<b>1</b>	<b>INTRODUCTION</b>	<b>1</b>
	The Role of Financial Assets and Markets	2
	Two Principal Functions of Financial Assets / Two Principal Functions of Financial Markets	
	The Methodology of Financial Economics	4
	Positive and Normative Economic Theory / Empirical Methodology	
	Topics Covered in This Book	8

## **PART 1**

### **THE VALUE OF ASSETS** **11**

---

<b>2</b>	<b>DETERMINANTS OF REAL INTEREST RATE</b>	<b>12</b>
	Introduction to the Rate of Interest	13
	Historical Perspective on the Interest Rate / Some Difficulties in Computing Interest Rate	
	Fisherian Theory of the Real Rate of Interest	18
	Time Preference / Investment Opportunities / Equilibrium with Borrowing and Lending / Market Equilibrium / A Simple Statement of Equilibrium	
	Equilibrium in Primary and Secondary Markets Analyzing the Flow of Funds	33
	Financial Statements for Economic Sectors / Flow of Funds for the United States, 1977-1986	
	APPLICATION: U.S. Treasury Yields and the Flow of Funds	43
<b>3</b>	<b>PRICING RISK: A REVIEW OF BASIC CONCEPTS</b>	<b>49</b>
	The Risk-Return Trade-Off	50
	Choice Between Mutually Exclusive Investments / The Impact of Diversification on Risk / Choice Between Portfolios of Assets	
	Systematic and Unsystematic Risk	60
	Individual Assets and the Market Portfolio / Measuring Systematic Risk	

Models of Asset Pricing	64
<i>Overview of the CAPM / Shortcomings of the CAPM</i>	
APPLICATION: Using CAPM to Estimate Discount Rates	67

#### **4 PRICING CONTINGENT CLAIMS 75**

How Options and Futures Work	76
<i>Definitions of Terms / Understanding Futures and Options Price Quotas / Long Versus Short Positions in Options / The Relationship Between Options and Futures / Viewing Assets Through the Options Framework</i>	
Uses of Options and Futures	89
<i>For Acting on Specific Information / Limiting Risk with Options / Hedging Exchange Rate Risk</i>	
The Determination of Option Prices	96
<i>The Black-Scholes Formula / Empirical Evidence on the Black-Scholes Model</i>	
APPLICATION 1: An Example of Payoffs on Options	83
APPLICATION 2: Viewing Lockheed's Debt Issue as an Option	90

#### **5 INFORMATION AND FINANCIAL MARKETS 105**

Market Prices and Efficient Use of Information	106
<i>The Concept of Efficiency / Levels of Market Efficiency / Evidence on Market Efficiency</i>	
The Problem of Assymmetrical Information	115
<i>The Lemons Problem / Adverse Selection in an Insurance Market</i>	
The Information Production Industry	120
<i>Types of Information Producers / Problems with Quality of Information Produced</i>	
Economies in Information Production and the Role of Specialists	122
<i>Optimal Search / The Role of the Specialist</i>	
Signaling Information	127
APPLICATION 1: <i>Inside Information and Market Efficiency</i>	109
APPLICATION 2: <i>The Crash of 1987: An Efficient Market?</i>	116

## **PART 2**

### **DETERMINANTS OF MARKET INTEREST RATES 131**

#### **6 INFLATION, INTEREST RATES, AND EXCHANGE RATES 132**

Definition of Terms	133
The Link Between Inflation and Nominal Interest Rates	135
<i>Real and Nominal Rates Defined / Ex Ante and Ex Post Inflation and Real Interest Rates / Wealth Redistribution Due to Inflation / The Behavior of Ex Ante Real Rate and the Efficient Markets Hypothesis: Unresolved Questions / Inflation and the Returns on Equity Securities</i>	

