# Operations Research Proceedings 1996

Selected Papers of the  
Symposium on Operations Research (SOR 96)  
Braunschweig, September 3–6, 1996

With 106 Figures

Springer

# Contents

## Plenary Lecture

<i>Tumm, G.W.:</i> Brief 2000: das 4-Mrd.-Programm der Deutschen Post . . . . .	1
---	---

## Section 1: Linear Programming

<i>Hollatz, H.:</i> Eine Alternativ-Methode für die numerische Lösung linearer Optimierungsaufgaben . . . . .	5
<i>Kochetov, Y., Pljasunov, A.:</i> Efficient Algorithm for a Class of Bilevel Linear Programming Problems . . . . .	10
<i>Nickel, S., Wiecek, M.M.:</i> A Flexible Approach to Piecewise Linear Multiple Objective Programming . . . . .	14

## Section 2: Nonlinear Programming

<i>Astorino, A., Fuduli, A., Gaudioso, M.:</i> Analysis of Regularization Techniques in Convex Nondifferentiable Optimization . . . . .	20
<i>Kiwiel, K.C.:</i> A Bregman-Projected Subgradient Method for Convex Constrained Nondifferentiable Minimization . . . . .	26
<i>Lopuch, B., Kiwiel, K.C.:</i> Long-Step Surrogate Subgradient Methods for Convex Feasibility Problems . . . . .	31
<i>Outrata, J.V., Kočvara, M.:</i> On Exterior Penalties in Equilibrium Problems . . . . .	37
<i>Tanyi, B.A., Darlington, J., Pantelides, C.C., Rustem, B.:</i> Robust Optimisation of Nonlinear Systems under Parametric Uncertainty . . . . .	43

## Section 3: Combinatorial and Discrete Optimization

<i>Bruns, A., Klose, A.:</i> A "Locate First – Route Second" Heuristic for a Combined Location-Routeing Problem . . . . .	49
<i>Diubin, G., Korbut, A.:</i> On the Average Behaviour of Primal and Dual Greedy Algorithms for the Knapsack Problem . . . . .	55
<i>Faigle, U., Kern, W.:</i> Packing a Bin Online to Maximize the Total Number of Items . . . . .	61
<i>Fink, A.:</i> Algorithmische Methoden zur Kartierung von DNA-Sequenzen . . . . .	66
<i>Gimadi, E.Kh.:</i> Exact Algorithms for Some Multi-Level Location Problems on a Chain and a Tree . . . . .	72
<i>Holmberg, K., Yuan, D.:</i> A Lagrangean Heuristic Based Branch-and-Bound Method for the Capacitated Network Design Problem . . . . .	78
<i>Kämmerer, L., Hempel, L.:</i> The Towers of Hanoi and Pileproblems . . . . .	84
<i>Kochetov, Y. Alexandrov, D.:</i> Simple Plant Location Problem with Partial External Finance: Lower Bound, Heuristic and Exact Solution . . . . .	90
<i>Lee, E.K., Mitchell, J.:</i> Computational Experience in Nonlinear Mixed Integer Programming . . . . .	95
<i>Liebling, T.M.:</i> Dynamical Voronoi Partitions of Piecewise Flat Manifolds and Modeling Applications . . . . .	101

<i>Recski, A.</i> : Some Polynomially Solvable Subcases of the Detailed Routing Problem in VLSI Design . . . . .	107
<i>Rethmann, J., Wanke, E.</i> : Storage Controlled Pile-Up Systems, Theoretical Foundations . . . . .	111
<i>Rosenow, S.</i> : A Heuristic for the Probabilistic Traveling Salesman Problem . . . . .	117
<i>Scheithauer, G.</i> : LP-Bounds for the Container and Multi-Container Loading Problem . . .	123
<i>Sheperts, J.</i> : An Exact Algorithm for General Orthogonal n-dimensional Knapsack Problems . . . . .	129
<i>Tarnowski, A.G.</i> : On Some Polynomial Solvable Cases of Cutting Stock, Pallet Loading and Scheduling Problems . . . . .	134

#### Section 4: Graph Algorithms and Complexity

<i>Bazlamaççı, C.F., Hindi, K.S.</i> : Verifying Minimum Spanning Trees in Linear Time . . . . .	139
<i>Haugland, D., Heber, J.G., Husøy, J.H.</i> : Compressing Data by Shortest Path Methods . . .	145
<i>Kisielewicz, A.</i> : Easy Planarity Testing for Ordered Sets . . . . .	151

