CONTENTS

PREFACE

CHAPTER I - INTRODUCTION

1.0	The Environment	1
1.1	The Disclosure Issue	3
1.2	Geographical Disclosure and Risk	5
1.3	The Objective of this Study	5
1.4	Limitations	6
1.5	Database and Methodology	7
1.6	Expected Contribution to Knowledge	8
1.7	An Overview	9

CHAPTER II - THEORY OF INFORMATION DISCLOSURE

2.0	Introduction	11
2.1	Disclosure	11
	2.11 User Needs	12
	2.12 User Environment	13
	2.13 A Disclosure Framework	14
2.2	Information	15
	2.21 Amount of Information (The Bayesian Approach)	17
	2.211 Uncertainty Reduction	17
	2.22 Value of Information	19
	2.221 Information Overload	21
	2.222 The Lens Model (The Regression Approach)	25
	2.23 Bayesian Vs Regression Approaches	30
	2.24 Information in a Multiperson Setting	34
2.3	Summary	36

CHAPTER III - SEGMENTAL DISCLOSURE ISSUES

3.0	Introduction	39
3.1	Segmental Disclosure Environment	40
3.2	Segmental Disclosure Requirements	42
3.3	Segmental Disclosure Criteria	47
	3.31 Predictive Ability Criterion	49
	3.32 Decision Usefulness Criterion	42
	3.33 Social Welfare Maximization Criterion	59
3.4	Segmental Geographical Disclosure	62
3.5	Summary	65

CHAPTER IV - INFORMATION DISCLOSURE IN CAPITAL MARKETS

4.0	Introduction	67
4.1	Theory of Efficient Markets	68
	4.11 Weak Form Test of Market Efficiency	68
	4.111 Random Walk	69
	4.112 Serial Correlation	71
	4.113 Spectral Analysis	73
	4.114 Information Theory Tests	74
	4.115 Filter Analysis	75
	4.116 Runs Analysis	75
	4.12 Semi-strong Form Tests of Market Efficiency	76
	4.13 Strong Form Tests of Market Efficiency	77
	4.14 Fair Game Model	78
4.2	Market Efficiency Revisited	79
	4.21 Perfect Markets	79
	4.22 Markets for Information	81
	4.23 Allocational Efficiency	82
4.3	Summary	82

CHAPTER V - RISK ASSESSMENT IN CAPITAL MARKETS

5.0	Introduction	85
5.1	Risk Assessment	86
5.2	Portfolio Theory	87
5.3	The Market Model	92
5.4	The Capital Asset Pricing Model (CAPM)	95
	5.41 Implications of the CAPM	96
	5.42 Empirical Tests of the CAPM	99
5.5	CAPM and Geographical Segment Disclosure	105
	5.51 Beta Stability	105
	5.511 Estimation Risk	106
	5.512 Horizon Problem	106
	5.513 Temporal Disaggregation	107
	5.52 Beta Determinants	108

	5.521	Instrumental Variables	109
	5.522	Multifactor Models	112
	5.523	The Arbitrage Pricing Model	112
	5.524	The International Market Model	113
5.6		Summary	115

CHAPTER VI - PRIOR RESEARCH

6.0		Introduction	117
6.1		User Behaviour Studies	117
	6.11	Disclosure Benefit Studies	119
	6.12	Consensus Studies	121
	6.13	Evaluation	125
6.2		Predictive Ability Studies	126
	6.21	Judgmental Response	127
		6.211 Simulation Studies	127
		6.212 Real Life Studies	129
	6.22	Model Testing	131
6.3		Content Analysis	140
6.4		Aggregate Market Level Impact	142
6.5		Geographical Disclosure	150
6.6		Summary	

CHAPTER VII - HYPOTHESES, DATABASE AND EXPERIMENTAL DESIGN

7.0		Introduction	159
7.1		Hypotheses	159
7.2		Database	161
7.3		Experimental Design	166
	7.31	Cumulative Average Residual (CAR) Method	167
	7.32	Other Possible Methods	169
		7.321 Dummy Variables	169
		7.322 Box-Jenkins Method	170
	7.33	Quasi-experimentation	172
		7.331 Regression Discontinuity Analysis	173
		7.332 Time Series Experimental Design	174
		7.333 Interrupted Time Series Analysis	176
		7.334 The Moving Regression Method	176
		7.335 Location of Structural Change	179
7.4		Summary	179