	Inflation and Nominal Interest Rates in Different Currencies	147
	Spot and Forward Exchange Rates / Relationship of Interest Rates, Inflation, and Exchange Rates	
	The Relationship Between the Four Propositions	153
	APPLICATION 1: An Example of Market Response to Inflation News	146
	APPLICATION 2: Purchasing Power Parity in the 1980s	154
<b>7</b>	<b>FACTORS AFFECTING NOMINAL INTEREST RATES</b>	<b>159</b>
	Premiums for Risk and Default	160
	Determination of Premiums for Default Risk / Evidence on Risk Premiums in Debt Securities / Development of the Junk Bond Market	
	Taxes and the Yields on Securities	168
	Some Basic Features of the Tax Laws / The Effect of Taxes on Municipal Bond Yields / The Subsidy for Investors in Municipal Tax Exemption / Taxation of Interest and Capital Gains: The Advantage of Discount Bonds	
	The Impact of Relative Security Supplies on Nominal Yields	181
	Segmentation Versus Substitution	
	APPLICATION: When Is a Default a Default?	170
<b>8</b>	<b>THE TERM STRUCTURE OF INTEREST RATES</b>	<b>188</b>
	Yield Curves and Forward Rates	189
	The Yield Curve / The Meaning and Computation of Forward Rates / The Relationship Between Forward and Futures Rates	
	Theories of the Term Structure of Interest Rates	198
	The Unbiased Expectations Theory / The Segmentation Theory / The Preferred Habitat Theory	
	Interest Rate Forecasts and the Term Structure	206
	The Efficient Markets Hypothesis and the Term Structure of Interest Rates / Theories of the Formation of Expectations / Coupon Risk and Price Risk	
	APPLICATION 1: Calculating Forward Rates from Treasury Bill Rates	196
	APPLICATION 2: The Usefulness of the Yield Curve	212
<b>9</b>	<b>MANAGING INTEREST RATE RISK</b>	<b>217</b>
	Hedging Interest Rate Risk with Futures and Options	218
	How a Hedge Works / Basic Risk / Hedging Strategy	
	Using Options to Hedge Interest Rate Risk	227
	Constructing a Hedge / Advantages of Options in Managing Interest Rate Risk	
	Immunizing a Bond Portfolio	231
	Coupon Bonds and Duration / Properties of Duration / Immunization	
	APPLICATION 1: A Cross Hedge in the Mortgage Market	222
	APPLICATION 2: Wall Street's Hedging Problem in April, 1987	232

<b>10</b>	<b>MONETARY POLICY AND INTEREST RATES</b>	<b>242</b>
	Operation of the Federal Reserve and Control of the Monetary Base 243	
	Organization of Power Within the Federal Reserve Open Market Operations and Control of the Monetary Base	
	Determinants of the Money Supply 247	
	Defining Money / The Multiple Expansion Process / Leakages from the Multiple Expansion Process	
	The Demand for Real Money Balances 255	
	Specifying the Demand for Money / Real Versus Nominal Money Demand	
	Interest Rate Determination 259	
	Liquidity and Income Effects / Which Interest Rates Are We Talking About? / The Price Anticipations Effect	
	APPLICATION 1: The Significance of the Chairman of the Board of Governors of the Federal Reserve 245	
	APPLICATION 2: Monetary Policy in 1987 248	
<b>11</b>	<b>THE MONETARY POLICY DEBATE</b>	<b>271</b>
	A Brief History of Recent Monetary Policy 272	
	Interest Rates Versus Aggregates as Targets of Monetary Policy / Federal Reserve Policy Until the Early 1950s / Federal Reserve Policy from 1950 to 1979	
	Monetary Policy and Market Efficiency 278	
	How Monetary Policy Works in an Efficient Market / The Links Between Monetary Policy and Interest Rates in an Efficient Market / Evidence on Monetary Policy and Interest Rates	
	The Critique of the Conduct of Monetary Policy 286	
	The Monetarist Critique / The Money Supply Rule / The Open Economy Critique of Monetary Policy	
	APPLICATION 1: Monetary Policy Since 1979 280	
	APPLICATION 2: The Politics of Monetarism 292	
	APPLICATION 3: Monetary Policy and the Crash of 1987 294	

