Acknowledgements	vi
Acronyms, abbreviations and symbols	vii
1 Introduction	1
2 Background	3
2.1 Introduction	5
2.2 Safety aspects and scope of the manual	5
2.3 Irrigation dams	6
2.4 Community participation	8
2.5 Social and gender aspects	9
2.6 The USBR manual on small dams	10
3 Earth embankments	11
3.1 Introduction	13
3.2 The homogeneous embankment	13
3.3 The zoned embankment	15
3.4 Cutoff trench and core	16
4 Earth works	19
4.1 Investigations	21
4.2 Soils	24
4.3 Mechanical analysis	26
4.4 Laboratory tests	26
4.5 Borrow areas	27
5 Site selection and preliminary investigations	29
5.1 Introduction	31
5.2 Aerial photography	31
5.3 Field visits	32
5.4 Preliminary surveys	33
5.5 Catchment yield	33
5.6 Storage capacity	33
5.7 Preliminary volume of earthwork	34
5.8 Catchment area and spillway dimensions	34
5.9 Peak floods	36
5.10 Calculating the PMF using the rational method	36
5.11 Estimates of storage required	39
6 Detailed design	41
6.1 Introduction	43
6.2 Contour survey	43
6.3 Revised capacity	44
6.4 Revised volume of earthworks	44
6.5 Design drawings	47
6.6 Estimated cost of dam construction	48

6.7	Outlet works	48
6.8	The embankment	52
6.9	Freeboard	53
6.10	Core depth and thickness	53
6.11	Crest width	53
6.12	Settlement allowance	54
6.13	Stone pitching and training banks	54
6.14	Seepage	54
6.15	Filters and drains	54
6.16	Environmental issues	56
7	Dam construction	59
7.1	Setting out the dam site	61
7.2	Plant and equipment	63
7.3	Compaction equipment and techniques	63
7.4	Site clearing and preparation	65
7.5	Settlement	65
7.6	Spillway	66
7.7	Constructing the embankment	66
8	Special cases	69
8.1	Introduction	71
8.2	Earth embankment on rock foundation	71
8.3	Earth embankment using poor earthwork material	72
8.4	An existing embankment with seepage problems	72
8.5	Masonry centre spill dams	72
8.6	Bulldozer dams	73
8.7	Dams in low rainfall areas	74
8.8	Estimating capacity in a raised dam	75
9	Finishing works	77
9.1	Introduction	79
9.2	Inspection requirements	79
9.3	Training banks	80
9.4	Other works	80
9.5	Maintenance procedures	80
9.6	Trees and bushes	84
9.7	Erosion	84
9.8	Termites and animal burrows	85
10	Repair work	87
10.1	Introduction	89
10.2	Structural defects	89
10.3	Non structural defects	93
	Bibliography	95
	Glossary	96
	Annex 1	
	Procurement guidelines for tender preparation, evaluation and award of contract	101

Annex 2		
	Cost benefit analysis	109
Annex 3		
	Fish production in farm dams	112
Annex 4		
	Examples of standard drawings	115