CHAPTER VIII - ANALYSES AND RESULTS

8.0		Introduction	181
8.1		Moving Betas	182

8.2	Testing for Differences in Moving Betas	182
8.21	Non-parametric Test	182
8.22	Parametric Tests	183
8.221	Testing for Independence	184
8.222	Testing for Stability	185
8.223	Testing for Impact of Intervention	186
	8.2231 Redefining the Time Series	187
	8.2232 Hypotheses Tested	188
8.3	Duration-Onset Analysis	189
8.4	Testing for Confounding Variables	191
8.5	Summary	193

CHAPTER IX - IMPLICATIONS

9.0	Introduction	211
9.1	Implications for Market Efficiency	212
9.2	Implications for Risk Assessment	215
9.3	Implications for Disclosure Policy	218
9.31	Voluntary Disclosure	218
	9.311 Agency Theory	219
	9.312 Agency Costs	220
	9.313 Moral Hazard	221
	9.314 Incentive Signalling	222
9.32	Mandatory Disclosure	224
	9.321 Market Failure	225
	9.3211 Externality	227
	9.322 Nonmarket Failure	229
9.33	Social Choice	230
	9.331 Economic Consequences	232
	9.332 Disclosure Policy	234
9.4	Summary	236

CHAPTER X - CONCLUSION

10.0	Introduction	239
10.1	Summary	239
10.2	Contribution to Knowledge	241
10.3	Limitations	243
10.4	Areas for Future Research	247
10.5	Concluding Remarks	250

BIBLIOGRAPHY	269
--------------	-----

INDEX	295
-------	-----

FIGURES

2.1	A Priori Knowledge and Amount of Information	20
2.2	The General Relationship Between Environmental Complexity and Behavioural Complexity	22
2.3	Environmental Complexity Vs Information Processing	24
2.4	The Simple Lens Model	26
2.4a	Classification of Information Processing Variables	27
2.5	Regression Formulation of the Lens Model	29
3.1	Segmental Disclosure Requirements : A Summary	48
3.2	Interdependence of Disclosure Criteria	50
4.1	Testing Market Efficiency	80
4.2	Pareto Optimality and Market Efficiency	83
5.1	The Efficient Frontier	90
5.2	Capital Market Line	90
5.3	Security Market Line	91
5.4	The Market Portfolio	94
5.5	The Market Model	94
5.6	SML and Security Valuation	98
5.7	SML : Empirical Slope and Intercept	101
5.8	SML : Possible Theoretical Slope and Intercept	101
5.9	Empirical Tests of the CAPM	103
5.10	Alternative Models for Predicting Systematic Risk	110
6.1	Prior Research : An Overview	118
7.1	Box-Jenkins Method	171
7.2	Time Series Measurements	175
7.3	Duration-Onset Analysis	178
8.1	Kolmogorov-Smirnov Two Sample Test	195
8.2	Defining the Pre and Post Intervention Series	196
8.3	Differences Between Treatment and Control Group Betas Over Time	197

TABLES

3.1	Distribution of Assets Acquired in Large Mergers by Type and Period (percentages), in the USA	41
8.1	Moving Betas for Treatment Group Companies	198
8.2	Moving Betas for Control Group Companies	200
8.3	Kolmogorov-Smirnov Two-Sample Test	202
8.4	Autocorrelation Tests : Summary	203
8.5	Stability of Betas at Company Level : Summary	204
8.6	Treatment and Control Group Betas : Pre and Post Intervention	205
8.7	Differences Between Average Betas, Pre-Post	206
8.8	Differences Between Average Betas, Treatment-Control	207
8.9	Financial Leverage, Beta, and % Return on Equity	208
8.10	Confounding Variables Test	209

Contents

APPENDICES

VII(A)	Treatment Group Companies	255
VII(B)	Control Group Companies	256
VII(C)	Programme for Moving Regression	257
VII(D)	Database and Experimental Design : A Summary	260
VIII(A)	Autocorrelation Test : Treatment Group Moving Betas	261
VIII(B)	Autocorrelation Test : Control Group Moving Betas	262
VIII(C)	Company Analysis of Stability of Betas	263
VIII(D)	Differences Between Average Betas : Pre-Post	264
VIII(E)	Differences Between Average Betas : Treatment- Control	265
VIII(F)	Differences Between Cross-sectional Average Betas	266
VIII(G)	Some Possible Instrumental Variables of Beta	267
