	Regional Participation in ESPRIT	42
	Other EC Programmes	43
	European Regional Development Policy and RTD	44
	Conclusions	44

3.	INDUSTRIAL CHANGE, NEW TECHNOLOGIES AND EC REGIONAL POLICY (Paul Wäldchen)	49
	EC Policies for Research and Technology	50
	The EC and the Regional Impact of Industrial and Technological Change	51
	The Regional Dimension of Industrial Change	51
	The Regional Dimension of Technological Change	53
	What is the EC Regional Policy's Response to the Technological Challenge? How Does It Relate to Local Authorities' Initiatives?	53
	Development of Endogenous Potential	54
	Community Programmes	55
	Perspectives on Future Development	56
4.	SMEs, RESEARCH AND DEVELOPMENT AND TECHNOLOGY POLICIES AND THE EUROPEAN COMMUNITY: ISSUES IN IMPLEMENTATION (Peter Aitken)	59
	Development of EC Policy for SMEs	59
	References to SMEs in EC Policies	62
	Regional and Employment Policies	62
	European Regional Development Fund	62
	European Social Fund	64
	Industrial Policies	64
	Fiscal and Legal Policies	65
	Energy Policies	65
	Research and Development	66
	Technology and Innovation	67
	Educational and Vocational Training	69
	A Case Study of the Development of a New Technology Programme in Strathclyde Region	70
	Existing Infrastructure	71
	Proposed Programme	72
	Technology Agencies	72
	Business and Innovation Centres	73
	'Shop Windows'	73
	Competing Proposals	73
	The Strathclyde BIC	74
	Conclusions	75
5.	THE EUROPEAN BUSINESS AND INNOVATION CENTRE NETWORK (Jack Malan)	84
	The BIC Concept and EC Regional Development Policy	84
	The Implementation of EBN's First Objective: Establishing New Business and Innovation Centres	87
	The Implementation of EBN's Second Objective: Creating a Network of BICs Spanning the European Community	91
	Conclusions	92

6.	NEW TECHNOLOGY POLICIES AT THE REGIONAL LEVEL IN FRANCE: NORD-PAS-DE-CALAIS AND PROVENCE-ALPES-COTE D'AZUR COMPARED (Serge Dormard)	95
	The Regions and the Ninth Plan	96
	Economic Development and Research and Technology Policies	99
	Training	99
	The Establishment of Regional Technological Poles	99
	The Development of the Technopoles	100
	New Technologies and the Region Nord-Pas-de-Calais	101
	The Regional Plan 1984-1988	102
	The State-Region Planning Contract	103
	Action for the Comprehensive Development of Regional Research	103
	The Establishment of Poles of Research	104
	The 'Technopole' of Villeneuve d'Ascq	106
	The Case of the Advanced Manufacturing Pole	106
	The Experience of URBA 2000	108
	A Case Study of Provence-Alpes-Côte D'Azur	108
	The Regional Plan	109
	The Planning Contract and Technological Development	110
	The Regional Technopoles: From Sophia-Antipolis to Château-Gombert	111
	Conclusions	113
7.	CASE STUDIES OF LOCAL TECHNOLOGY AND INNOVATION POLICIES IN WEST GERMANY: SUCCESS AND FAILURE (Andreas Schlieper)	115
	Policy Instruments and Organisation	117
	Instruments	117
	Organisation	118
	The Case of Aachen	119
	The Case of Dortmund	120
	The Case of Duisburg	122
	Conclusions	122
8.	TOWARDS SILICONDALE? LESSONS FROM AMERICAN EXPERIENCE FOR THE PENNINE TOWNS AND CITIES (Tony Jowitt)	124
	Association with and Proximity to High-Quality Institutions of Higher Education	128
	An Association with Military Research and Development	130
	The Availability of Venture Capital	130
	A Pro-Business Climate Emanating from Both Central and Local Government	131

	A Pleasant Environment for Business Premises and Employee Housing	132
	An Area Close to Good Cultural, Recreational and Retailing Facilities	132
	A Good Communications Network	133
	The Availability of a Pool of Well-Educated and Skilled Personnel	133
	The Availability of a Pool of Cheap Labour	133
	The Existence of Advanced Manufacturing or Research Facilities in the Area	134
	Conclusions	135
9.	STIMULATING INNOVATION AND NEW TECHNOLOGY DEVELOPMENT AT THE LOCAL LEVEL: TWO CASE STUDIES (John Blackburn and David Kennedy)	140
	The Bradford Model	140
	The Calderdale Model	145
	Conclusions	149
10.	CONCLUSIONS (Kenneth Dyson)	152
