PREAMBLE		
	Introduction *Baldev Raj*	1
PART ONE:	UNIT ROOT AND FRACTIONAL INTEGRATION	
Chapter 1.	Testing for a Unit Root in the Presence of a Maintained Trend *Sam Ouliaris, Joon Y. Park and Peter C. B. Phillips*	7
Chapter 2.	Random Walks Versus Fractional Integration: Power Comparisons of Scalar and Joint Tests of the Variance-Time Function *Francis X. Diebold*	29
Chapter 3.	Testing for a Random Walk: A Simulation Experiment of Power When the Sampling Interval is Varied *Pierre Perron*	47
PART TWO:	NONPARAMETRIC ECONOMETRICS	
Chapter 4.	Estimation of a Probability Density Function with Applications to Nonparametric Inference in Econometrics *Aman Ullah and Radhey S. Singh*	69
Chapter 5.	Estimation of the Shape of the Demand Curve by Nonparametric Kernel Methods *John McMillan, Aman Ullah and H. D. Vinod*	85
PART THREE:	MODELLING DEMAND SYSTEMS	
Chapter 6.	A Class of Dynamic Demand Systems *Guoqiang Tian and John S. Chipman*	93
Chapter 7.	A Reinterpretation of the Almost Ideal Demand System *Christopher J. Nicol*	117
Chapter 8.	Stochastic Specification and Maximum-Likelihood Estimation of the Linear Expenditure System *John S. Chipman and Guoqiang Tian*	131

PART FOUR: MODELLING ISSUES

Chapter 9. Selection Bias: More than a Female Phenomenon
Alice Nakamura and Masao Nakamura 143

Chapter 10. A Comparison of Two Significance Tests for Structural Stability in the Linear Regression Model
Walter Krämer, W. Ploberger and K. Kontrus 159

Chapter 11. Rates of Return on Physical and R&D Capital and Structure of the Production Process: Cross Section and Time Series Evidence
Jeffrey I. Bernstein and M. Ishaq Nadiri 169

Index 189
