<i>Preface to the fourth edition</i>	<i>xi</i>
1 Catching methods in fisheries: an introduction	1
1.1 Fisherman and hunter	2
1.2 From subsistence fishing to commercial fisheries	3
1.3 Sport fishing and commercial fisheries	4
1.4 Active and passive fishing gear	5
1.5 Basic ideas for fishing methods: their distribution and possible improvement	5
1.6 Division of labour and collective fishing	7
1.7 Manpower, mechanization and automation	9
1.8 Fishing technology	10
2 Fishing by gathering	12
2.1 Hand-picking	12
2.2 Stranded prey	16
2.3 Catching by bailing out	17
2.4 Implements for 'gathering' in fisheries	17
2.5 Fishing with the feet	18
2.6 Mechanization of gathering	19
3 Male and female divers	21
3.1 Divers catching fish and supporting fishing operations	21
3.2 Diving equipment	22
3.3 Female divers	25
3.4 Tools and collecting bags	26
3.5 Technological progress in diving	28
4 Animals as a help in fisheries	31
4.1 Horses and fishermen	31
4.2 Dogs used in fisheries	32
4.3 Fishing with otters	33
4.4 Fishing with birds	33
4.5 Cormorant fishing	34
4.6 Driving fish with diving birds	36

4.7 Sucker fish for catching turtles	39
4.8 Fishing with octopus	39
4.9 Using the friendly porpoise	40
5 Fish harvesting after stupefying	42
5.1 Simple forms of mechanical stupefying	42
5.2 Stupefying with dynamite	43
5.3 Fish poisoning	44
5.4 Fishing with industrial chemicals	47
5.5 Deoxygenation or suffocation	48
5.6 Electrical fishing	48
5.7 Electrified gear in sea fisheries	51
6 Spearing, harpooning and shooting fish	53
6.1 Spearing with pushed gear	53
6.2 Fish plummets	58
6.3 Eel combs	58
6.4 Fishing with thrown spears	60
6.5 Fishing with bow and arrow	60
6.6 Harpooning	62
6.7 Whaling	65
6.8 Harpooning swordfish	68
6.9 Fishing with blowguns	70
6.10 Shooting fish	72
7 Fishing with clamps, tongs, rakes and wrenching gear	76
7.1 Clamps	76
7.2 Tongs	77
7.3 Rakes	80
7.4 Wrenching gear for harvesting seaweed	80
7.5 Further developments	81
8 Line fishing: basic implements	83
8.1 Bobbing	83
8.2 Gorges	86
8.3 Forerunners of modern hooks	88
8.4 Modern fishing hooks	89
8.5 Lines and casts	94
8.6 Swivels, stops, rotating links and snaps	96
8.7 Otter boards	97
8.8 The kite	100
8.9 Stabilizers	102
9 Line fishing: gear and methods	105
9.1 Handlines	105
9.2 Pole-and-line fishing	108
9.3 Set lines	112

9.4 Bottom longlines	114
9.5 Driftlines	118
9.6 Troll lines	121
9.7 Fishing with roundhaulers	126
9.8 Modern progress in line fishing	127
10 Fishing for sport and recreation	136
10.1 Rods and reels	137
10.2 Float fishing	141
10.3 Ground fishing and ledgering	141
10.4 Spin fishing and jigging	143
10.5 Fly fishing	146
10.6 Sport trolling and big game fishing	147
11 Attracting, concentrating and frightening fish	150
11.1 Optical lures	151
11.2 Light fishing	151
11.3 Chemical lures	153
11.4 Sexual lures	154
11.5 Acoustic bait	155
11.6 Lure lines and aggregating devices	157
11.7 Fish frightening methods	160
11.8 New ideas	161
12 Pole-hooks and rippers	164
12.1 Pole-hooks and gaffs	164
12.2 Fish harrows	166
12.3 Pilking with handlines	167
12.4 Rippers on stationary lines and troll lines	169
12.5 Rippers for cephalopods	173
12.6 Mechanization of jigging	175
13 Net material and the art of net-making	181
13.1 Stone walls, fences and netting	182
13.2 Primitive knotless netting	184
13.3 Knotted netting	185
13.4 Modern knotless netting	187
14 Natural and artificial shelters	190
14.1 Bundles of brushwood	190
14.2 Tubes for shelter	192
14.3 Octopus pots	195
14.4 Artificial reefs	197
15 Permanent and temporary barriers	199
15.1 Stone walls as tidal weirs and traps	200
15.2 Fish fences	202

