Contents

<i>Foreword by Kenneth E. Boulding</i>	xiii
<i>Preface</i>	xvi
<i>Acknowledgments</i>	xix
Chapter 1: Why Study Research Methodology in Economics?	1
The Variety and Extent of Research Efforts Involving Economists	
What is Methodology?	
Why Not a Book on Research Techniques and Methods?	
Undergirding Philosophies	
Sensitivities About Philosophic Orientations	
Semantic Fears	
This Book is for Economists, Not Philosophers	

Objectives of The Book
 Structure of The Book
 Assigned Readings
 Required Readings
 Additional References

Chapter 2: Three Kinds of Research **11**

Description of the Three Kinds of Research
 Problem Solving
 Discussions of the Meanings of Terms
 Different Kinds of Research Require Different Kinds
 of Knowledge
 Different Methods Required for the Three Kinds of
 Research
 Ideology in Economic Research
 Implications for Practicing the Three Kinds of
 Research
 Required Readings
 Additional References

**Chapter 3: A Preliminary Overview of Philosophies
 Important in Economics** **30**

Positivism
 Normativism
 Pragmatism
 Nonpragmatic Prescription
 Existentialism
 Required Readings
 Additional References

**PART I PHILOSOPHIC UNDERPINNINGS AND BASIC
 METHODOLOGY**

Chapter 4: Positivism **41**

A Brief History of the Origin of Positivism
 The Presuppositions of Positivism
 Logical Positivism
 Positivist Difficulties with Values
 Positivist Objectivity
 Other Difficulties with Positivism
 Implications of Positivism for The Three Kinds of
 Research

Required Readings
Additional References

Chapter 5: Normativism **54**

Objective Normativism
Implications for the Three Kinds of Research
Required Readings
Additional References

Chapter 6: Pragmatism **65**

Methods Associated with Pragmatism
Lack of Clarity About Intrinsic, Instrumental, and
Exchange Values in Pragmatism
Pragmatic Tests for Truth
The Pragmatic Interest in Time and in Who is
Benefitted and Harmed: Interaction and Iteration
Pragmatism and Dialectical Materialism Related
The Unity of Science, Pragmatism, and Positivism
Strengths and Weaknesses of Pragmatism
Implications of Pragmatic Methods for Doing The
Three Kinds of Research
Required Readings
Additional References

Chapter 7: Positivism in Economics **76**

The Rise of Positivism in Economics
Confusion About Positivism in Economics
Positivism in an Applied Subject-Matter Area:
Agricultural Economics
Retrospection from Econometrics to the Rationalism
of Locke and Leibniz
Positivism and Quantitative Methods are Not
Synonymous in Economics
Pareto's Positivism
The Impact of the Late 1960s and Early 1970s
Consequences of Positivism in Economics
Consequences of Positivism for the Three Kinds of
Research
Required Readings
Additional References

Chapter 8: Normativism in Economics	94
Pareto Optimality	
The Work of Practitioners	
Objective Knowledge of Values	
Knowledge of Values versus Prescriptive Knowledge	
Nonpragmatic Prescriptive Knowledge and Decision Making	
A Return to Research on Values in Economics	
Implications of Normativism for the Three Kinds of Research	
Required Readings	
Additional References	
Chapter 9: Pragmatism in Economics	106
John R. Commons and Pragmatism	
Pragmatism Under Attack	
Resurgence of Pragmatism and Institutional Economics	
Implications for the Three Kinds of Research	
Required Readings	
Additional References	
PART II RESEARCH CASE STUDIES	
Chapter 10: Disciplinary Case Studies	121
Wassily Leontief's Research on Input/Output Relationships	
T. W. Schultz's Research on Human Capital	
Philosophical and Methodological Generalizations About Disciplinary Research	
Additional References	
Chapter 11: Subject-Matter Case Studies	139
Karl Fox's Research on Social Indicators	
World Food and Nutrition Study (WFNS)	
Philosophic and Methodological Generalizations About Subject-Matter Research	
Additional References	

Chapter 12: Problem-Solving Case Studies	160
The Michigan Pickle Study	
Consumers Power Company's Application for an Interim Rate Increase	
Philosophical and Methodological Conclusions About Problem-Solving Research	
Additional References	
PART III IMPLICATIONS OF THE STUDY OF PHILO- SOPHIC UNDERPINNINGS AND METHODOLOGIES AND CASE STUDIES	
Chapter 13: Research Support and Accountability For Economic Research	181
Mobilization of Research Support in General	
Demands for Accountability in General	
Disciplinary Research (Of Known and Unknown Relevance)	
Subject-Matter Research	
Problem-Solving Research	
Confusions About Kinds of Research Detracts from Research Support and Confounds Accountability	
Difficulties in Reallocating Support from Problem- Solving and Subject-Matter Research to Disciplinary Research	
Improving Policy for Support of Economic Research	
Additional References	
Chapter 14: Administration and Conduct of Economic Research	195
Disciplinary Research	
Subject-Matter Research	
Problem-Solving Research	
"Soft Money" and the Procurement of Adequate Ad- ministration for Problem-Solving and Subject- Matter Research	
Required Readings	
Additional References	

Chapter 15: Review and Evaluation of Economic Research	207
Evaluation and Review of the Three Kinds of Research	
Required Readings	
Chapter 16: Durability, Practical Importance, Opportunities, and Complementarities, by Research Classes	215
Disciplinary Research	
Subject-Matter Research	
Problem-Solving Research	
Summary	
Additional References	
Chapter 17: Appropriate Philosophic Underpinnings and Research Methodologies for Economists	221
Generalizations About Problem-Solving, Subject-Matter, and Disciplinary Research	
Philosophies and Methodological Generalizations About the Research of Economists	
Additional Selected Methodological Topics for Economists	
Additional References	
Index	247
