P	Preface		iii
1	Preliminaries		
	1.1	Objectives	1
	1 · 2	Importance of Structural Change	1
	1.3	Statistical Techniques	3
	1.4	Preview	4
		References	5
2	Structural Change in Economics and Statistics		6
	2 · 1	History of Structural Change in Statistics	6
	2.2	History of Structural Change in Economics	8
	2.3	Recent Developments in Structural Change	15
	2.4	Example of Structural Change in Economics	17
	2.5	Example of Structural Change in Time Series	19
	2.6	Related Topics in the Literature	22
		References	24
3	Bayesian Statistical Inference		
	3.1	Introduction	30
	3.2	Some History of Bayes' Procedures	31
	3.3	Subjective Probability	34
	3.4	Foundation of Inference	35
	3.5	Some Special Distributions	43

	3.6 3.7 3.8 3.9	Bayesian Analysis of a Normal Population Analysis of the Linear Model Changing Normal Sequence Exercises References	48 51 55 58 59
4	Cha	nging Parameter Models: Univariate Case	65
	4.1	Introduction	65
	4.2	Two-Phase Linear Models: Posterior Analysis	67
	4.3	Predictive Analysis with Changing Linear Models	86
	4.4	Other Changes in Linear Models	89
	4.5	Other Topics on Structural Change	95
	4.6	Exercises	96
		References	98
5	Cha	nging Parameter Models: Multivariate Case	101
	5.1	Introduction	101
	5.2	The Model and Prior Information	101
	5.3	Posterior Analysis of a Join Point and Parameter Shift	1 07
	5.4	Posterior Analysis of a Join Point and Parameter Shift	
		with Linear Constraints	113
	5.5	Gradual Change with Linear Constraints	118
	5.6	Translog Input Demand Model	1 20
	5.7	Exercises	130
		References	1 32
6	Stru	ctural Change in Time Series	135
	6.1	Introduction	135
	6.2	Bayesian Time Series Analysis	136
	6.3	Structural Change in Time Series	152
	6.4	Comments	189
	6.5	Exercises	189
		References	191
7	Stru	ctural Change in Econometrics	195
	7.1	Introduction	195
	7.2	Known Join Point with Unequal Variances	196
	7.3	Known Join Point with Unequal Variances	
		and Autocorrelations	207
	7.4	Stability of the Demand-for-Money Equation	219
	7.5	Unknown Join Points and Gradual Transitions	
		to New Regimes	224

Contents

•

	7.6	Time-Varying Parameter Model: Kalman Filter Model	232
	7.7	Cooley-Prescott Time-Varying Parameter Model	235
	7.8	Structural Change in Simultaneous Equation Models	239
	7.9	Exercises	251
		References	254
8	A Review and a Look Ahead		258
	8.1	Review	258
	8.2	The Future	260
		References	26 1
