Contents

<i>List of tables</i>	ix
<i>List of figures</i>	xii
<i>Preface</i>	xiii
1 Introduction and summary	1
<i>Part I Household-economics theory and the southern African context</i>	11
<hr/>	
2 Household economics: theory, applications and relevance	13
<i>The theory</i>	13
<i>Applications in developed societies</i>	15
<i>Relevance of the approach in less developed societies</i>	16
<i>An early application of household economics in southern Africa</i>	18
3 Indigenous agriculture in southern African economies	22
4 A model of the indigenous farm-household in southern Africa	28
<i>Chayanov and household economics</i>	28
<i>Current farm-household theory and its limitations in southern Africa</i>	30
<i>A Z goods approach to subsistence farm production</i>	35
<i>Cash cropping and multi-person households</i>	40
<i>Observations on the model</i>	44
5 Historical developments re-examined	48
<i>A household-economics interpretation of agricultural development in Botswana and Lesotho</i>	48
<i>Contributions to development theory</i>	53
<i>Part II Field study: regional evidence and analysis</i>	57
<hr/>	
6 Focus on Swaziland	59
<i>Geography and climate</i>	59
<i>History</i>	60
<i>The Swazi rural sector</i>	62
7 Supporting evidence from Swaziland and elsewhere	65
<i>The data base</i>	65
<i>Returns to farm labour in crop production</i>	66
<i>Cropping patterns</i>	70
<i>The domestic development cycle</i>	75
<i>Demographic differentiation</i>	86
8 Adoption of improved crop technology	90
<i>Hybrid-maize adoption in Swaziland</i>	91
<i>Fertilizer and tractors in Swaziland</i>	103
<i>Appropriateness of labour-intensive versus labour-saving technology in southern Africa</i>	104

9	Non-market benefits of land-use rights and cattle ownership	107
	<i>Land attributes</i>	108
	<i>Cattle attributes</i>	110
10	Labour migration: a comparative-advantage approach	118
	<i>Conventional theories on the development of labour markets in southern Africa</i>	119
	<i>Contradictory evidence</i>	120
	<i>Migration models and analytical concepts</i>	123
	<i>The household-economics argument</i>	123
11	Rural development: towards a broader perspective	134
	<i>Agricultural innovations and development initiatives</i>	136
	<i>Widening the analytical framework</i>	142
	<i>Implications for the evaluation of rural development</i>	151
Part III Wider perspectives		155
<hr/>		
12	Policy implications	157
	<i>Food-price policy</i>	157
	<i>Integrated rural development and rural-urban migration</i>	160
	<i>Land tenure</i>	162
13	Farming-systems research	167
	<i>Characteristics of the approach</i>	167
	<i>Farm-household linkages</i>	169
	<i>Expanding the systems perspective</i>	172
	<i>Evaluation of farming-systems research</i>	176
14	Household economics and agrarian development in other settings	179
	<i>The common circumstances of Peruvian and southern African peasantry</i>	179
	<i>A unifying interpretation of family labour use in farm production</i>	181
	<i>A pan-African perspective</i>	183
Appendix 1	Characteristics of survey areas	192
Appendix 2	Farm management survey data collection and analysis	193
Appendix 3	Statistical supplement	195
