## **PART I THE MEASUREMENT AND EXPLANATION OF UNEMPLOYMENT AND INFLATION**

<b>1 The Greater Evil: Unemployment or Inflation?</b>	<b>3</b>
1.1 Two questions about the costs of unemployment and inflation	
1.2 The German hyperinflation	
1.3 Mass unemployment in the 1930s	
1.4 From postwar orthodoxy to conservative revolution	
1.5 Two arguments for disinflation	
<b>2 Defining and Measuring Inflation</b>	<b>10</b>
2.1 Defining inflation	
2.2 Measuring inflation	
2.3 Conclusion	
<b>3 Explaining Inflation</b>	<b>15</b>
3.1 Introduction	
3.2 Monetarism	
3.3 Demand pull inflation	
3.4 Cost push inflation	
3.5 The conflict theory of inflation	
3.6 A reinterpretation of the inflationary process	
3.7 Conclusion	
<b>4 Defining and Measuring Unemployment</b>	<b>32</b>
4.1 Defining unemployment	
4.2 Measuring unemployment by a claimant count	
4.3 Measuring unemployment by a labour force survey	
4.4 Unemployment and capacity utilization	
4.5 Conclusion	

<b>5</b>	<b>Explaining Unemployment</b>	<b>39</b>
5.1	The central question of unemployment theory	
5.2	Labour market explanations of unemployment	
5.3	Aggregate demand deficient unemployment	
5.4	The natural rate of unemployment	
5.5	Unemployment in the UK and the US	
5.6	Conclusion	

## **PART II THE COSTS OF UNEMPLOYMENT AND THE COSTS OF INFLATION**

<b>6</b>	<b>The Costs of Unemployment versus the Costs of Inflation</b>	<b>51</b>
6.1	The public debate on the costs of unemployment	
6.2	A framework for investigating the costs of unemployment	
6.3	Anticipated and unanticipated inflation	
6.4	Does inflation rob the rich to pay the poor?	
6.5	In search of the output costs of inflation	
6.6	Does inflation <i>cause</i> unemployment?	
6.7	Conclusion	
<b>7</b>	<b>The Output Costs of Unemployment</b>	<b>60</b>
7.1	The size of the problem	
7.2	Voluntary and involuntary unemployment	
7.3	Costless and cost-incurring unemployment	
7.4	Costless unemployment in empirical estimates of output loss	
7.5	Methods of measuring the output loss of cost-incurring unemployment	
7.6	Empirical estimates of the output costs of unemployment	
7.7	Conclusion	
<b>8</b>	<b>The Redistributive Effects of Unemployment</b>	<b>75</b>
8.1	Why losing output matters	
8.2	The financial impact of unemployment on the unemployed	
8.3	The fiscal cost of unemployment	
8.4	Conclusion: the material burden of output loss	

<b>9</b>	<b>The Human Costs of Unemployment</b>	<b>87</b>
9.1	The significance of the human costs of unemployment	
9.2	The psychological impact of unemployment	
9.3	The effect of unemployment on physical health	
9.4	The external costs of unemployment	
9.5	Conclusion	
<b>10</b>	<b>The Redistributive Effects of Moderate Unanticipated Inflation</b>	<b>98</b>
10.1	The mainstream debate on the redistributive effects of inflation	
10.2	The redistribution of income during inflation	
10.3	The redistribution of wealth during inflation	
10.4	The government	
10.5	Conclusion	
<b>11</b>	<b>The Output Costs of Moderate Inflation</b>	<b>115</b>
11.1	The goal of price stability	
11.2	The monetary or shoe leather costs of inflation	
11.3	The non-monetary or menu costs of inflation	
11.4	International competitiveness	
11.5	Price signals and inflationary noise	
11.6	Conclusion	
 <b>PART III THE RELATIONSHIP BETWEEN UNEMPLOYMENT AND INFLATION</b>		
<b>12</b>	<b>The Natural Rate of Unemployment</b>	<b>137</b>
12.1	Inflation and unemployment	
12.2	Friedman's exposition of the natural rate of unemployment	
12.3	The political business cycle in the 1960s	
12.4	The stagflationary 1970s	
12.5	Does inflation cause unemployment?	
12.6	Inflation, unemployment and inflationary expectations	
12.7	Conclusion	

13	Conviction and Consensus Approaches to Macroeconomic Policy Making	150
13.1	Two interpretations of the natural rate of unemployment	
13.2	Equilibrium unemployment	
13.3	NAIRU	
13.4	Equilibrium unemployment versus NAIRU	
13.5	Hysteresis	
13.6	Conclusion	
14	Conviction, Rational Expectations and Painless Disinflation	163
14.1	The inflation–unemployment adjustment path	
14.2	Painless disinflation: the theory	
14.3	Painless disinflation? The facts	
14.4	Rational expectations: the ‘as if’ defence	
14.5	Rational expectations, aggregate behaviour and ideology	
14.6	Conclusion	
15	Consensus	176
15.1	Introduction	
15.2	From the market to the power struggle	
15.3	Corporatism and macroeconomic performance	
15.4	Corporatism and sacrifice ratios	
15.5	Conclusion	
16	Deflating the Dogma of Conservative Economics	188
16.1	Introduction	
16.2	The optimal combination of unemployment and inflation	
16.3	The Phillips curve and the sacrifice ratio	
16.4	The slope of the social welfare function	
16.5	Conclusion