**PART 3****FORCES SHAPING THE STRUCTURE OF FINANCIAL MARKETS****301****12 THE ORGANIZATION AND STRUCTURE OF FINANCIAL MARKETS****302**

Auction and Over-the-Counter Markets 303

Auction Markets / Over-the-Counter Markets and the Roles of Brokers and Dealers / Primary and Secondary Markets

Intermediated Markets 310  
The Concept of Intermediation  
Services Provided by Financial Intermediaries 311  
Risk Reduction Through Diversification / Maturity Intermediation / Reduction in the  
Cost of Contracting / Information Production / Management of the Payments  
System / Insurance  
APPLICATION 1: The New York Stock Exchange: An Auction Market with  
Dealers 308  
APPLICATION 2: Types of Financial Intermediaries in the United  
States 318

**13 THE RATIONALE FOR REGULATING FINANCIAL MARKETS 324**

An Initial Perspective on Regulation 325  
Regulation and the Competitive Marketplace / Natural Monopoly / Externalities /  
Asymmetrical Information / The Motives for Regulating Financial Markets  
Regulation and Monopoly Power in Financial Markets 329  
Sources of Monopoly Power in Financial Markets / Regulation to Promote Competition  
Regulation and the Problem of Expropriation 333  
Expropriation in Private Contracts / Market Mechanisms to Deal with Expropriation /  
Regulating the Terms of Contracts  
Regulation and the Concept of Agency 337  
Sources of the Agency Problem / Regulating Agents  
Regulation to Limit Market Failure 339  
APPLICATION 1: Examples of Cartel Behavior 331  
APPLICATION 2: The Separation of Banking and Insurance 334

**14 REGULATION OF THE SECURITIES MARKETS 344**

Overview of the Regulatory System for Securities Markets 345  
Events Leading Up to the Securities Acts of 1933 and 1934 / The Securities Acts of  
1933 and 1934 / Reform of the Securities Markets in the 1970s  
Promoting Competition in Securities Markets 352  
The Impact of Eliminating Minimum Brokerage Commissions / The National Market  
System  
Regulating the Distribution of Information 357  
Insider Trading / Disclosure Regulation / Separation of Commercial and Investment  
Banking  
APPLICATION 1: Principal Features of the Securities Acts 348  
APPLICATION 2: Does the Crash of 1987 Mean More Regulation of  
Securities Markets? 364

<b>15</b>	<b>THE REGULATION OF COMMERCIAL BANKS</b>	<b>370</b>
	Overview of the Bank Regulation System	371
	Banking Regulation Through the Great Depression	371
	The Underlying Issue: Convertibility and Stability / Early Regulation and the Wildcat Banking Era / Reform: The National Banking Act / The Federal Reserve System / Banking Legislation Spawned by the Depression	
	Control of Risk and Capital Regulation	381
	Regulation to Limit Risk / Capital Regulation	
	Problems with the Deposit Insurance System	386
	An Alternative Bankruptcy System / Pricing of Deposit Insurance / Diversification of FDIC Risk	
	APPLICATION 1: Key Features of Bank Regulation	372
	APPLICATION 2: Impediments to Deposit Insurance Reform	389
<b>16</b>	<b>INNOVATION IN FINANCIAL MARKETS</b>	<b>396</b>
	The Process of Innovation	397
	The Forces that Generate Innovation / A Taxonomy for Innovation	
	Securitization of Financial Assets	400
	Benefits of Securitization / Costs of Securitization	
	Innovations in the Over-the-Counter Market in Equity Securities	406
	The Rise of NASDAQ / Competition Between Dealers on the NASDAQ / TIGRS, Cats, and Other Zeros / Interest Rate Risk and OID Bonds / Tax Advantages of OID Bonds / The Emergence of Stripped U.S. Treasury Bonds	
	APPLICATION: Securitization of Auto Receivables	404
<b>PART 4</b>	<b>CONTEMPORARY FINANCIAL MARKETS AND INSTITUTIONS</b>	<b>421</b>
<b>17</b>	<b>REFORM OF THE REGULATORY SYSTEM FOR FINANCIAL INSTITUTIONS</b>	<b>422</b>
	The Background of Regulatory Reform	423
	Basic Features of the Regulatory System / Weaknesses in the Regulatory System	
	Reform of the U.S. Financial System in the 1980s	431
	Deregulation Legislation of 1980 and 1982 / Interstate Banking and Nonbank Banks / The Glass-Steagall Act	
	APPLICATION 1: Regulatory Reform Abroad—The Big Bang	432
	APPLICATION 2: The Fed's View of Regulatory Reform	436

