

# Cognitive Foundations of Musical Pitch

---

CAROL L. KRUMHANSL

*Department of Psychology  
Cornell University*

OXFORD PSYCHOLOGY SERIES NO. 17

New York    Oxford  
OXFORD UNIVERSITY PRESS  
1990

# Contents

1. OBJECTIVES AND METHODS, 3
  - The approach of cognitive psychology, 5
  - The plan of the research, 9
  - Outline of the following chapters, 12
2. QUANTIFYING TONAL HIERARCHIES AND KEY DISTANCES, 16
  - The tonal hierarchy, 18
  - The first probe tone study: individual differences with a major-key context, 21
  - Replication and extension to minor-key contexts, 25
  - A derived measure of interkey distance, 31
  - A spatial representation of interkey distance, 40
  - Theoretical maps of key relationships, 46
3. MUSICAL CORRELATES OF PERCEIVED TONAL HIERARCHIES, 50
  - Tonal consonance, 51
  - Tonal consonance and tonal hierarchies, 55
  - Statistical analyses of tonal compositions, 62
  - Tonal distributions and tonal hierarchies, 66
  - Tonal hierarchies, tonal consonance, and tonal distributions, 75
4. A KEY-FINDING ALGORITHM BASED ON TONAL HIERARCHIES. 77
  - The key-finding algorithm, 78
  - Application I: initial segments of preludes of J. S. Bach, Shostakovich, and Chopin, 81
  - Application II: fugue subjects of J. S. Bach and Shostakovich, 89
  - Application III: J. S. Bach's C Minor Prelude, Book II, 96
  - Limitations and possible extensions of the algorithm, 106
5. PERCEIVED RELATIONS BETWEEN MUSICAL TONES. 111
  - Geometric representations of musical pitch, 112
  - Limitations of geometric models, 119
  - Experimental measures of tonal relations, 123
  - Correlations with tonal consonance and tonal distributions, 134

6. PERCEPTUAL ORGANIZATION AND PITCH MEMORY, 138
  - Gestalt theory, 138
  - Three principles of tonal stability, 140
  - Perceptual organization in music: Segmentation and melodic similarity, 152
7. QUANTIFYING HARMONIC HIERARCHIES AND KEY DISTANCES, 165
  - Music-theoretical descriptions of harmony, 166
  - Quantifying the harmonic hierarchy, 168
  - Harmonic hierarchy of diatonic triads I–VII, 177
  - Deriving key distances from harmonic hierarchies, 182
8. PERCEIVED HARMONIC RELATIONS, 188
  - Perceived harmonic relations and key structure, 188
  - Perceived harmonic relations of diatonic triads I–VII, 192
  - Key context effects on perceived harmonic relations, 195
  - Key structure and memory for chord sequences, 199
  - Key context effects on memory for chord sequences, 203
  - Relational effects on memory for chord sequences, 207
  - Parallels between perceived tonal and harmonic structures, 210
9. PERCEIVING MULTIPLE KEYS: MODULATION AND POLYTONALITY, 213
  - Tracing the developing and changing sense of key, 214
  - Tonal hierarchies and polytonality, 226
10. TONAL HIERARCHIES IN ATONAL AND NON-WESTERN TONAL MUSIC, 240
  - Tonal hierarchies in 12-tone serial music, 241
  - Tonal hierarchies in North Indian music, 253
  - Tonal hierarchies in Balinese music, 266
  - Tonal hierarchies: some generalizations, 268
11. MUSIC COGNITION: THEORETICAL AND EMPIRICAL GENERALIZATIONS, 271
  - Properties of the diatonic-harmonic system, 271
  - Properties of pentatonic, octatonic, and North Indian scales, 275
  - Properties emerging from the empirical studies, 280
