<b>1 Introduction</b>	1
<b>2 Economics of agricultural production: theoretical foundations</b>	5
2.1 Introduction	5
2.2 Physical relationships	6
2.2.1 <i>The factor-product relationship</i>	7
2.2.2 <i>The factor-factor relationship</i>	13
2.2.3 <i>The product-product relationship</i>	16
2.3 Economic relationships	18
2.3.1 <i>Economic optimum: the factor-product relationship</i>	18
2.3.2 <i>Economic optimum: the factor-factor relationship</i>	19
2.3.3 <i>Economic optimum: the product-product relationship</i>	27
2.3.4 <i>Economic optimum: the general case</i>	28
2.4 Summary points	29
<b>3 Product supply and input demand</b>	30
3.1 Introduction	30
3.2 Product supply	31
3.2.1 <i>The need for a dynamic specification</i>	36
3.3 Demand for inputs	40
3.3.1 <i>The competitive model of input demand</i>	41
3.3.2 <i>Asset fixity in agriculture</i>	46
3.4 Conclusions	47
3.5 Summary points	48
<b>4 Topics in production economics</b>	49
4.1 Introduction	49
4.2 Efficiency of resource use	50
4.2.1 <i>Technical, allocative and economic efficiency</i>	50
4.2.2 <i>'The myth of efficiency'</i>	52
4.3 Technological change	53

4.3.1	<i>Technological change in economic modelling</i>	53
4.3.2	<i>Sources of technological change</i>	59
4.3.3	<i>Adoption and diffusion of new technologies</i>	60
4.4	Risk and uncertainty	64
4.5	Duality	66
4.6	Conclusions	69
4.7	Summary points	69
<b>5</b>	<b>Theory of consumer behaviour</b>	72
5.1	Introduction	72
5.2	The basic relationships	73
5.3	The analysis of consumer choice	76
5.4	Variations in the consumer's equilibrium	81
5.5	Income and substitution effects	85
5.6	Summary points	89
<b>6</b>	<b>Economics of market demand</b>	91
6.1	Introduction	91
6.2	Basic demand relationships	91
6.2.1	<i>The market demand curve</i>	91
6.2.2	<i>The market demand function</i>	92
6.2.3	<i>Shifts in the market demand curve</i>	94
6.3	Elasticities of demand	95
6.3.1	<i>The own-price elasticity of demand</i>	96
6.3.2	<i>Cross-price elasticity of demand</i>	100
6.3.3	<i>The income elasticity of demand</i>	101
6.4	Properties of demand functions	105
6.4.1	<i>Homogeneity condition</i>	105
6.4.2	<i>The Slutsky equation and Slutsky symmetry</i>	106
6.4.3	<i>Engel aggregation</i>	107
6.5	Dynamics in demand analysis	108
6.6	Conclusions	110
6.7	Summary points	112
<b>7</b>	<b>Developments in demand theory</b>	113
7.1	Introduction	113
7.2	'New' theories of demand	113
7.2.1	<i>Lancaster's model of consumer demand</i>	113
7.2.2	<i>Becker's model of consumer demand</i>	119
7.3	Duality in demand analysis	121
7.4	Conclusions	122
7.5	Summary points	123
<b>8</b>	<b>Equilibrium and exchange</b>	125
8.1	Introduction	125
8.2	The definition of equilibrium	126
8.2.1	<i>Partial vs. general equilibrium</i>	128

8.2.2	<i>Existence, uniqueness and stability of an equilibrium</i>	130
8.2.3	<i>Disequilibrium</i>	132
8.2.4	<i>Interference with equilibrium</i>	134
8.3	Equilibrium in product markets	138
8.3.1	<i>Comparative statics</i>	138
8.3.2	<i>Dynamics</i>	146
8.4	Production and consumption activities within the agricultural household	152
8.4.1	<i>The theory of the agricultural household</i>	153
8.4.2	<i>The Z-goods model of the agricultural household</i>	163
8.5	Conclusions	164
8.6	Summary points	165
9	<b>Analysis of agricultural markets</b>	167
9.1	Introduction	167
9.2	Degrees of market competition	168
9.2.1	<i>Many buyers and sellers</i>	168
9.2.2	<i>Monopoly</i>	170
9.2.3	<i>Monopsony</i>	181
9.3	Structure and functions of agricultural markets	186
9.3.1	<i>Market institutions</i>	187
9.3.2	<i>Market functions</i>	189
9.4	Simultaneous equilibrium at two market levels	190
9.5	Marketing margins and farm prices	193
9.6	Conclusions	195
9.7	Summary points	196
10	<b>Welfare economics</b>	198
10.1	Introduction	198
10.2	Competitive markets and Pareto optimality	200
10.2.1	<i>The exchange efficiency criterion</i>	201
10.2.2	<i>The production efficiency criterion</i>	203
10.2.3	<i>The top level criterion</i>	205
10.3	Reasons for policy intervention in markets	206
10.4	Welfare criteria for policy choice	209
10.5	Consumer and producer surplus	211
10.6	The problem of the second best	217
10.7	Conclusions	220
10.8	Summary points	221
11	<b>Economics of trade</b>	224
11.1	Introduction	224
11.2	Trade theory	226
11.2.1	<i>Theory of comparative advantage</i>	226
11.2.2	<i>Heckscher-Ohlin theory of trade</i>	232
11.2.3	<i>Vent-for-surplus</i>	234

11.3	Trade equilibrium with no transport costs	235
11.4	Trade with international transport and handling charges	240
11.5	Terms-of-trade	245
11.5.1	<i>Measuring terms-of-trade</i>	246
11.5.2	<i>Interpreting measures of the terms-of-trade</i>	249
11.6	Trade intervention	253
11.6.1	<i>The effects of imposing import tariffs on trade</i>	253
11.6.2	<i>Non-tariff barriers to trade</i>	255
11.6.3	<i>Reasons for trade intervention</i>	257
11.7	Conclusions	258
11.8	Summary points	262
<b>12</b>	<b>Food and agricultural policy</b>	264
12.1	Nature and principles of policy	265
12.1.1	<i>The elements of policy</i>	265
12.1.2	<i>Classification of instruments of policy</i>	268
12.1.3	<i>Rules of policy</i>	272
12.2	Analysing the effects of policy instruments	273
12.2.1	<i>Partial equilibrium analysis</i>	273
12.2.2	<i>Classifying the effects of agricultural policy</i>	282
12.3	Economic analysis of selected agricultural policies	285
12.3.1	<i>Export taxes for Thai rice</i>	285
12.3.2	<i>Egypt's wheat procurement and distribution policy</i>	290
12.4	Conclusions	294
12.5	Summary points	296
