# TABLE OF CONTENTS

INTRODUCTION	9
1. BELIEFS AND DISPUTATIONS	
1. Everybody's a philosopher	13
2. How do you know perpetual motion is impossible?	19
3. How do you know you can't make energy out of nothing?	24
2. MODELS OF REALITY: PARTICLES	
1. The Atomic Model	37
2. The Particle Model	44
3. The Standard Model	52
3. MODELS OF REALITY: QUANTUM THEORY	
1. The Quantum Model	59
2. The Bell Theorem	71
3. Quantum theory and reality	81
4. INTERACTIONS	
1. Nothing happens without an interaction	87
2. Types of interactions	89
3. Rules for interactions	96
4. Verification of conservation laws	102
5. Are there new and unknown interactions?	113

5. LAWS OF PERMISSION AND LAWS OF DENIAL	
1. The Fundamental Laws of Physics	121
2. Laws of permission: Limitations	129
3. Laws of denial: Precision	137
6. REDUCTIONISM, PREDICTION, AND THE LAWS OF DENIAL	145
7. VERIFICATION AND FALSIFICATION	
1. Existence proofs	155
2. Falsification	164
3. Occam's Razor	172
8. LIVING SKEPTICALLY	
1. Proper skepticism	177
2. Answering questions	186
3. Fantasy and reality	195
4. Impossibilities	203
9. EPILOGUE	211
APPENDIX: WHY THINGS CAN'T GO FASTER THAN LIGHT	
1. The unique and constant speed of light	221
2. Simultaneity and the time dilation	225
3. The geometry of spacetime	230
4. Consequences of instantaneous communication	238
