# Contents

<i>Preface</i>	1
<b>1 THE ENERGY BALANCE</b>	
Introduction	3
The UK energy balance	4
Plan of the book	7
Economic science and political economy	9
<b>2 THE DEMAND FOR ENERGY</b>	
Introduction	11
Energy in particular markets	12
Consumer choice models	14
Production models	19
Case studies of energy demand	24
Case studies of fuel use	29
Case study conclusions	37
<b>3 PRICING POLICY FOR EFFICIENT RESOURCE ALLOCATION</b>	
Modelling public enterprises in the economy	38
Marginal cost pricing	47
Second-best pricing in the public sector	50
Conclusion	70
<b>4 MARGINAL COSTS IN PRACTICE</b>	
Short-run versus long-run marginal cost	72
Marginal cost with fixed capacity equipment	76
Marginal cost with differing demands: peak loading	79
Two plant-two period peak loading	83
Peak load pricing with variable running cost	92
Peak loading with feasible storage	96
Discounting for time in marginal cost analysis	101
Price guidelines for the energy industries	103

<b>5</b>	<b>NUCLEAR VERSUS COAL-FIRED GENERATION OF ELECTRICITY</b>	
	Introduction	106
	Optimal plant mix in electricity generation	107
	The discount factor in NEC calculations	113
	The CEBG analysis of nuclear generated electricity	115
	Overall demand forecast	117
	The planning margin for supply failure	120
	Cost-benefit analysis of the security margin	124
	Cost assumptions in the nuclear case	131
	Broader issues in nuclear cost-benefit analysis	135
	Conclusions	136
<b>6</b>	<b>ELECTRICITY AND GAS PRICES IN PRACTICE</b>	
	Introduction	137
	Time of use (tou) studies	138
	The design of tou tariffs for electricity and gas supply	144
	UK electricity and gas tariffs	153
	Bulk supply tariff of the CEBG	154
	Retail tariffs of area electricity boards	159
	Gas prices	163
<b>7</b>	<b>NORTH SEA OIL AND THE UK ECONOMY</b>	
	Introduction	172
	Depletion economics	173
	North Sea oil	184
	Macroeconomic effects of North Sea oil	187
<b>8</b>	<b>ISSUES IN POLICY-MAKING</b>	
	Introduction	203
	Energy conservation	204
	Privatisation in energy supply	209
	Security of supply	220
	Sectoral guidance policy and the supply of coal	226
	References	235
	Name Index	243
	Subject Index	245