<b>18</b>	<b>THE BUSINESS OF BANKING</b>	<b>442</b>
	On- and Off-Balance-Sheet Financing of Commercial Banks	443
	The Nature of Bank Balance Sheets / Off-Balance-Sheet Financing	
	Risk Management in Commercial Banking	451
	Managing Credit Risk / Managing Funding Risk	
	Profitability and Valuation of Financial Intermediaries	458
	Commercial Bank Profitability in the 1980s / The Case of Open- and Closed-End Funds / Valuing Commercial Banks	
	APPLICATION 1: The Importance of Off-Balance-Sheet Commitments	452
	APPLICATION 2: The Takeover Movement in Closed-End Funds	464
<b>19</b>	<b>MORTGAGE FINANCE</b>	<b>473</b>
	The Residential Mortgage Market in the 1970s and 1980s	474
	Intermediaries in the Mortgage Finance Industry / The Role of the Regulatory System for Savings and Loans / Problems with the Savings and Loans Regulatory System / The Era of Regulation Q / Secondary Market Agencies	
	Risk Management in Mortgage Finance	485
	Prepayment Risk / Default Risk	
	Evolution of the Secondary Mortgage Market	493
	Growth of the Pass-Through Security / Collateralized Mortgage Obligations: A Case of Innovation / Privatization of Secondary Market Agencies	
	APPLICATION 1: Recapitalizing the FSLIC	482
	APPLICATION 2: REMICS	496
<b>20</b>	<b>THE MONEY MARKETS</b>	<b>506</b>
	Overview of Money Market Instruments	507
	The Treasury Bill Market	370
	The Primary Treasury Bill Market—Pure Auction / The Secondary Market in Treasury Bills / Dealers in the Treasury Security Market	
	Money Market Mutual Funds	515
	Some Basic Facts / Development of Money Market Funds	
	The New Market for Swaps	520
	The Nature of Swaps / Using Swaps for Balance Sheet Restructuring / Using Swaps to Reduce the Cost of Debt / Swaps as Devices for Avoiding Regulation Costs	
	APPLICATION: Swaps Come in More Flavors than Just Plain Vanilla	526
<b>21</b>	<b>OPTIONS AND FUTURES MARKETS</b>	<b>530</b>
	The Growth of Markets for Futures and Options	531
	The Value of Futures and Options Exchanges / The Evolution of Markets for Financial Futures / The Evolution of the Options Markets	
	Futures Markets	536
	The Nature of Futures Contracts / Margin and Resettlement / The Open Outcry Auction Process / Stock Index Futures	

The Market for Exchange-Traded Options	545	
The Structure of Options Contracts / Option Trading		
APPLICATION: Triple Witching and Program Trading	540	
APPLICATION: Wall Street Takes a Bath on Over-the-Counter Options	544	
APPLICATION: Program Trading and Portfolio Hedging After the Crash of 1987	548	
<b>22 CONCLUSION</b>		<b>554</b>
What We Learned About the Value of Assets	555