#### Section 5: Stochastic Models and Optimization

<i>Beier, G.</i> : Optimal Personnel Configuration of Branch Office Banking through Applied Queueing Network Theory . . . . .	157
<i>van Dijk, N.M., Sladký, K.</i> : On Uniformization for Reducible Nonnegative Dynamic Systems . . . . .	163
<i>Lange, T., Wasiljew, W., Schlorf, S.</i> : Ein cluster-analytischer Ansatz zur Modellierung nichtlinearer Systeme . . . . .	169
<i>Nolte, A., Schrader, R.</i> : A Note on the Finite Time Behaviour of Simulated Annealing . . . . .	175
<i>Zisgen, H.</i> : Approximative Analysis of Series Queues . . . . .	181

#### Section 6: Scheduling

<i>Dell'Olmo, P., Giordani, S., Speranza, M.G.</i> : Graph Models for a Duo-Processor Task Scheduling Problem . . . . .	186
<i>Grabowski, J., Pempera, J., Smutnicki, C.</i> : Scheduling in Production of Concrete Wares . . . . .	192
<i>Herroelen, W., Demeulemeester, E., de Reyck, B.</i> : Resource-Constrained Project Scheduling - A Survey of Recent Developments . . . . .	197
<i>Janiak, A.</i> : Computational Complexity Analysis of Single Machine Scheduling Problems with Job Release Dates Dependent on Resources . . . . .	203
<i>Kononov, A.</i> : Scheduling Problems with Linear Increasing Processing Times . . . . .	208
<i>Smutnicki, C.</i> : Approximation Algorithms . . . . .	213
<i>Würtz, J.</i> : Constraint-Based Scheduling in Oz . . . . .	218

#### Section 7: Production

<i>Amen, M.</i> : Ein exaktes Verfahren zur kostenorientierten Fließbandabstimmung . . . . .	224
--	-----

<i>Brecht, W.</i> : Kombinierte Mengen- und Preisoptimierung für einen Produktionsbetrieb . . . . .	230
<i>Feltenmark, S., Kiwiel, K.C., Lindberg, P.-O.</i> : Solving Unit Commitment Problems in Power Production Planning . . . . .	236
<i>Kuhn, H., Tetzlaff, U.A.W.</i> : Performance Evaluation of Repair Systems with Priorities . . . . .	242
<i>Rausch, P.</i> : CLAZZI – Ein PC-Programm zur Unterstützung von dezentralen und objektorientierten PPS-Systemen . . . . .	248
<i>Recker, A.</i> : Die Incremental Order Quantity – Eine kritische Analyse . . . . .	254
<i>Reuter, B.</i> : Koordination vernetzter Produktionsprozesse . . . . .	260
<i>Spengler, Th., Rentz, O.</i> : Planung von Lebenszykluskosten industrieller Produkte mit Hilfe der Fuzzy linearen Optimierung . . . . .	265
<i>Tüshaus, U., Wahl, C.</i> : Holding Costs Minimization with Service Level Constraints in an Arborescent Distribution Network . . . . .	271
<i>Winkler, B.M.</i> : Planning the Extraction and Preparation of Mineral Resources . . . . .	277

## Section 8: Transportation

<i>Bianco, L., Confessore, G., Reverberi, P.</i> : A Combinatorial Optimization Approach to Locate Traffic Counting Points in a Transport Network . . . . .	283
<i>Bianco, L., Dell’Olmo, P., Giordani, S.</i> : Models and Algorithms for Real-Time Control of Aircraft Landings . . . . .	289
<i>Daduna, J.R., Koch, R., Maciejewski, P.</i> : Entwicklung eines logistischen Dienstleistungskonzepts für die Belieferung von Reisebüros mit Veranstalterkatalogen . . . . .	295
<i>Hamacher, A., Moll, C.</i> : A New Heuristic for Vehicle Routing with Narrow Time Windows . . . . .	301
<i>Mellouli, T.</i> : Improving Vehicle Scheduling Support by Efficient Algorithms . . . . .	307

## Section 9: Macroeconomics, Economic Theory, Games

<i>Campisi, D., Nastasi, A., Reverberi, P.</i> : Multidimensional Signalling and Entry Decision Strategies . . . . .	313
<i>Ehrgott, M., Nickel, S.</i> : Reducing the Number of Criteria in Quasi-convex Multicriteria Optimization . . . . .	319
<i>Herings, P. J.-J.</i> : Closed Form Solutions for a Game of Macroeconomic Policy in a Two-Party-System . . . . .	325

## Section 10: Statistics and Econometrics

<i>Kaiser, T.</i> : Factor-GARCH Models for German Stocks – A Model Comparison . . . . .	331
<i>Magiera, R.</i> : Minimax Sequential Procedures for Markov Renewal Processes . . . . .	337
<i>Rózański, R.</i> : Bayes Empirical Estimation by the Method of Sieves with Some Applications . . . . .	343

**Section 11: Marketing and Data Analysis**

<i>Baier, D., Säuberlich, F.</i> : Part-worth Estimation Using Individual Hybrid Conjoint Analysis . . . . .	347
<i>Löffler, M., Gaul, W.</i> : Multiperiod Price Optimization in Oligopolies Considering Reference Price Effects . . . . .	353

