. Evolutionary Considerations 456
References 456

CHAPTER

15
Feeding in Myrmecophagous Mammals
KAREN ZICH REISS

I. Introduction 459
II. Foraging Ecology 462
III. Morphology of the Feeding Apparatus 464
IV. Functional Morphology 475
V. Evolution of Myrmecophagous Specializations 478
VI. Directions for Future Research 480
References 481

CHAPTER

16
Feeding in Marine Mammals
ALEXANDER WERTH

I. Introduction 487
II. Feeding Strategies 492
III. Conclusions 521
References 521

Index 527
