CONTENTS

PREFACE (ROBERT S. COHEN)	xiii
ACKNOWLEDGEMENTS	xv

PART I / A HISTORICO-CRITICAL INTRODUCTION

Chapter 1. Some data	3
Chapter 2. Kazimierz Twardowski (1866–1938), the creator of the Lwów-Warsaw School (LWS)	8
Chapter 3. The Lwów-Warsaw School (1895–1939)	15
Chapter 4. The LWS and the Vienna Circle (VC)	19
Chapter 5. Zygmunt Zawirski, a Short Bio-Bibliography (28.IX.1882–2.IV.1948)	33
5.1. The Methodological Problems of Science	37
5.2. Logic and its Applications to Physics	43
5.3. Time	64
Notes	79

PART II / ZYGMUNT ZAWIRSKI: SELECTED WRITINGS ON TIME, LOGIC & THE METHODOLOGY OF SCIENCE

Chapter 1. REPORTS	83
1.1. An Account of the Eighth International Philosophical Congress (1934)	83
1.2. Impressions from the First International Congress of Scientific Philosophy (1935)	98
Chapter 2. LOGIC	112
2.1. The Relations between Multi-valued Logic and Probability Calculus	112
2.2. The Genesis and Development of Intuitionistic Logic	117
Chapter 3. METHODOLOGY	169
3.1. Relationship between the Principle of Causality and the Principle of Relativity (A Habilitation Lecture)	169
3.2. Observations on the Method of Natural Sciences	186

Chapter 4. Time: Selections from <i>The Evolution of the Notion of Time</i>	190
Part One	
Introduction: A Brief Survey of the Time Theories	190
4.1. Antiquity	194
– Definition of Time According to Archytas of Tarentum, the Pythagorean	194
– Negation of Becoming and of Time According to the Eleatics	195
– Plato. Time: Moving Image of Eternity	197
– Aristotle. Time Is the Number of Motion According to the Prior and the Posterior	199
– Time and the Atomists	205
– The Sceptics: All Options Regarding the Nature of Time Have the Same Force	206
– Plotinus. Criticism of Aristotle's Theory. Defence of Plato's Theory	208
– Time as a Substantial Being in Iamblichus and Proclus	214
4.2 Medieval Christian philosophy	216
– Saint Augustine Examines Time from the Psychological Point of View	216
– Saint Thomas Develops Aristotle's Theory of Time	219
4.3. Time in Modern Philosophy and Science	222
– First period: The Seventeenth Century through Newton	222
★ Suarez Distinguishes Material Time from Spiritual Time	222
★ Descartes: Opposition to Scholasticism	223
★ Spinoza. The Foundations of his Theory Borrowed from Descartes and the Scholastics	226
★ Hobbes. Time: <i>Phantasma Motus Numerati</i>	228
★ Locke. Duration: Distance which Separates two Ideas in our Mind	229
– Second Period: From Newton to Kant	234
★ Newton's theory of Absolute Time	234
★ Leibniz. Time: The Order of Successions (non-constant possibilities). Polemic with Clarke	237
★ Berkeley: The Duration of a Mind must be Measured by the Number of Ideas	243
★ Hume. Time: A Mode of Appearance of Impressions, which is not Itself an Impression	244

– Third Period: Kant and the 19th Century, up to the Advent of the Philosophy of Bergson and of the Theory of Relativity	248
★ The Theory of Kant. Time is only an <i>a priori</i> form of the internal sense	248
★ Time According to German Idealism: The Critique of Renouvier and German Neo-Kantism	248
★ Criticism of the Theory of Newton by Ernst Mach, and the Beginning of Psychological Research [into time]	249
★ Wundt and the Psychological Theories of Time	249
– Fourth Period: Current Theories of Time	249
★ Bergson's Theory of Time	249
★ Husserl and the Phenomenological Analysts of the Intuition of Time	250
★ Poincaré. Equality of Two Intervals and Simultaneity of Distant Events have only a Conventional Value	250
★ Enriques. Defense of a Natural Measurement of Time	251
★ Time in the Theory of Relativity	251
★ The Significance of the Theory of Quanta for the Idea of Time	252
Part Two / Time <i>Aporias</i> and Their Solution	252
Introduction: The Problems and the Method Used for Their Solution	252
1. The First Group of the Time <i>Aporias</i>	255
– A Critique of Newton's Theory of Absolute Time	255
– Criticism of Kant's Theory	259
2. The Second Group of Time <i>Aporias</i>	279
3. The Third Group of Time <i>Aporias</i>	307
4. The Last Group of Time <i>Aporias</i> : Continuity, Infinity, Irreversibility	347
– Continuity	347
– Infinity	358
– Irreversibility	361
Conclusion	365
Notes	369
