

EVALUATING POLICY REGIMES

New Research
in Empirical
Macroeconomics

Ralph C. Bryant

Peter Hooper

Catherine L. Mann

The Brookings Institution
Washington, D.C.

Contents

PART ONE: Introduction and Overview

1. *Ralph C. Bryant, Peter Hooper, and Catherine L. Mann*
Evaluating Policy Regimes and Analytical Models:
Background and Project Summary 3

PART TWO: Comparison and Evaluation of Model Simulations

2. *Dale W. Henderson and Warwick J. McKibbin*
An Assessment of Some Basic Monetary-Policy Regime Pairs:
Analytical and Simulation Results from Simple Multiregion
Macroeconomic Models 45
3. *Ralph C. Bryant, Peter Hooper, and Catherine L. Mann*
Design and Implementation of the Empirical Simulations 219
4. *Peter Hooper and Ralph C. Bryant*
Deterministic Simulations with Simple Policy Regimes 261
5. *Ralph C. Bryant, Catherine L. Mann, and Peter Hooper*
Stochastic Simulations with Simple Policy Regimes 373
6. Invited Contributors: Selected Comments and Reflections 416
John F. Helliwell 416
John B. Taylor 426
Christopher A. Sims 430
Bennett T. McCallum 444
Ray C. Fair 449
Donald L. Kohn 452

PART THREE: Stochastic Simulations of Monetary-Policy Regimes

7. *Paul R. Masson and Steven A. Symansky*
Evaluating Policy Regimes under Imperfect Credibility 461
8. *Peter J. Klenow*
The Importance of Federal Reserve Credibility: Evidence
from the TAYLOR Model 475
9. *Joseph E. Gagnon and Ralph W. Tryon*
Stochastic Behavior of the World Economy under Alternative
Policy Regimes 494
10. *Warwick J. McKibbin*
Stochastic Simulations of Alternative Monetary Regimes
Using the McKibbin-Sachs Global (MSG2) Model 519
11. *Nicos Christodoulakis, David Currie, Anthony Garratt, David
Kemball-Cook, Paul Levine, Ray Barrell, Jonathan Ireland, and
Peter Westaway*
Policy Analysis and Model Reduction Techniques with the
Global Economic Model 535

PART FOUR: Other Approaches to Monetary-Policy Regimes

12. *Pete Richardson*
Simulating the OECD INTERLINK Model under Alternative
Monetary-Policy Regimes 561
13. *Andrew Hughes Hallett, Patrick Minford, and Anupam Rastogi*
The European Monetary System: Achievements and Survival 617

PART FIVE: Applications and Extensions of Stochastic Simulation
Techniques to Particular Economic Sectors

14. *Jaime Marquez and Neil R. Ericsson*
Evaluating Forecasts of the U.S. Trade Balance 671
15. *Flint Brayton, William Kan, Peter A. Tinsley, and
Peter von zur Muehlen*
Modeling and Policy Use of Auction Price Expectations 733

16. <i>Ellen E. Meade and Charles P. Thomas</i> Using External Sustainability to Forecast the Dollar	769
