<i>Preface to the Third Edition</i>	xi
<i>Acknowledgements</i>	xv
1 Balance-of-Payments Accounting and the Foreign-Exchange Market	1
Concepts of the balance of payments	1
The accounting balance of payments	2
Balance-of-payments equilibrium	5
More on the concept of equilibrium	19
The foreign-exchange market	22
The demand for dollars	23
The supply of dollars	26
Capital movements and speculation	31
The forward rate of exchange	33
Types of exchange-rate regime	37
Fixed versus flexible exchange rates	46
Exchange rate reform	50
2 The Balance of Payments and the National Economy	53
The integration of the balance of payments into the national accounts	53
The conflict between balance-of-payments equilibrium and other objectives of economic policy	55
Income equilibrium in an open economy and the foreign-trade multiplier	59
The foreign-trade multiplier relating imports to expenditure	62
The 'new' foreign-trade multiplier with foreign repercussions	66

Balance-of-payments adjustment	70
The classical price-specie flow mechanism	71
The elasticity approach	72
The absorption approach	74
The monetary approach	74
3 The Elasticity Approach to the Balance of Payments	77
The Marshall-Lerner condition derived	77
Devaluation and the response of firms	83
Lags and the <i>J</i> -curve effect	88
Devaluation and inflation	90
Devaluation and the terms of trade	97
The difficulties of measuring price elasticities	98
4 The Absorption Approach to the Balance of Payments	103
The direct effect of devaluation on income	105
The direct effect of devaluation on absorption	106
The interaction between changes in income and changes in absorption	108
Strengths and dangers of the absorption approach	110
The monetary aspects of balance-of-payments deficits	112
Domestic credit expansion	113
5 The Monetary Approach to the Balance of Payments	115
6 Simultaneous Internal and External Balance	123
Internal and external balance under flexible exchange rates with no capital movements	125
Internal and external balance under fixed exchange rates with capital movements	129

Internal and external balance in an <i>IS-LM</i> curve framework	134
The use of monetary and fiscal policy under alternative exchange-rate regimes	136
The assignment of policies in the United Kingdom	137
7 A History of the U.K. Balance of Payments	139
1854 to 1939	139
1940 to 1950	145
1951 to 1959	148
1960 to 1969	151
Devaluation, 1967	160
1970 to 1979	163
Since 1980	171
Appendix 7.1: an economic analysis of the United Kingdom's payments difficulties in the 1960s - the prelude to devaluation, 1967	175
Appendix 7.2: a polemic on floating the pound, 1972	189
8 Import Functions	203
The determinants of imports	203
Imports and capacity	205
Imports and labour-market bottlenecks	209
Imports and income (estimates of income elasticities)	211
Imports and relative prices (estimates of price elasticities)	214
Import penetration	217
9 Export Functions	221
The determinants of exports	221
Exports and capacity	222
Exports and world income (estimates of income elasticities)	229
Exports and relative prices (estimates of price elasticities)	230
Export performance in manufacturing	238
The United Kingdom's declining share of world exports	241
Appendix: commodity and geographic composition of U.K. exports and imports	246

10 The Balance-of-Payments Equilibrium Growth Rate	251
The determination of the balance-of-payments equilibrium growth rate	252
A fundamental law of growth	256
The model with capital flows	260
11 Export-led Growth	261
The importance of export-led growth	261
Models of export-led growth	265
An export-led growth model with a balance-of-payments constraint	271
12 The Balance of Payments as a Structural Problem	275
Non-price factors determining exports and imports	278
North Sea oil and the balance of payments	282
The balance of payments and deindustrialisation	285
A trade strategy for the United Kingdom	289
<i>Notes</i>	294
<i>References</i>	303
<i>Index</i>	316
