<i>Abbreviations, acronyms and conventions</i>	xvii

Part I. Introduction

1. Arms industry limited: the turning-point in the 1990s	3
<i>Herbert Wulf</i>	
I. The changed environment	3
II. Diverse regional developments	6
III. Employment in the arms industry	12
IV. Effects on companies	18
V. Conclusions	26
Table 1.1. Global arms industry employment, early 1980s to 1992	14
Table 1.2. Employment losses and gains in the largest arms-producing companies, 1988–91	16
Table 1.3. Changes in profits of the largest arms-producing companies, 1988–91	19
Table 1.4. Changes in arms sales 1988–91, by arms industry sector	23
Figure 1.1. Development of military expenditures, 1981–91	4
Figure 1.2. Global exports of major conventional weapons, 1982–91	6
Figure 1.3. Prognosis for global employment in the arms industry, 1980–98	17

Part II. The United States

2. The United States: trends in defence procurement and research and development programmes	29
<i>Gordon Adams and Steven M. Kosiak</i>	
I. Introduction	29
II. The history of acquisition funding	31
III. Modernization in the 1980s	32
IV. Acquisition in the 1990s	34
V. Future defence funding prospects and potential problems	38
Figure 2.1. US national defence expenditure as a share of the gross national product, FY 1960–97	30
Figure 2.2. Total US national defence, procurement, and research, development, testing and evaluation budgets, FY 1947–97	35

3. The United States: unmanaged change in the defence industry	50
<i>Judith Reppy</i>	
I. Introduction	50
II. The historical context	51
III. Defence industry employment	52
IV. The current arms market structure	54
V. Government policy responses	62
VI. Conclusions	65
Table 3.1. Defence dependence of the 10 leading US defence prime contractors, FY 1991	56
Figure 3.1. US military-related employment, FY 1950–93	53
4. The United States: arms exports and implications for arms production	66
<i>Ian Anthony</i>	
I. Introduction	66
II. Measuring the US share of the global arms trade	67
III. The economic dimension of US arms sales	72
IV. Export dependence in the US arms industry	74
V. The impact of domestic arms procurement on arms exports	76
VI. Political aspects of US arms transfer policy	80
Table 4.1. Value of US Foreign Military Sales agreements and deliveries, 1982–91	68
Table 4.2. Regional distribution of US Foreign Military Sales agreements, 1982–91	71
Table 4.3. Dependence of selected US arms-producing companies on foreign sales and arms sales, 1990	75
Table 4.4. US export sales and total production for selected systems	77
Table 4.5. New agreements for sales of fighter aircraft, 1988–92	78
Table 4.6. New agreements for transfers of corvettes, frigates and destroyers, 1988–92	80
Part III. The former Soviet Union and the successor republics	
5. The Soviet Union and the successor republics: defence industries coming to terms with disunion	87
<i>Julian Cooper</i>	
I. The historical background	87
II. The Russian Federation	90
III. Ukraine	98
IV. Belarus	102
V. Moldova	103
VI. Kazakhstan	104
VII. Georgia	105
VIII. Armenia	106
IX. Azerbaijan	106

X. Uzbekistan	106
XI. Kyrgyzstan	107
XII. Tajikistan	107
XIII. Turkmenistan	107
XIV. The Baltic republics	108
Table 5.1. Economic indicators of the arms industry in the former Soviet Union, 1991	88
6. The Soviet Union: arms control and conversion—plan and reality	109
<i>Alexei Izyumov</i>	
I. Introduction	109
II. The Gorbachev plan for conversion and its results	109
III. Political struggle over the direction of conversion	113
IV. Conversion dilemmas after the breakup of the Soviet Union	115
V. Future issues	119
7. The Soviet Union and the successor republics: arms exports and the struggle with the heritage of the military-industrial complex	121
<i>Herbert Wulf</i>	
I. Introduction	121
II. The historical context: a short history of Soviet arms trade	121
III. Arms exports in recent years	124
IV. What next: restraint or expansion?	132
Table 7.1. Average annual number of recipients of major conventional weapons supplied to the Third World by the four largest suppliers, 1971–85	124
Table 7.2. Soviet exports of major conventional weapons, 1987–91	126

Appendix 7A. Soviet arms exports, 1980–91	137
<i>Prepared by Herbert Wulf</i>	
Table 7A.1. Exports of major conventional weapon systems by the former Soviet Union, 1980–91	137

Part IV. Europe

8. Western Europe: facing over-capacities	143
<i>Herbert Wulf</i>	
I. Introduction	143
II. Country characteristics	144
III. Producers and industrial sectors	148
IV. Perspectives	158
Table 8.1. The major West European arms-producing companies, 1991	148
Table 8.2. Share of industrial sectors in military procurement expenditures, 1986–90	150
Table 8.3. Share of military production in total production, 1986–90	151
Table 8.4. The major West European arms producers in aerospace, 1991	152
Table 8.5. The major West European arms producers in electronics, 1991	154
Table 8.6. The major West European arms producers in shipbuilding, 1991	155
Table 8.7. The major West European arms producers in military vehicles, 1991	156
Table 8.8. The major West European arms producers in artillery, small arms and munitions, 1991	157
9. Western Europe: internationalization of the arms industry	160
<i>Elisabeth Sköns</i>	
I. Introduction	160
II. Forms of internationalization	161
III. General trends in the internationalization of industrial activities	165
IV. Internationalization by arms industry sector	167
Table 9.1. Forms of internationalization of industrial activities in the OECD area	162
Table 9.2. Trends in inter-firm agreements on technology transfers in the OECD industry, by form of co-operation, pre-1972 to 1988	166

Table 9.14.	Forms of internationalization in the arms industry	190
10. The European Community: from the EC to the European Union		191
	<i>Agnès Courades Allebeck</i>	
	I. Introduction	191
	II. EC competition policy	194
	III. Towards an industrial policy for the armament sector: the obstacles ahead	202
	IV. The internal market and its implications for EC internal trade in defence-related goods	206
	V. The future EC arms transfer regime	210
Appendix 10A. Excerpts from treaties relating to security policy, arms production and arms exports of the European Community		214
	<i>Prepared by Agnès Courades Allebeck</i>	
	I. Treaty Establishing the European Economic Community, Treaty of Rome	214
	II. Single European Act	216
	III. Treaty on European Union, Treaty of Maastricht	216
	IV. Declaration by the European Council on areas which could be the subject of joint action	221
11. Poland: declining industry in a period of difficult economic transformation		222
	<i>Maciej Perczynski and Pawel Wieczorek</i>	
	I. The historical background	222
	II. The military budget	223
	III. Arms production, the economic condition and the status of military industry	226
	IV. Organizational and systemic foundations of the arms industry	228
	V. Arms exports	233
	VI. Conversion	236

Part V. Other countries

14. The People's Republic of China: arms production, industrial strategy and problems of history 271

John Frankenstein

	I. Problems of history	271
	II. The evolution of the military-industrial system	279
	III. Arms production	283
	IV. The technology acquisition process	286
	V. Reforms	292
	VI. Conversion of the arms industry: 'swords into plowshares'?	295
Table 14.1.	China's military-industrial commercial complex in the 1990s	276