**Section 12: Information and Decision Support Systems**

<i>Antes, J., Derigs, U., Zils, M.</i> : Flugroutenplanung im Cargo Sektor . . . . .	359
<i>Schlenzig, C., Kühner, R.</i> : MESAP-III: An Information and Decision Support System for Energy Planning and Environmental Management . . . . .	363
<i>Schweiker, A.</i> : Hierarchical Graphs for Model Building in Energy and Environmental Planning . . . . .	369
<i>Suhl, L., Mellouli, T.</i> : Supporting Planning and Operation Time Control in Transportation Systems . . . . .	374

**Section 13: Banking, Finance, Insurance**

<i>Sapusek, A.</i> : Analyzing the Long-Run Performance of Initial Public Offerings: An Empirical Investigation for Germany . . . . .	380
<i>Studer, G., Lüthi, H.-J.</i> : Maximum Loss for Risk Measurement of Portfolios . . . . .	386

**Section 14: Environment, Energy, Health**

<i>Burkard, R.E., Pferschy, U., Rudolf, R.</i> : Waste Treatment in a Metal-Processing Plant . . . . .	392
<i>Goisis, G., Parravicini, P.</i> : Restraining Public Health Expenditure . . . . .	398
<i>Letmathe, P.</i> : Die kostentheoretische Bewertung von betrieblichen Umweltwirkungen . . . . .	403
<i>Lüth, O.A., Ardone, A., Wietschel, M., Rentz, O.</i> : Entwicklung und Anwendung eines gemischt-ganzzahligen Energie-Emissions-Modells . . . . .	409
<i>Spengler, T., Geldermann, J., Rentz, O.</i> : Ganzheitliche Bewertung von Produktionsprozessen durch multikriterielle Entscheidungsunterstützung . . . . .	415
<i>Tratnik, M., Oblak, L.</i> : Ökonomisch-ökologisches Spannungsfeld, Problem der Abwässer in der Holzindustrie und und Lösungsmöglichkeiten durch die Methode der Zieloptimierung (Goal Programming) . . . . .	421
<i>Wirl, F.</i> : On the Economic Efficiency of Energy Conservation Programs . . . . .	427

**Section 15: Neural Networks and Fuzzy Systems**

<i>Freisleben, B., Ripper, K.</i> : Ein neuronales Netz zur nichtlinearen Volatilitätsschätzung . . . . .	433
<i>Mißler-Behr, M.</i> : Applying Fuzzy Clustering for a Better Representation of the Total Scenario Scene . . . . .	439
<i>Ramík, J., Hanělová, J.</i> : Optimization Models of Production of a Coal-mining Company . . . . .	445

<i>Völkner, P.</i> : Fuzzy Logic in Standard-Simulationssystemen . . . . .	451
--	-----

### Section 16: Control Theory

<i>Beklaryan, L.</i> : About "Obstacles" in the Problem of Optimal Control for System with Deviating Argument . . . . .	457
<i>Breitner, M.H.</i> : Numerical Solution of Optimal Control Problems in Macroeconomics and Microeconomics: Are Direct or Indirect Methods More Favorable? . . . . .	462
<i>Lepp, R.</i> : Discrete Approximation of Nonlinear Controls . . . . .	468
<i>Neck, R., Karbuz, S.</i> : Optimal Fiscal Policies for Austria . . . . .	474
<i>Tolstykh, V.K., Volodin, N.A.</i> : Optimal Control by Heat Flow in Continuous Casting Steel . . . . .	480

### Section 17: Simulation

<i>Beyer, J., Gmilkowsky, P.</i> : Simulation und Fuzzy-Ansätze in der Fertigungssteuerung . . . . .	484
<i>Böhnlein, C.-B.</i> : Simulationsanalyse einer automatischen Leiterkartenbestückung zur Minimierung von Rüstzeiten und Maximierung des Durchsatzes . . . . .	490
<i>Fritsche, B.</i> : Zeitdynamische Simulation zur Produktionsplanung – Erfahrungsberichte aus der industriellen Anwendung. Simulationssysteme schaffen eine neue Planungsqualität in der Produktionssteuerung . . . . .	496

### Section 18: Practical OR (Application Reports)

<i>Klose, A., Stähly, P.</i> : Sensitivity Analysis in Facility Location Applied to a Depot Location Problem of a Food Producer . . . . .	502
<i>Tüshaus, U., Wittmann, S.</i> : Locating Depots for a Food Producer by Solving Uncapacitated Facility Location Problems . . . . .	508
<i>Weick, M.</i> : Rendite und Marge – vom richtigen Umgang mit mangelhaften Konzepten . . . . .	514
