

Evolutionary Catastrophes

The Science of Mass Extinction

VINCENT CCOURTILLOT

Translated by Joe McClinton

CAMBRIDGE
UNIVERSITY PRESS

1999

Contents

<i>Preface</i>	vii
<i>Preface to the English edition</i>	xii
<i>Foreword by Professor Claude J. Allègre</i>	xiii
I	
Mass extinctions	I
2	
An asteroid impact	23
3	
From the roof of the world to the Deccan Traps	45
4	
The volcanic scenario	57
5	
Plumes and hot spots	73
6	
A remarkable correlation	88
7	
Nemesis or Shiva?	101
8	
Chicxulub	119
9	
Controversy and coincidence	135
10	
Improbable catastrophes and the flukes of evolution	144
<i>Glossary</i>	157
<i>Index of authors</i>	167
<i>Subject index</i>	169