15.3	Gratings in flowing waters	204
15.4	Watched catching chambers	207
15.5	From barrier to fish trap	213
16	Trapping	215
16.1	Tubular traps and thorn-lined traps	215
16.2	Non-return devices	218
16.3	Trapping barriers made of fences	220
16.4	Wooden pots	221
16.5	Pots made of wire	227
16.6	Traps made of netting	229
16.7	Plastic pots	236
16.8	Ghost traps	237
16.9	Trap systems, weirs and pound nets	240
16.10	Mechanization in trapping	246
17	Fishing in the air	252
17.1	Salmon traps	253
17.2	Fishing with rafts	254
17.3	Boat traps	254
17.4	Veranda nets	257
17.5	Scoop nets for jumping fish	259
17.6	Angling in the air	261
17.7	Pitfall traps for fishes	262
18	Mechanical fishing gear: traps, lines and snares	264
18.1	Gravity traps	265
18.2	Box traps	266
18.3	Whippy bough or spring traps	268
18.4	Torsion traps	271
18.5	Snares	271
19	Gillnetting	275
19.1	Bottom-set gillnets and anchored floating gillnets	278
19.2	Driftnets in sea fisheries and in fresh waters	279
19.3	Dragged gillnets	281
19.4	Advantages and disadvantages of gillnets	282
19.5	Mechanization in gillnetting	283
20	Entangling nets	291
20.1	'Mopping'	292
20.2	Single-walled tangle nets	293
20.3	Tangle nets with snoods or frames	296
20.4	Trammelnets	297
20.5	Double-walled entangling nets	299
20.6	Combined entangling and gilling nets	302
20.7	Future trends and mechanization	303

21 The drive-in fishery	305
21.1 Scare lines	306
21.2 Genuine drive-in nets	307
21.3 Encircling gillnets	310
21.4 Other gear for drive-in fishery	311
22 Cover pots and cast nets	314
22.1 Cover pots	314
22.2 Lantern nets	317
22.3 Cover nets	318
22.4 Hand cast nets	320
22.5 Boat cast nets	324
22.6 Polynesian rectangular nets	326
23 Liftnets and fish wheels	329
23.1 Portable hand liftnets	331
23.2 Stationary liftnets	333
23.3 Blanket nets	336
23.4 Modern boat liftnets	341
23.5 Fish wheels	346
24 From the scoop basket to the stow net	350
24.1 Scoop baskets	350
24.2 Scoop nets and skimming nets	352
24.3 Brail nets with purse lines	359
24.4 Push nets and dragged scoop nets	359
24.5 Scrape nets	362
24.6 Stationary stow nets in rivers	364
24.7 Stow nets with vessels	367
24.8 Stow nets in sea fisheries	369
24.9 Gape nets with wings	369
24.10 Closable stow nets	372
25 Dredges and beamtrawls	376
25.1 Hand-operated scratchers	376
25.2 Boat dredges	377
25.3 Beamtrawling	382
25.4 Electrified beamtrawls	389
26 Fishing with bottom trawls	392
26.1 Trawling with outriggers	392
26.2 Pair trawling	393
26.3 Otter boards for bottom trawling	394
26.4 Increasing the vertical trawl opening	398
26.5 Bottom trawls for sea fisheries	399
26.6 Shrimp trawling	408
26.7 Inland water bottom trawls	410

27 Trawl fisheries in three dimensions: Fishing with mid-water trawls	414
27.1 Predecessors of mid-water trawls and semi-pelagic trawls	414
27.2 Aimed trawling	418
27.3 Two-boat and one-boat mid-water trawling	419
27.4 Mid-water trawls in fresh water	424
27.5 Problems of mid-water trawling	426
27.6 Progress of trawling in the future?	428
28 Seining in fresh and sea water	431
28.1 Simple seining gear and 'baby' seine nets	434
28.2 Seine nets in freshwater fisheries	434
28.3 Seining below ice	437
28.4 Beach seining	439
28.5 Boat seining in sea fisheries	441
28.6 Modernization of seine net fishing	444
29 Fish shoals and surrounding nets	449
29.1 Lampara-like surrounding nets	450
29.2 Purse seines	454
29.3 One-boat and two-boat seining	456
29.4 Variations of lampara nets and purse seines	461
29.5 Porpoises and tuna purse seining	462
29.6 Mechanization and improvement of purse seining	463
30 Fishing systems and harvesting machines	473
30.1 Pump fishing	474
30.2 Hydraulic dredges with pumps and/or conveyors	476
30.3 Harvesting machines for aquatic weeds	479
30.4 Fishing systems in the future	480
31 Fishery and gear research	483
31.1 General aspects of fishing gear research	483
31.2 Optimization of function	483
31.3 Optimization of operation	489
32 Fishing effects on fish stocks, other marine animals and the environment	493
32.1 Size selectivity	494
32.2 Species selectivity	499
32.3 Environmental impact	502
Appendix Classification of catching methods	507
A.1 Principles of classification	507
A.2 Main groups of catching methods	508
A.3 Revised classification	509
